OVERVIEW

36 by Aquila Power Catamarans is a multipurpose motor yacht designed for easy operation and onboard comfort. Built on a fiberglass and plastic hull, it is commonly configured with twin MERCURY outboards and offers capacities suited to both day trips and extended weekend cruising. For global brokerage assistance, contact Andrey Shestakov at Shestakov Yacht Sales.

Selecting a 36

If your priorities include a compact yet wide motor yacht with twin outboards, two heads, and practical fuel and water stores, the 36 from Aquila Power Catamarans is worth considering. Its 36 ft LOA, 14 ft beam and 2 m (6.562 ft) draft, combined with twin MERCURY outboards running unleaded fuel, deliver a sensible mix of size and uncomplicated systems for buyers working with Shestakov Yacht Sales and broker Andrey Shestakov.

Features of the Model

- Builder: Aquila Power Catamarans
- Model: 36
- Type: motor yacht
- Hull: fiberglass and plastic; deck material: Fiberglass
- Engines: 2 x MERCURY, Outboard, Unleaded fuel
- Heads: 2
- Capacities: fuel 330 gal; fresh water 52 gal
- Dimensions: LOA 36 ft (10.97 m); beam 14 ft (4.44 m); draft (min) 6.562 ft (2 m)
- Hull configuration: Other

Pricing and Ordering

To obtain up-to-date pricing, check availability, or schedule a showing or listing for your 36 by Aquila Power Catamarans, please reach out to Andrey Shestakov at Shestakov Yacht Sales. Our brokerage team will supply full pricing details, delivery timelines, and assistance with the transaction paperwork for buyers and sellers of this motor yacht.

Questions and Answers

Q: Which engines equip the 36? A: The boat is powered by two **MERCURY Outboard** engines that run on **Unleaded** fuel, a setup chosen for its simplicity and serviceability.

Q: What are the key dimensions of the 36? A: The vessel's overall length (**LOA**)

is 36 ft (10.97 m), the beam is 14 ft (4.44 m), and the minimum draft (**draft**) is 6.562 ft (2 m).

Q: How many heads and what are the onboard capacities? A: The layout includes **2 heads** . Fuel capacity is **330 gal** and fresh water capacity is **52 gal** .

Q: What are the hull and deck materials? A: The primary **hull** construction is fiberglass and plastic, while the **deck** is built from Fiberglass.

Q: Who can assist with purchase or sale? A: For brokerage support on this motor yacht by Aquila Power Catamarans, contact **Andrey Shestakov** at **Shestakov Yacht Sales** for inquiries, offers, and assistance through closing.

Owner Experience Review

Owners and test crews describe the 36 from Aquila Power Catamarans as a highly adaptable day boat that also functions well as a weekend cruiser. It's a popular choice for family outings, island hopping and sandbar gatherings, with some examples even completing portions of the Great Loop; dealers and charter operators commonly deploy it for day-charter and excursion duties. On the water, feedback highlights a planted, smooth motion with little to no pounding over wakes, solid steadiness at rest and underway, and a modest lean into turns that's typical of powercat designs. Performance depends on the engine package—common fits range from 250–400 hp outboards—yet many owners report a comfortable cruising pace in the low 20 knot range. The optional Hydro Glide foil system is a frequent upgrade and is credited by owners and tests with improved efficiency, extended range and a more comfortable ride in chop, with manufacturer and test figures cited at roughly 30% performance gains for this hull. These characteristics make the boat well suited to short offshore legs, island-to-island passages and social cruising. Interior accommodations typically include two private cabins each with an en suite head, a light-filled saloon with wide windows, and a roomy cockpit

with a forward convertible sunbed—features often praised by owners. Joystick controls and wide walkthroughs simplify single-handed docking and onboard movement. From an ownership perspective, most hulls are equipped with twin Mercury Verado outboards serviced through dealers, and many buyers add extended Mercury warranties; the accessibility of outboards eases routine maintenance, though supercharged Verado models introduce additional service items and dealer-level work that can be expensive. Brokers commonly recommend budgeting annual ownership reserves in the mid $20k range. While there are no widely reported structural failures, owner forums note variability in fit and finish and advise comprehensive surveys that focus on window and deck bedding and checks for core issues or delamination. Enclosed “cruiser” saloon layouts enhance climate control for hot environments, whereas open versions without A/C depend more on ventilation and fans.

Pros and Cons

• Versatile platform that works as a day boat and a comfortable weekender for family cruising, island hopping, sandbar stops, and commercial day charter or excursion use.
• Stable, smooth ride with reports of minimal pounding through wakes; optional Hydro Glide foils improve comfort and efficiency with meaningful range advantages.
• Two private cabins with en suite heads plus a bright saloon, large cockpit, forward sunbed, and user friendly docking via joystick and broad walkthroughs.
• Cruise speed and fuel economy depend significantly on the chosen outboard package (250–400 hp), so performance varies between examples.
• Owner forums report inconsistencies in fit and finish, so a thorough pre purchase survey of windows, deck bedding and cored areas is

recommended.

• Annual ownership reserves are commonly modeled in the mid $20k range and dealer level Verado maintenance—including supercharged model service—can increase running costs.

Comparison with Other Models

Model	LOA	Beam	Draft	Speed (Cruising/ Max)	Gross Tonnage
36	36' 0" (10.97 m)	14' 0" (4.44 m)	6' 7" (2 m)
