## Overview

---

The interior helm station is equipped with comprehensive sail controls and offers exceptional visibility for an enhanced sailing experience.

The self-tacking jib boom simplifies the sailing process, ensuring a delightful and effortless journey on the water.

A skeg with a foil design not only safeguards the propeller but also elevates overall sailing efficiency.

The kick-up rudders facilitate operation in shallow waters (as little as 2 feet) and allow the yacht to rest securely on the protective skeg when beached.

Generous tank capacities include 210 gallons of fuel and 105 gallons of fresh water, ensuring extended voyages without frequent stops.

Weighing under 20,000 lbs (fully loaded), this lightweight cruising catamaran delivers impressive performance, achieving routine speeds of over 15 knots and capable of reaching 25 knots or more.

The hull, deck, and structural bulkheads are constructed with foam cores, reinforced with carbon fiber and Kevlar in high-stress areas, providing maximum strength while minimizing weight.

Explore this exquisite yacht for sale in the current boat location, perfect for those looking to buy a yacht that combines luxury with performance. Discover the best yacht sales in the current boat location and elevate your sailing adventures today!
