## OVERVIEW

---

The ADA 50Z created by ADA YACHT WORKS is an elegantly appointed motor yacht in the mega yacht category, built on a heavy-duty steel hull and configured as a full-displacement vessel to ensure composed, comfortable passages. Measuring 163 ft (49.9 m) overall with a 29 ft (9 m) beam, she offers a well-balanced mix of internal volume, fuel-efficient cruising characteristics, and spacious living for guests and crew. Available for inquiry through Andrey Shestakov and the team at Shestakov Yacht Sales.

## Selecting a ADA 50Z

---

Opting for the ADA 50Z signals a preference for the established construction standards of ADA YACHT WORKS, the steady seakeeping native to a full-displacement hull, and the long-term durability of a steel hull. With capacity for 12 guests and extensive crew quarters, this motor yacht addresses the needs of owners in the mega yacht segment who demand both capability and onboard comfort.

## Features of the Model

---

- Deliberate full-displacement hullform designed to deliver steady handling and comfortable motion at sea
- Robust steel hull complemented by steel decks for long-term resilience
- Twin MAN inboard diesel propulsion for dependable, long-range cruising
- Accommodates 12 guests with 8 heads; comprehensive crew accommodation (6 cabins, 9 berths)
- Large-capacity tanks: 13,208.6 gal fuel and 3,434.24 gal fresh water
- 497 GT of gross tonnage providing substantial interior volume across a 163 ft LOA and 29 ft beam

- Efficient cruising at 12 knots with a top achievable speed of 15 knots for timetable flexibility

## Technical Specifications

---

- Builder (shipyard): ADA YACHT WORKS
- Model designation: ADA 50Z
- Vessel category: motor yacht; Classification: mega yacht
- Hull material: steel hull; Deck construction: Steel
- Hull type: Full Displacement
- Length overall (LOA): 163 ft (49.9 m)
- Maximum beam: 29 ft (9 m)
- Draft: 8.202–8.53 ft (2.5–2.6 m)
- Gross tonnage (GT): 497 GT
- Propulsion: 2 x MAN; Inboard; Diesel
- Standard cruising speed: 12 kn (13.81 mph)
- Maximum speed: 15 kn (17.26 mph)
- Guest sleeping capacity: 12
- Number of heads: 8
- Crew accommodation: 6 cabins / 9 berths
- Fuel tank capacity: 13,208.6 gal
- Fresh water capacity: 3,434.24 gal

## Pricing and Ordering

---

For up-to-date pricing, customization options, and current availability of the ADA 50Z, please reach out to Andrey Shestakov at Shestakov Yacht Sales. Our brokerage team will assist with detailed specifications, estimated delivery schedules, and the steps required to place an order with ADA YACHT WORKS.

---

## Questions and Answers

---

- What type of yacht is the ADA 50Z? The ADA 50Z is a motor yacht categorized in the mega yacht class and constructed with a steel hull for enhanced strength and longevity.
- What engines power the yacht? The propulsion package consists of **2 x MAN inboard diesel** engines, chosen for dependable performance on a full-displacement platform.
- What are the cruising and maximum speeds? The vessel's recommended **cruising speed** is 12 knots (13.81 mph), while the **maximum speed** is approximately 15 knots (17.26 mph), providing a balance between efficiency and schedule adherence.
- How many guests and crew can be accommodated? The yacht **sleeps 12** guests and includes **8 heads**, with crew facilities providing **6 cabins** and **9 berths** to support professional onboard service.
- Who can assist with pricing and purchase? For matters of **pricing** and **ordering**, contact Andrey Shestakov at **Shestakov Yacht Sales** for assistance in acquiring the ADA 50Z from ADA YACHT WORKS.

---

## Owner Experience Review

---

The ADA 50Z delivered by ADA YACHT WORKS is conceived as a versatile platform suitable for private family cruising and upscale charter operations. Its layout supports up to 12 guests across six cabins, while service and crew areas are sized to accommodate as many as 10 personnel, enabling attentive service during larger charters. The yacht's exterior living spaces are varied and well-defined, anchored by two pools—the primary aft plunge pool that benefits from deployable bulwarks to broaden the stern entertaining area, plus an additional foredeck pool—allowing for distinct social zones within the 497 GT envelope.

At sea, the yacht's behavior reflects the full-displacement naval architecture developed with Ginton Naval Architects. Published figures reference twin mains rated at 1,325 hp each and a quoted top speed near 15 knots, with the most efficient and comfortable cruising achieved at lower displacement speeds. With roughly 50 m of length overall, an approximate 8 m beam, and 497 GT of interior volume, the design prioritizes steady seakeeping—particularly well suited to Mediterranean cruising—rather than high-speed planing performance. Interior work by LUCA DINI Design & Architecture emphasizes tactile, enduring materials—"This is a space meant to be lived in, where materials not only express beauty but endure with grace"—and the owner's suite is arranged aft on the upper deck with its own terrace, Jacuzzi and bar to enhance privacy. As a relatively recent model introduced in the 2024–2026 period, long-term owner maintenance records are limited; prospective owners should plan for the elevated servicing and operational costs commonly associated with 50 m displacement yachts powered by twin high-output diesel engines, although no systemic issues have been reported publicly to date.

## Pros and Cons

---

- Charter-friendly family arrangement for up to 12 guests across six suites, supported by crew accommodations capable of housing up to 10 staff.
- Dual pools and deployable aft bulwarks create adaptable exterior living and entertainment areas.
- Displacement hull penned by Ginton Naval Architects delivers stable seakeeping and economical cruising at lower speeds.
- New model with limited long-term owner maintenance feedback currently available.
- Twin 1,325 hp engines suggest elevated service and operating expenditures typical of 50 m displacement yachts.

- Design and press data indicate a top speed of around 15 knots, so the yacht is not designed for high-speed planing operation.

## Comparison with Other Models

Model	LOA	Beam	Draft	Speed (Cruising/Max)	Gross Tonnage
ADA 50Z	163' 0" (49.90 m)	29' 0" (9 m)	8' 2" (2.50 m) – 8' 6" (2.60 m)	12 kn / 15 kn	497
Custom Built Sailing Yacht	128' 0" (39 m)	26' 0" (8 m)	13' 3" (4.05 m)	10 kn	183
