## Обзор

The Savanah Yachts were designed by Luis DeBasio who is well known for some of the best Italian yachts designs.

***ANNA LISA*** is one of six hulls built by the factory in Rincon, GA and one of two finished at Hinckley in Savannah.  These boats were built with only the best materials and over engineered in some cases. The boat was designed to have large yacht engineering and amenities in a 54’ vessel.

The Atrium Salon patented by Savannah and a very unique and functional asset in the vessel, makes for a very large lower salon. She has 2 large cabins. The master has an ensuite head and vanity/desk as well. The after cabin has a twin bed setup and the head is just outside the door.

The upper salon and helm area has a retractable top.  The back doors and window open to the spacious cockpit.  Beyond the cockpit there is a hydraulic dive platform to additional water toys.

This stunning yacht is something to be seen and enjoyed as the present owner has for the past 10 years.

**If you are considering Sea Ray, Sunseeker, Pershing, Atlantis, Azimut, Cranchi, Uniesse, Fairline, or any other express yachts, THIS IS A YACHT MUST SEE!!!!!!!!!!**
