OVERVIEW

Experience the fusion of leisure performance and premium craftsmanship with the 28QX from BENNINGTON, presented by Andrey Shestakov and Shestakov Yacht Sales. As a refined motor yacht featuring a versatile pontoon-концепцией layout, this 28-footer unites comfort, social space, and confident handling on an алюминиевом корпусе.

Selecting a 28QX

Choosing the 28QX is a smart move if you seek open-deck versatility, social seating, and simple operation in a premium pontoon package. Powered by a single YAMAHA outboard and built on an efficient алюминиевом корпусе foundation, it’s well suited to day boating, waterfront cruising, and entertaining—backed by the service and guidance of Andrey Shestakov and Shestakov Yacht Sales.

Features of the Model

• Purpose-built pontoon-планировка designed for spacious, sociable deck living
• Proven single YAMAHA outboard power for simplicity and reliability
• Construction focused on an алюминиевом корпусе with aluminum decking
• Practical “Other” hull configuration for adaptable handling profiles
• Curated by Andrey Shestakov and Shestakov Yacht Sales for a seamless brokerage experience

Technical Specifications

• Length overall (LOA): 28 ft (8.53 m)
• Engines: 1 x YAMAHA
• Engine type: Outboard
• Fuel type: Unleaded
• Hull material: aluminum construction
• Deck material: Aluminum
• Hull configuration: Other
• Classification: motor yacht / pontoon-конфигурация

Pricing and Ordering

For current pricing, availability, and build or outfitting guidance for the 28QX by BENNINGTON, contact Andrey Shestakov and the team at Shestakov Yacht Sales. We'll help tailor the selection, power, and delivery timeline to your cruising plans and advise on survey, transport, and documentation.

Questions and Answers

Q: What makes the 28QX a strong choice among modern pontoons? A: Its **28 ft LOA** , **single YAMAHA outboard** , and **aluminum build** deliver a practical balance of space, efficiency, and low-maintenance durability.

Q: Is the 28QX considered a motor yacht or a pontoon? A: It's a motor yacht with a pontoon-концепцией layout, combining yacht-level comfort with pontoon flexibility.

Q: What materials define the structure of the 28QX? A: An **aluminum hull** , **aluminum deck** , and an алюминиевом корпусе construction focus support longevity and easy upkeep.

Q: Which engine configuration does the model use? A: A **single YAMAHA outboard** running on **unleaded** fuel, simplifying operation and service.

Q: Who can assist with purchase and delivery logistics? A: Andrey Shestakov and Shestakov Yacht Sales provide full **brokerage support** , including selection, negotiation, survey, and transport.

Owner Experience Review

Owners describe the 28QX from BENNINGTON as a capable day boat for family cruising, lake runs, and social weekends. The pontoon layout, upholstery, and overall interior refinement are frequently praised for entertaining and easy day-to-day use, with a smoother, more stable ride than older Q/LX series noted by multiple forum contributors. Reported top speed around 45 mph with a single outboard aligns with expectations for relaxed family cruising and mixed-use outings.

On-water behavior is generally stable and predictable in light chop, though some owners report prop cavitation when making sharp turns or applying heavy throttle during water-sports with single-outboard setups. Twin-engine variants are reported to improve acceleration, top speed, and maneuverability, and joystick-style helm aids make docking easier. A few owners highlight night-driving nuances—particularly bright push-button switches that can affect night vision—while maintenance discussions focus on routine engine service, checking stern pontoon hatches for proper latching, and isolated troubleshooting such as a port exhaust overheating case on an 8.2L I/O installation.

Pros and Cons

• Smooth, stable ride compared with older Q/LX series.

• Socially friendly layout with comfortable, easy-to-clean upholstery.
• Twin-engine versions offer better acceleration, speed, and maneuverability.
• Single-outboard setups can cavitate during aggressive water-sports turns.
• Bright push-button switches may impact night vision underway.
• Isolated maintenance notes include checking stern hatches and an 8.2L I/O exhaust overheating case.

Comparison with Other Models

Model	LOA	Beam	Draft	Speed (Cruising/Max)	Gross Tonnage
28QX	28' 0" (8.53 m)				
25 GL	25' 0" (7.72 m)	8' 0" (2.59 m)
