OVERVIEW

The Boston Whaler DAUNTLESS 270 delivers proven performance for active days afloat — a multifunctional motor yacht that doubles as a capable sport fisherman on a tough fiberglass and plastic foundation. Represented by Shestakov Yacht Sales and broker Andrey Shestakov, this model combines manageable proportions with offshore minded features to give owners confidence whether cruising or chasing fish.

Selecting a DAUNTLESS 270

If you want a center console that performs equally well for fishing, family days, and coastal cruising, the DAUNTLESS 270 is designed for that versatility. Measuring 27 ft (8.23 m) LOA with a 9 ft (2.74 m) beam, it provides roomy deck layout while a minimum draft of 4.659 ft (1.42 m) allows exploration of many nearshore areas. Twin MERCURY outboards running on unleaded fuel offer reliable, easy serviced propulsion, and the onboard 1 head enhances comfort for extended days. With 152 gallons of fuel capacity and 18 gallons of freshwater capacity, this motor yacht tailored to the sport fisherman owner is well proportioned for active use.

Features of the Model

• Construction you can count on: a fiberglass and plastic hull with a fiberglass deck built for durability and simple upkeep.
• Reliable propulsion: twin outboard MERCURY engines running on unleaded fuel for straightforward power delivery and servicing.
• Practical onboard comfort: 1 head and intelligently arranged tankage to support full, active days away from the marina.
• Balanced dimensions: 27 ft LOA, 9 ft beam, and a 4.659 ft minimum draft that

help the DAUNTLESS 270 perform in a range of conditions.
• Backed by experts: Shestakov Yacht Sales and Andrey Shestakov are available to assist from selection through final closing.

Technical Specifications

• Model: DAUNTLESS 270
• Builder: Boston Whaler
• Type: motor yacht; Class: sport fisherman
• Hull material: fiberglass and plastic
• Deck material: Fiberglass
• LOA: 27 ft (8.23 m)
• Beam: 9 ft (2.74 m)
• Minimum draft: 4.659 ft (1.42 m)
• Hull configuration: Other
• Engines: 2 x MERCURY, Outboard
• Fuel type: Unleaded
• Heads: 1
• Fuel capacity: 152 gal
• Water capacity: 18 gal

Pricing and Ordering

To obtain up to date pricing, check availability, or arrange a sea trial for the DAUNTLESS 270, reach out to Andrey Shestakov at Shestakov Yacht Sales. Our brokerage team will walk you through detailed specifications, compare options within the motor yacht and sport fisherman markets, advise on inspections and logistics, and manage the purchase process from offer to closing.

Questions and Answers

Q: What are the key dimensions of the DAUNTLESS 270? A: The vessel's **LOA** measures 27 ft (8.23 m), the **beam** is 9 ft (2.74 m), and the **minimum draft** is 4.659 ft (1.42 m), giving it a confident footprint for a variety of coastal and inshore conditions.

Q: What engines power this model, and what fuel do they use? A: The DAUNTLESS 270 is driven by twin **MERCURY Outboard** engines that burn **unleaded** fuel, providing dependable performance and straightforward maintenance.

Q: How is the boat categorized, and what is it best suited for? A: It's a flexible motor yacht configured as a capable sport fisherman, ideal for energetic fishing trips and relaxed family cruising alike.

Q: What are the capacities and onboard amenities? A: The craft carries **152 gal** of fuel, **18 gal** of fresh water, and includes **1 head** to make full days on the water more comfortable.

Q: What materials are used for the hull and deck? A: The hull is in the **fiberglass and plastic** category, while the **deck** is **fiberglass** , a combination that favors longevity and low maintenance.

For custom advice and to schedule a private showing, contact Andrey Shestakov at Shestakov Yacht Sales about the DAUNTLESS 270.

Owner Experience Review

Owners are drawn to the DAUNTLESS 270 from Boston Whaler because of its genuinely multi purpose layout. The ample forward lounge, convertible bow seating, and a full beam aft bench that converts into a casting deck make it straightforward to mix family cruising and watersports with inshore angling.

Generous insulated storage and fish lockers keep gear tidy, and the lockable console conceals a portable head with about 5'3.5" of headroom for longer days away from the dock.

On the water, the DAUNTLESS behaves with the consistent handling owners expect from Boston Whaler. The hull tends to lift over waves rather than slam through them, with double lifting strakes and reverse chines helping to reduce spray. In owner feedback and performance tests, the boat tracks straight at low speeds and exhibits only modest heel—approximately 10°—in turns, producing a composed feel in typical bay chop.

Daily ownership strengths include a spacious helm with strong visibility and supportive flip up bolsters, though some users have noted a desire for armrests and small ergonomic improvements. Access for servicing is sensible—batteries stowed under the aft hatch and breakers/panels located in the console—but owners point out that maintaining twin outboards is noticeably more involved than a single engine. The boat's relatively heavier build can lead to higher fuel consumption and greater wear over time. Several owners report that while twins offer quicker hole shot and higher top speeds, those who switched to a single setup did not regret the change for routine use.

Pros and Cons

• Versatile layout suits family cruising, watersports, and inshore fishing with convertible bow seating and an aft casting area.
• Stable, predictable ride that tracks straight and minimizes spray thanks to lifting strakes and reverse chines.
• Functional console with a lockable portable head and generally good access to batteries and electrical panels.
• Twin outboard configurations introduce significantly higher service and maintenance costs than a single engine alternative.

• Heavier construction can contribute to increased fuel consumption and accelerated wear over long term use.
• Helm ergonomics are solid, though some owners and reviewers would welcome armrests and a few refinement touches.
