## Overview

---

The 50-meter Dynamiq superyacht, Project Apex, is currently available for purchase directly from the shipyard, with completion anticipated in less than a year. This yacht for sale offers a rare opportunity to buy a yacht that is over 55% complete, with delivery expected in Q1 2026. It presents a unique chance to own a fully-commercial, Dutch-spec superyacht with extensive interior customization options.

Crafted by the esteemed Dutch naval architects at Vripack, this yacht has already been recognized with the prestigious German Design Award for its exceptional innovation and design. Project Apex is engineered for outstanding performance and minimal fuel consumption, making it an attractive option for charters. Key features include:

- An all-aluminium hull capable of reaching speeds up to 16 knots.
- Economical and robust Volvo Penta main engines with SCR filters for efficient cruising.
- CMC HS80 stabilizers for enhanced onboard comfort and stability.
- Hull Vane aft-foil technology for improved hydrodynamic efficiency, offering 30% fuel savings and 40% pitch reduction.
- Dual ECDIS and a comprehensive NAVCOM package from Radio Holland.
- A 50 kW Lehmann Marine battery pack for peak-shaving and reduced generator load.
- Advanced insulation and thermal coatings for noise reduction and optimal climate control.
- A Bahamas-friendly draft of 2 meters.
- An ocean-going range of 5000 nautical miles.
- Elite Dutch naval architecture and a North European makers list.
- Full BV commercial certification and REG compliance.

Project Apex is available for purchase in its current state, with customization options still open for select areas. Prospective owners can tailor the exterior color scheme, interior finishes, furniture, lighting, carpets, marbles, and parquet.

Key construction milestones achieved so far include 100% hull completion, 70% interior workshop production, 59% piping installation, and 85% internal painting. Most equipment is already purchased and stored at the shipyard.

The yacht is priced "as is" at €14,900,000 / \$15,400,000, with the shipyard eager to sell and open to competitive offers. The completion cost is fixed at €10,000,000 / \$10,350,000, excluding VAT and charges. Standard Builder's contract (English Law) and allowances apply.
