## OVERVIEW

---

Crafted for the challenging waters off the North Carolina coastline, the MYSTIQUE 48 CC stands as the ultimate sports-fishing yacht, seamlessly blending the rich maritime heritage of the area with cutting-edge technology. With a primary focus on fishing, the MYSTIQUE 48 CC also caters to families, offering an abundance of luxury, amenities, and sophisticated design.

With a collective experience of over a century, the talented team at Mystique Boatworks has a distinguished history of creating award-winning fishing yachts. The MYSTIQUE vessels are constructed using advanced composite materials and the latest technological innovations, ensuring they surpass your expectations even in the most turbulent seas, delivering both power and luxury for a safe return home.

**ELEGANCE** - The MYSTIQUE 48 CC showcases stunning, streamlined lines that embody the Carolina flair, featuring a beautifully sculpted integrated bracket and graceful turndowns, all proportionately designed to create a true work of art. This one-of-a-kind yacht, customized to your specifications, will undoubtedly make you the center of attention.

**EXCELLENCE** - The MYSTIQUE 48 CC is engineered for the dedicated angler. Our design process prioritizes how fishermen will utilize the vessel. We are committed to building a premium yacht that boasts impressive speed and an extensive fuel capacity of over 750 gallons, ensuring a comfortable and refreshing return to the dock after a day of fishing.

**POWER** - The MYSTIQUE 48 CC is unparalleled in its class, equipped with four Mercury Marine V12 Verado 600 HP engines, delivering a remarkable total of 2400 HP that can propel the yacht to speeds exceeding 60 MPH. The V12 is Mercury's quietest high-horsepower engine to date, and the contra-rotating propellers enhance thrust while facilitating smooth low-speed navigation.

**KEY CONTRIBUTORS:**

Let me introduce the key figures behind our management team. The esteemed Jim Luxton, co-founder of Jarrett Bay Boatworks, oversees the hull design and project management of hull #1's construction, utilizing cold-molded techniques. Jim's designs are celebrated for their classic Carolina lines and soft-riding hulls, which we will delve into further in the product discussion below.

MYSTIQUE is privileged to have Brian Cooke as our VP of Engineering. Brian began his career in the marine sector as an engineer for Grady-White and later took on a lead engineering role at World-Cat, where he significantly enhanced both quality and product range. Before joining MYSTIQUE, Brian served as Director of Engineering for Bluewave Boats, where he drove remarkable growth and quality improvements. His expertise lies in crafting designs that fulfill customer needs while maintaining aesthetic appeal and simplifying manufacturing processes, thus enhancing efficiency and production capacity. Before establishing MYSTIQUE in early 2021, Keith Stevens held the position of VP of Operations at Regulator Marine for 12 years (2006-2012, 2015-2021). He played a crucial role in elevating Regulator's quality and product consistency, while also advocating for sales representatives to meet customer expectations, whether it involved design modifications before production, providing transparent updates during construction, or delivering responsive support after purchase.

Explore yacht sales in the current boat location and seize the opportunity to buy a yacht that embodies luxury and performance. The MYSTIQUE 48 CC awaits its next owner, ready to make waves in the world of sports-fishing.
