OVERVIEW

The 45 XC BRABUS LINE by Axopar blends offshore confidence with luxury detailing, presented by Andrey Shestakov and Shestakov Yacht Sales. This versatile motor yacht with a sleek классический walkaround профиль layout delivers performance and practicality for day cruising or adventure runs.

Selecting a 45 XC BRABUS LINE

Choose the 45 XC BRABUS LINE if you want a confident, driver focused platform with triple outboard power for swift passages and precise handling. Shestakov Yacht Sales, led by broker Andrey Shestakov, can guide you through build options, delivery timing, and ownership planning.

Features of the Model

• Triple [[engineCount]] propulsion from [[engineManufacturer]] ensures energetic acceleration and responsive control.
• Outboard installation keeps service simple and maximizes deck space for socializing and movement.
• The hull is a durable fiberglass construction with GRP deck for lightweight strength and longevity.
• True walkaround flow supports safe forward access and flexible seating arrangements.
• BRABUS LINE styling elevates the look with a sport luxury aesthetic.

Q: Who can help me order and deliver this yacht? A: Broker **Andrey Shestakov**

and the team at **Shestakov Yacht Sales** will manage **spec selection, pricing, contracts, and delivery** for the 45 XC BRABUS LINE.

Owner Experience Review

Owners and testers describe the 45 XC BRABUS LINE by Axopar as a confident, family friendly cross cabin platform that thrives in real world weekend use. The two cabin arrangement is considered roomy for the class and practical for overnights, with a forward cabin and a separate mid/aft space in XC variants. On deck, the social cockpit, summer galley functionality, and generous sunpads make it a strong dayboat as well. Several demo and brokerage examples with low hours reflect how dealers have used BRABUS Line boats to showcase options, and owners note the upgraded finishes add a premium feel.

On the water, reports emphasize a stable, planted ride helped by the wide beam, with a comfortable cruise around 30 knots and test day top numbers in the mid 40s. Feedback highlights composed handling and predictable manners in moderate seas, though at least one forum impression cautions about potential spray in certain conditions. Maintenance expectations align with triple outboards: standard service routines with easier access than inboards, but higher running and service costs versus single or twin setups. No widespread model specific failures have been flagged publicly, though routine attention to outboard linkages, electrics, and composite joinery detailing is advised.

Pros and Cons

• Stable, planted handling in moderate seas inspires confidence at family cruise speeds.
• Two cabin Cross Cabin layout works well for weekenders and short overnights.

• BRABUS Line trim elevates the atmosphere with upgraded finishes and detailing.
• Triple outboards increase fuel burn and scheduled service costs versus smaller setups.
• Some owners report potential spray in certain angles and conditions.
• Premium BRABUS finishes may demand more frequent cleaning and care.

Comparison with Other Models

Model	LOA	Beam	Draft	Speed (Cruising/ Max)	Gross Tonnage
45 XC BRABUS LINE	45' 0" (13.90 m)				
45	45' 0" (13.89 m)	13' 0" (4.12 m)	10' 8" (3.25 m)	19 kn / 35 kn	15433
