## OVERVIEW

---

The L135' (41m) from the esteemed Legacy Super Yachts, based in the USA, showcases the artistry of renowned American designers Joe Lazzara and Ian Ombres. This remarkable aluminum yacht, powered by MTU, boasts an exhilarating top speed of 29 knots. Currently under construction with a launch anticipated in 12 months, she promises unparalleled craftsmanship and a design that sets the standard in luxury.

The interior, envisioned by the talented superyacht designer Alexandre Thiriart, features a harmonious blend of warm, rich hues, incorporating dark Indian rosewood, light reconstituted oak, and chenille, all infused with a touch of industrial flair and Art Deco elegance. This creates a sophisticated yet relaxed atmosphere throughout the guest areas. At this stage of her build, the interior can be tailored to reflect the owner's personal style.

Notable highlights include a walk-around top deck, an expansive flybridge complete with a Jacuzzi, and a generous beach club area or tender garage. The yacht is equipped with a davit for two wave-runners at the bow and boasts a shallow draft of just under 6'. Built to ABS A1 Commercial class standards, she offers an impressive volume of 318 gross tons, ensuring spacious interiors and open exterior decks adorned with floor-to-ceiling glass in the main salon.

The L135' features a grand main deck salon and a formal dining area with nearly nine feet of headroom. The full-size American galley, accompanied by a large settee, is perfect for hosting family and friends. The sense of openness is further enhanced by three expansive glass sliding doors that provide breathtaking panoramic views, complemented by a day head conveniently located off the galley. The yacht also includes a full-beam master stateroom at the bow of the main deck, featuring an office area with sea views, a king-size bed, a dressing room, and a his-and-hers bathroom. Additional accommodations on the lower deck consist of four VIP staterooms, and the

yacht is designed to accommodate a crew of seven, situated in the bow. Equipped with twin MTU 12V 4000 M93L 3460 HP diesel engines, she achieves a cruising speed of 25 knots and a maximum speed of 29 knots. The hull has undergone rigorous tank testing and development by naval architects Bill Prince and Ian Ombres, ensuring outstanding seakeeping abilities and efficiency. Most of the premium equipment and machinery systems are sourced from American suppliers for ease of service and maintenance. Exclusively listed and managed by Denison Yachting, this yacht for sale benefits from decades of expertise and a tailored management approach that meets the unique needs of each client. Denison provides real-time solutions for the various challenges of yacht ownership, from financial management and crew administration to technical support and compliance. Their mission is to serve as a strategic partner between the owner and crew, ensuring that expectations are consistently surpassed.

A comprehensive 129-page builder's specification and construction progress photos are available upon request. Explore yacht sales in the current boat location and seize the opportunity to buy a yacht that epitomizes luxury and sophistication.
