SPECIFICATIONS

Overview

Renovations and Upkeep:

The exquisite teak flooring has been meticulously sanded, complemented by the application of fresh sikaflex filler. Recent touch-ups in paint have enhanced the yacht's aesthetic appeal. A state-of-the-art Delfin watermaker, boasting a capacity of 250 L/h, was installed in 2022, ensuring ample fresh water supply. In 2024, a new seawater pump was incorporated to further elevate performance. The air conditioning system has been upgraded with a new circulation pump, while a modern heat exchanger has been added to the cooling system for optimal efficiency.

Thorough maintenance has been performed on the Onan generators, including the installation of new fuel pumps, heat exchangers, and serviced alternators, along with new seawater pumps and injectors. An oil filter service was conducted in 2024, with intercoolers and aftercoolers meticulously cleaned in 2023, and injectors finely adjusted for peak performance.

The yacht's shaft bearings and bellows have been replaced, with the shaft and propellers expertly aligned and balanced. Additionally, the previous antifouling layers have been sanded away, and a protective osmosis treatment has been applied, ensuring the vessel remains in pristine condition. This yacht is now available for sale in the current boat location, making it an ideal opportunity for those looking to buy a yacht that combines luxury with impeccable maintenance. Explore yacht sales in the current boat location and discover the elegance that awaits you.
