OVERVIEW

The Custom Trawler Motor Yacht from ATB SHIPYARDS is a 94 ft (28.8 m) motor yacht in the trawler class. Built on a sturdy steel hull and employing a Fast Displacement Hull form, this yacht combines seaworthiness with efficient passage-making. The hull is the work of ATB SHIPYARDS while the living spaces are styled by Vaton Design, providing comfortable accommodation for up to eight guests plus professional crew.

Selecting a Custom Trawler Motor Yacht

Opting for the Custom Trawler Motor Yacht signals a preference for robust construction, economical cruising, and onboard comfort. Its steel construction, Fast Displacement Hull, and an efficient 9-knot cruising profile make it attractive to owners who value true trawler character over high-speed performance. Accommodations and crew spaces are arranged to support extended voyages, backed by dependable systems and practical interior ergonomics. For tailored advice on specifications and how this model fits your cruising plans, contact Andrey Shestakov at Shestakov Yacht Sales.

Features of the Model

- Category and build: A practical motor yacht rooted in genuine trawler DNA and constructed on a steel hull.
- Naval architecture and design: Hull engineered by ATB SHIPYARDS; interior styling by Vaton Design.
- Power and performance: Single MITSUBISHI inboard diesel engine; efficient cruising at 9 kn and a top speed near 12 kn.
- Dimensions for comfort: 94 ft LOA with a 24 ft beam creates generous volume for guests, systems, and equipment.

- Liveaboard practicality: Accommodation layout for eight guests with four heads; crew quarters provide one cabin and three berths.
- Build integrity: Steel deck and a Fast Displacement Hull combine seaworthiness with measured efficiency and onboard comfort.
- Endurance-minded: Large fuel stowage of 4,226.75 gal enables long-range passages.

Technical Specifications

- Model: Custom Trawler Motor Yacht
- Builder: ATB SHIPYARDS
- Type: motor yacht / trawler
- Hull: steel hull; configuration: Fast Displacement Hull
- Hull designer: ATB SHIPYARDS
- Interior designer: Vaton Design
- LOA: 94 ft (28.8 m)
- Beam: 24 ft (7.3 m)
- Draft: 8.858 ft (2.7 m)
- Engines: 1 x MITSUBISHI; Inboard; Diesel
- Speed (cruise/max): 9 kn (10.36 mph) / 12 kn (13.81 mph)
- Accommodations: Sleeps 8; Heads 4
- Crew: 1 cabin; 3 beds
- Deck material: Steel
- Fuel capacity: 4,226.75 gal

Pricing and Ordering

To obtain current pricing, availability, or to begin the purchase process for the Custom Trawler Motor Yacht, please reach out to Andrey Shestakov at Shestakov Yacht Sales. Our brokerage team will match specification options

and delivery timing to your cruising intentions and handle negotiations, survey coordination, and contract closing on your behalf.

Questions and Answers

Q: What are the principal dimensions? A: The Custom Trawler Motor Yacht reports **LOA** 94 ft (28.8 m), **Beam** 24 ft (7.3 m), and **Draft** 8.858 ft (2.7 m).

Q: What is the performance profile? A: Plan on a **cruising speed** of 9 kn (10.36 mph) with a **maximum speed** around 12 kn (13.81 mph).

Q: What powers the yacht? A: Propulsion is provided by a single **MITSUBISHI inboard diesel** engine.

Q: How many people can stay aboard? A: The yacht's **accommodations** sleep 8 guests and include **4 heads** ; **crew** facilities consist of 1 cabin with 3 berths.

Q: What are the construction highlights and classification? A: This is a motor yacht with clear trawler lineage built on a steel hull; the **hull** is by ATB SHIPYARDS with **interiors** by Vaton Design and a **steel** deck. For purchase details, contact Andrey Shestakov at Shestakov Yacht Sales.

Owner Experience Review

Owners and captains evaluating the Custom Trawler Motor Yacht from ATB SHIPYARDS typically value long-range capability, solid seakeeping, and functional living spaces ahead of high-speed performance. Brokerage specifications for a 2005 28.8 m example list an approximate 3,100 NM range at displacement speeds, with a normal cruise near 9 knots and a top end of about 12 knots. The combination of Quantum zero speed stabilizers and a full-/fast displacement hull is credited with stable, blue water manners.

Propulsion on many examples is a single Mitsubishi S6R rated at roughly 435

HP, praised for economical operation at displacement cruise speeds. The design appeals to owner-operators and expedition-minded buyers who prioritize autonomy and reliability; however, the single-engine arrangement reduces propulsion redundancy, so proactive maintenance and thoughtful generator-backup strategies are important.

Recent brokerage service records cited include an August 2025 shaft removal and cutlass bearing replacement, selective repainting and a new rooftop bimini, engine service in June 2025, generator service in July 2025, and antifouling in June 2025. There is a discrepancy in documentation regarding hull material (aluminum versus steel) on certain listings, so a comprehensive survey is recommended to confirm hull and deck construction. Public owner forum commentary specific to this model is limited; most current insights are derived from broker listings rather than extended owner histories.

Pros and Cons

- Documented approximate range of 3,100 NM supports serious long range cruising and expedition use.
- Quantum zero speed stabilizers enhance comfort both underway and at anchor.
- Four en suite guest cabins plus separate crew quarters accommodate family cruising or small charter operations.
- Single Mitsubishi S6R main engine lowers propulsion redundancy, increasing the importance of disciplined maintenance planning.
- Modest performance—about 9 knots cruising and approximately 12 knots maximum—will not suit itineraries that demand speed.
- Conflicting paperwork on construction material makes an independent survey necessary to verify hull and deck composition.
