Hull and Deck Information

Hull Material: Fiberglass

Hull Configuration: Deep Vee

Engine Information

Engines: 2

Manufacturer: Mercruiser

Model: 8.1 HO

Engine Type: I/O

Fuel Type: Gas

DETAILED INFORMATION

Overview

Manufacturer Provided Description

The 400 SS has redefined the high performance express cruiser with the agility of a true performer and top speed of 60 mph provides captain and crew an exciting ride.

Formula Super Sports have the power to satisfy dayboaters who know what they want in spirited, fun-loving moments on the water. Long on looks and versatility, each Formula SS cockpit is designed around a comfortable lounge with stowaway table that offers great get-together appeal and easily converts to a large sunpad. The ever popular integrated wetbar in each cockpit is a Formula hallmark for convenient entertaining afloat, and there is a polished stainless drink holder within easy reach for everyone aboard. And, as you would expect, Formula Super Sports notch it up a step further with FAS3Tech hull technology to venture at an exhilarating pace.

Formula technology updates include iPod/MP3 ports at every cockpit dash with the option of a docking station in the cabin, LED cockpit, transom and cabin floor lighting, colored, dimming arch and hardtop lights and larger HDTV/DVD units. Optional blue LED underwater lights lend a fascinating glow around the Super Sports. The 370 and 400 also offer the new option of low-maintenance, teak woodgrain-finish decking on the swim platform and cockpit sole. Super Sport cabins appeal to the senses with high-gloss, Deep Cherry finish cabinetry, solid wood tables and luxurious Ultraleather lounges with beautiful décor pillows and coordinating draperies. Subtly patterned custom carpeting or American Cherry woodgrain-finish flooring completes the remarkable interior. Formulas wide selection of durable exterior colors and graphics invites owners to choose the combination that best suits their personal preference.

Vessel Walk Through
