SPECIFICATIONS

Overview

One-of-a-kind, swift, and exceptionally suited for living aboard! This stunning yacht is powered by a sloop rig and features twin Yanmar 3GYM20 engines with saildrives, boasting only 300 hours of operation. Crafted by a single owner/builder, this vessel is a robust and reliable performance cruiser, capable of reaching speeds up to 11 knots and comfortably cruising at 7.5 knots.

Equipped with twin centerboards and a kick-up rudder, this yacht allows you to navigate close to shore or glide through shallow waters with ease.

The rotating mast, dual spreaders, and heavy-duty rigging ensure optimal performance, while the carbon fiber stanchions add a touch of elegance to the deck.

Designed by the renowned Ian Farrier of Farrier Marine in New Zealand, celebrated for his race-winning designs and seaworthiness, this yacht is constructed with only the finest materials—featuring core-cell and epoxy composite fiberglass. Launched in 2014 in Hood River, OR, it has been rigorously tested on the Columbia River and has cruised from Oregon down the stunning California coastline, even participating in the Baja Haha rally.

Spacious interiors enhance the outdoor living experience, making this a strong, practical, and fast cruising catamaran!

****Recent survey available upon request.**** Explore yacht sales in the current boat location and seize the opportunity to buy a yacht that embodies luxury and adventure!
