OVERVIEW

The 10 VSX from AB INFLATABLES combines a compact footprint with straightforward upkeep and robust construction, offered through Shestakov Yacht Sales with brokerage by Andrey Shestakov. As a nimble motor yacht built on a resilient fiberglass and plastic hull, it's aimed at owners who prioritize simplicity and dependable performance.

Selecting a 10 VSX

Opting for the 10 VSX delivers a small-scale platform with essential practicalities: a single Tohatsu outboard, a modest but useful fuel supply, and a fiberglass deck designed for easy cleaning. It represents an accessible entry into the motor yacht segment with construction rooted in fiberglass and plastic materials. Work directly with Shestakov Yacht Sales and broker Andrey Shestakov to match the boat to your particular needs.

Features of the Model

- A concise LOA of 10 ft (3.2 m) and a 5 ft (1.7 m) beam make the boat simple to maneuver and store.
- Single-engine configuration: a Tohatsu outboard running on gas, chosen for ease of maintenance and reliability.
- Sturdy build with a fiberglass and plastic hull and a fiberglass deck for low-maintenance care.
- Designed for straightforward, low-hassle operation with sales and aftercare support from Shestakov Yacht Sales and broker Andrey Shestakov.

Technical Specifications

- Builder: AB INFLATABLES
- Model: 10 VSX
- Category: motor yachts class
- Hull construction: fiberglass and plastic
- Deck material: Fiberglass
- LOA: 10 ft (3.2 m)
- Beam: 5 ft (1.7 m)
- Engine(s): 1 x Tohatsu
- Engine type: Outboard
- Fuel type: Gas
- Fuel capacity: 6 gal

Pricing and Ordering

For up-to-date pricing, build options, and a tailored quote on the 10 VSX by AB INFLATABLES, contact Andrey Shestakov at Shestakov Yacht Sales. Our team will assist with specification choices, paperwork, and coordinating delivery to ensure a seamless acquisition.

Questions and Answers

- Q: What kind of boat is the 10 VSX? A: It's a compact motor yacht constructed on a durable fiberglass and plastic hull.
- Q: Who builds the 10 VSX? A: The vessel is manufactured by AB INFLATABLES, with sales support and brokerage handled by Shestakov Yacht Sales and Andrey Shestakov.
- Q: What engine does it use? A: The design accommodates a single Tohatsu **outboard** fueled by **gas** , offering uncomplicated operation and

straightforward servicing.

- Q: What are the key dimensions? A: The **LOA** is 10 ft (3.2 m) and the **beam** is 5 ft (1.7 m), paired with a fiberglass deck that complements the fiberglass and plastic hull.
- Q: What is the fuel capacity? A: The **fuel capacity** totals 6 gal, supporting the single Tohatsu **outboard** ; for purchasing specifics, reach out to Andrey Shestakov at Shestakov Yacht Sales.

Owner Experience Review

Owners commonly employ the 10 VSX as a compact tender for transfers to shore, and it also sees regular use for family day trips and exploring bays. The deep V fiberglass hull receives frequent praise for delivering a dry, comfortable ride and stable handling surprising for its size; many listings remark that it “runs strong and handles beautifully.” When equipped with 20–30 hp outboards it planes quickly and feels notably responsive.

The simple onboard layout suits short excursions: cushioned seating for up to four adults including a bow locker seat and a flip open aft seat with storage below. A foldable center console provides space for a small chartplotter, USB/12V charging points and a cupholder. As an open-deck craft, comfort is best in calm conditions; it excels at fishing, dive runs and quick shore hops but offers limited protection and storage for extended outings.

As a tender, the 10 VSX from AB INFLATABLES benefits from its light construction and four stainless lifting points that simplify davit use and garage stowage. Routine upkeep focuses on the outboard and normal tube care; the ORCA CSM fabric is promoted for UV and chemical resistance. Some owners report occasional seam or tube leaks on older AB inflatables over time, so regular inspection is advisable. Fuel is carried in a modest 6 gallon portable tank stowed in the bow locker, which limits range and means more frequent

refueling; one forum owner noted an estimated weight of about 465 lb for a 10 VSX with a 30 hp outboard, a helpful reference when planning hoist capacities.

Pros and Cons

- Deep V fiberglass hull provides a smooth, dry ride with predictable behavior in chop.
- Lightweight construction and nimble handling perform well with 20–30 hp outboards.
- Tender-oriented design includes four stainless lifting points for easy davit use or garage stowage.
- The open deck and absence of a cabin offer no weather protection and preclude overnighting.
- The small 6 gallon portable tank constrains range and necessitates more frequent refueling stops.
- Long term owners have occasionally reported seam or tube leaks on older AB inflatables, making periodic inspection and maintenance important.
