# OVERVIEW

---

A85 by Arcadia Yachts is an 85-foot motor yacht in the Motor Yacht segment, built with a fiberglass and plastic hull and a semi-displacement profile for comfortable, efficient cruising. Presented by Shestakov Yacht Sales and broker Andrey Shestakov.

---

## Selecting a A85

---

Opting for the A85 places emphasis on roomy interiors, fuel-efficient voyaging, and calm long-distance passages. Measuring 85 ft (25.91 m) overall with a 23 ft (7.14 m) beam, she offers substantial onboard volume (109 GT) and a stable platform. The semi-displacement hull provides an economical 10-kn cruise with the ability to push to 16 kn when needed, driven by twin MAN inboard diesels. Accommodation for 8 guests, five heads, plus separate crew quarters comprising 2 cabins and 4 berths, makes her well suited to family life aboard or owner-operated charter work. Built and refined by Arcadia Yachts.

---

## Features of the Model

---

- Semi-displacement hull for a smooth ride at a **10 kn** cruise and up to **16 kn** max.
- Twin **MAN** inboard **diesel** engines (2) for reliable propulsion.
- Wide **23 ft (7.14 m) beam** and **109 GT** for spacious living and storage.
- fiberglass and plastic construction with GRP decks for durability and low maintenance.
- Guest layout for **8** with **5 heads** ; dedicated crew area with **2 cabins / 4 beds** .
- Designed and built by Arcadia Yachts as a refined motor yacht in the Motor Yacht class.

## Technical Specifications

---

- Length overall (LOA): 85 ft (25.91 m)
- Beam: 23 ft (7.14 m)
- Draft (min): 5.446 ft (1.66 m)
- Gross tonnage: 109 GT
- Hull configuration: Semi-Displacement
- Hull material: fiberglass and plastic
- Deck material: GRP
- Engines: 2 x MAN, Inboard, Diesel
- Cruise speed: 10 kn (11.51 mph)
- Max speed: 16 kn (18.41 mph)
- Accommodation: Sleeps 8; Heads: 5
- Crew: 2 cabins; 4 beds
- Fuel capacity: 2456.8 gal
- Fresh water capacity: 422.68 gal
- Hull designer: Arcadia Yachts

## Pricing and Ordering

---

For current pricing, build slots, and delivery timelines for the A85 by Arcadia Yachts, reach out to Shestakov Yacht Sales. Broker Andrey Shestakov can provide detailed specification guidance, help you select options and layouts, and assist throughout the purchase and commissioning process.

## Questions and Answers

---

Q: What type of yacht is the A85? A: It's a **motor yacht** in the **Motor Yacht class**, featuring a **fiberglass and plastic hull** and a semi-displacement design.

Q: How fast does the A85 cruise and what is the top speed? A: **Cruise speed** is **10 kn (11.51 mph)** and **max speed** is **16 kn (18.41 mph)** , reflecting its semi-displacement hull characteristics.

Q: How many guests and crew can the A85 accommodate? A: The yacht **sleeps 8** with **5 heads** , and includes a separate **crew** section with **2 cabins** and **4 beds** to support professional operations.

Q: What powers the A85? A: Propulsion comes from **twin MAN inboard diesel** engines ( **2** ), chosen for dependable power and service support.

Q: What onboard capacities support longer stays? A: **Fuel** capacity is **2456.8 gal** and **fresh water** capacity is **422.68 gal** , which together suit extended cruising when run efficiently.

## Owner Experience Review

---

Buyers are drawn to the A85 from Arcadia Yachts for its family-friendly layout, comfortable liveaboard proportions, and potential for charter operations. The main deck is planned as a single-level living environment optimized for extended time aboard. The so-called “winter garden” creates approximately 100 m<sup>2</sup> of airy, interconnected social areas with a high saloon headroom—owners frequently note ceilings in excess of 2.5 m—contemporary finishes, and flexible interior schemes, including collaborations with designers such as Hot Lab.

Underway, owners and reviewers characterize the A85 as a semi-displacement cruiser that favors fuel economy and seakeeping over outright speed. Typical comfortable cruising is reported around 12 kn, with peak speeds observed in the 16–17 kn range; the boat behaves predictably at displacement speeds and benefits from zero-speed stabilizers and a continuous glass superstructure that enhance comfort at anchor and reduce motion in common sea states. For

extended passages operators often run the yacht between 8–12 kn, and range planning figures cited by some owners point to about 2,500 nm at roughly 8 kn.

Operationally, the A85 commonly uses MAN in-line-six engines in the approximate 730–800 hp band, which supports broad parts and service availability. The integrated solar array helps lower generator use, though the large glazing footprint and solar panels add requirements for specialist cleaning and maintenance. Multiple hulls have been completed over the years (for example hull #12 delivered in 2017 and hull #18 in 2020+), and public records do not indicate systemic hull failures; pre-owned examples typically list standard maintenance and refit work such as engine servicing, generator overhauls, and interior refreshes.

## Pros and Cons

---

- Expansive main-deck “winter garden” (~100 m<sup>2</sup>) with abundant natural light and a notably high saloon ceiling.
- Efficient semi-displacement ride with a comfortable ~12 kn cruise, good economy, and zero-speed stabilizers for at-anchor comfort.
- Four-cabin guest layout and an unusually large owner’s suite with clear crew/guest separation suit family cruising or charter.
- Not a high-speed yacht; top speeds around 16–17 kn reflect a focus on economy over sprint performance.
- Extensive glass and integrated solar array benefit power management but require specialized cleaning and care.
- Expect routine servicing and periodic refit items (engines, generators, soft goods) as seen on resale and charter listings.

## Comparison with Other Models

Model	LOA	Beam	Draft	Speed (Cruising/ Max)	Gross Tonnage
Sherpa 80XL	85' 0" (25.91 m)	23' 0" (7.10 m)	14' 9" (4.50 m) – 15' 9" (4.80 m)	16.5 kn / 18.5 kn	95
