SPECIFICATIONS

Overview

The "Princess Sofia" is a stunning 25-meter classic yacht, distinguished by its exceptional design and rich heritage.

Constructed in the 1960s by the renowned naval architect, Mr. Jack Hargrave, the Princess Sofia stands as the largest fully aluminum yacht of its era.

Crafted with the highest quality materials and outfitted with twin General Motors engines, this vessel, built by Burger Boats Company, embodies timeless elegance and sophistication.

Since her debut, she has been meticulously cared for, making her one of the most exquisite yachts currently sailing the seas.

****Accommodation:****

Guest Capacity: 6

Number of Twin Berths: 2

Number of Double Berths: 1 Master

PHOTOS

Owner Charles DeVlieg (left) and Capt. John Borgen on the afterdeck of JIGMIL IV.

On time trials JIGMIL IV set a new speed record (22.8 mph) for her class.

JIGMIL IV all-aluminum

Trial runs indicate that JIGMIL IV has achieved owner C. B. DeVlieg's goal of "the ultimate in speed, seaworthiness, comfort, and ease of maintenance." It is his third Burger cruiser.

The 72' custom cruiser is the fifth and largest member of the rapidly expanding family of Burger all-welded, all-aluminum pleasure craft. Combining the best features of traditional boat building materials, aluminum gives the buoyancy and handling characteristics of wood — the strength, safety, reparability and space economy of steel.

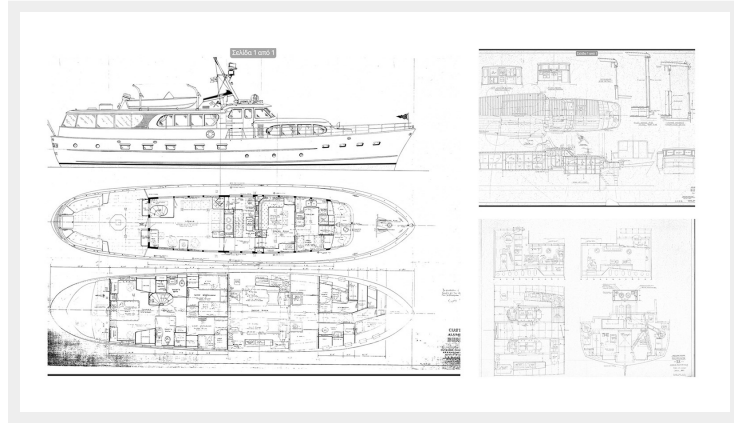

Burger has pioneered in both steel and aluminum yacht construction — take advantage of this unchallenged leadership when you plan your new yacht.

You can continue to look to Burger for leadership in fine yachts — in aluminum and steel.
