OVERVIEW

The BENNINGTON 23MFB pairs the simplicity of a single outboard powerplant with a compact motor yacht silhouette built on a practical pontoon arrangement. Its durable fiberglass and plastic hull supports a 25 ft (7.62 m) LOA platform designed for uncomplicated day boating. Contact Andrey Shestakov and the team at Shestakov Yacht Sales for guidance through selection and purchase.

Selecting a 23MFB

If your priority is a user-friendly 25-foot vessel that keeps ownership and operation straightforward, consider the BENNINGTON 23MFB. The single MERCURY outboard and compatibility with unleaded fuel simplify servicing and refueling, while the pontoon configuration lends itself to relaxed cruising and social days on the water. As a compact motor yacht, it appeals to buyers who value easy maneuvering, the shallow draft advantages of outboards, and the resilience of a fiberglass and plastic hull. Work with Andrey Shestakov and Shestakov Yacht Sales to confirm the right specification and delivery timing.

Features of the Model

- LOA of 25 ft (7.62 m) for easy handling and economical storage
- Single MERCURY outboard engine for straightforward propulsion
- Unleaded fuel compatibility for convenient refueling
- pontoon arrangement tailored for flexible day use
- fiberglass and plastic hull constructed for long term durability
- Deck material: Other
- Hull configuration: Other

Technical Specifications

- Builder: BENNINGTON
- Model: 23MFB
- Type: motor yacht
- Sub-type: pontoon
- Hull material: fiberglass and plastic
- LOA: 25 ft / 7.62 m
- Engines: 1 x MERCURY
- Engine type: Outboard
- Fuel: Unleaded
- Deck material: Other
- Hull configuration: Other

For up-to-date pricing, current availability, and to arrange an order for the BENNINGTON 23MFB, please contact Andrey Shestakov at Shestakov Yacht Sales. We will help coordinate options, delivery windows, and the paperwork to make your purchase process efficient.

Questions and Answers

Q1: What is the LOA of the 23MFB? A1: The **LOA** measures 25 ft (7.62 m), a length that balances easy trailering and storage with ample deck area typical of a pontoon.

Q2: Who builds this model and what type is it? A2: The **Builder** is BENNINGTON, and the 23MFB is a compact **motor yacht** configured as a **pontoon** .

Q3: What propulsion does it use? A3: It is powered by a **single MERCURY outboard** . The **Engine type** is Outboard and the **Fuel** specified is Unleaded for simplified fueling.

Q4: What is the hull made of, and what about the deck and configuration? A4: The **Hull material** is **fiberglass and plastic** . The **Deck material** is listed as Other, and the **Hull configuration** is Other.

Q5: How can I get pricing and place an order? A5: For details on **Pricing** and **Ordering** , contact Andrey Shestakov at Shestakov Yacht Sales. We will manage the coordination needed to secure your BENNINGTON 23MFB.

Owner Experience Review

Owners commonly use the 23MFB from BENNINGTON for family outings, social cruising, beach stops, watersports, and casual freshwater angling. Feedback from experts and owners praises the elevated fit-and-finish—features such as a glass windscreen, power Bimini, and the Vivid UX helm are frequently noted—while the Swingback lounger layout is favored for sunbathing and adaptable seating arrangements.

Performance-wise, owners highlight brisk acceleration; one owner described the hole shot as “absolutely amazing” when the boat is paired with higher power outboards. A professional sea trial recorded a top speed near 39.2 mph and an economical cruise at approximately 23.7 mph at 4,000 rpm, with reviewers also commending the boat’s seakeeping and handling characteristics. Some owners, however, note that achievable top speed can fall short of expectations or that the boat can feel underpowered depending on the propulsion package chosen.

A practical consideration is the modest fuel capacity—roughly 25 gallons—which limits range for extended runs. Owner reports are mixed on

durability: some cite corrosion or leaks in aluminum pontoons and early build concerns, while Yamaha outboards commonly installed on these models are generally viewed as dependable; some dealers even advertise a 6 year Yamaha engine warranty on certain new boats. Owners universally recommend verifying strong local dealer and service support before purchase.

Pros and Cons

• Versatile layout well suited to family cruising, beach stops, watersports, and light lake fishing.
• Noticeable acceleration and assured handling, with recorded top speeds in the high 30s (mph) and an efficient cruise near 23.7 mph.
• High-quality fit-and-finish and desirable options such as the Swingback lounger, glass windscreen, power Bimini, and Vivid UX helm.
• Some owners report not achieving expected top speeds or feeling the boat is underpowered depending on engine selection.
• Approximately 25 gallon fuel tank limits range for longer excursions.
• Reports of pontoon corrosion, early build issues, and variable warranty/dealer experiences make confirming local dealer support essential.

Comparison with Other Models

Model	LOA	Beam	Draft	Speed (Cruising/Max)	Gross Tonnage
23MFB	25' 0" (7.62 m)				
25 GL	25' 0" (7.72 m)	8' 0" (2.59 m)
