OVERVIEW

The 26M from AEGEAN YACHT is presented as a motor yacht within the broader motor yachts class, built on a robust steel yacht hull. Measuring 85 ft (25.98 m) LOA with a 22 ft (6.9 m) beam, she typically cruises at 11 kn (12.66 mph) and can reach 13 kn (14.96 mph), offering accommodation for 12 guests plus 4 crew cabins.

Selecting a 26M

- Opt for the 26M if you require a substantial motor yacht constructed with proven steel yacht construction and a steel deck.
- Size and interior volume: 85 ft (25.98 m) LOA, 22 ft (6.9 m) beam, rated at 187 gross tons.
- Propulsion: twin MAN inboard diesel units provide dependable, straightforward power; designed to cruise at 11 kn with a 13 kn maximum.
- Endurance-focused tankage: 4,411.67 gal fuel capacity and 1,394.83 gal fresh water capacity for extended passages.
- Accommodation layout: cabins for 12 guests with 4 dedicated crew cabins to support operations and service.

Features of the Model

- A heavy-duty steel yacht build combined with a steel main deck yields long-term durability.
- Twin MAN inboard diesel engines deliver an economical 11 kn cruise and a 13 kn top speed.
- A substantial 187 GT interior volume positions her solidly within the motor yachts segment.
- Guest capacity for 12 alongside four crew cabins designed for professional

service and operational needs.

- Hull and interior styling developed by AEGEAN YACHTS to match the vessel's long range intent.

Technical Specifications

- Model: 26M
- Builder: AEGEAN YACHT
- Type: motor yacht in the motor yachts
- Hull: steel yachts
- Deck: Steel
- LOA: 85 ft (25.98 m)
- Beam: 22 ft (6.9 m)
- Max draft: 22.605 ft (6.8899 m)
- Gross tonnage: 187 GT
- Engines: 2 x MAN, Inboard, Diesel
- Cruising speed: 11 kn (12.66 mph)
- Max speed: 13 kn (14.96 mph)
- Accommodation: 12
- Crew cabins: 4
- Fuel capacity: 4,411.67 gal
- Fresh water capacity: 1,394.83 gal

Pricing and Ordering

Price and current availability for the 26M by AEGEAN YACHT can be provided upon request. For detailed specifications, market status, and ordering guidance, contact broker Andrey Shestakov at Shestakov Yacht Sales. The Shestakov Yacht Sales team will arrange viewings and manage the documentation process to match your acquisition schedule.

Questions and Answers

Q: What type of yacht is the 26M? A: The 26M is a motor yacht listed in the motor yachts category and built on a steel yacht hull. Key **Type** and **Hull** attributes highlight its durability and practical design.

Q: What are its principal dimensions and volume? A: **LOA** measures 85 ft (25.98 m), **Beam** is 22 ft (6.9 m), and **Max draft** is 22.605 ft (6.8899 m). The vessel's **Gross tonnage** is 187 GT. Guest **Accommodation** is for 12, with **Crew cabins** numbering 4.

Q: What powers the yacht and how fast does it go? A: Propulsion comprises **Engines** 2 x MAN, **Inboard** , **Diesel** . The listed **Cruising speed** is 11 kn (12.66 mph) with a **Max speed** of 13 kn (14.96 mph).

Q: What are the fuel and water capacities? A: The yacht carries **Fuel capacity** of 4,411.67 gal and **Water capacity** of 1,394.83 gal, allowing for extended periods between refueling and resupply.

Q: How do I get pricing or place an order? A: For **Pricing** and to place orders for the 26M by AEGEAN YACHT, reach out to broker Andrey Shestakov at Shestakov Yacht Sales. The brokerage will provide availability updates and oversee the purchase process.

Owner Experience Review

Reports from initial operation of the 26M by AEGEAN YACHT emphasize its steady, fuel efficient passagemaking rather than outright speed. Owners note the heavy steel hull paired with CMC electric stabilisers produces predictable motion over long distances, with an economical speed band between 8–11 knots, a common cruise around 9.5 knots, and a top end in the 12.5–12.7 knot window. At lower speeds the yacht is capable of about 3,500 nautical miles of

range, which is why she is frequently chosen for long range offshore runs and charter programs.

Aboard, the focus is on privacy and generous volume for both families and charter groups. The layout includes three full beam master suites arranged on separate decks, and up to 12 guests accommodated across six cabins, all within an unusually spacious interior of roughly 187 GT finished in oak timbers and lacquered surfaces. The service plan prioritises the crew—four crew cabins plus a separate galley and dedicated circulation—which supports professional operation for weekend use or extended passages. Since the first hull launched in 2022, long term fault records remain limited; publicly available owner feedback has not highlighted widespread systemic issues, and maintenance expectations follow standard practice for steel hulls and MAN inboards (the initial hull was noted as having twin MAN engines of approximately 650 hp).

Pros and Cons

- Long range capability—around 3,500 nautical miles at reduced speeds—supports genuine offshore passages.
- The heavy steel hull combined with CMC electric stabilisers delivers a steady, comfortable motion on long legs.
- Three full beam master suites on separate decks offer notable privacy for families or charter clients.
- The full displacement profile with an 8–11 kn efficient band and an approximate 9.5 kn typical cruise will not satisfy buyers prioritising high speed.
- The crew forward service layout is better suited to professionally crewed operations than owner operators who prefer minimal crew.
- Limited long term owner fault data since the first hull's 2022 launch and relatively sparse public reporting.

Comparison with Other Models

Model	LOA	Beam	Draft	Speed (Cruising/ Max)	Gross Tonnage
Yacht 28	91' 0" (28 m)	23' 0" (7.23 m)	4' 11" (1.50 m)	10 kn / 13 kn	169
