OVERVIEW

Designed for easy, carefree outings, the 250 CARRIBEAN from CREST is a 25 ft motor yacht built on a practical pontoon platform with a sturdy aluminum hull. With an 8 ft (2.59 m) beam, a single MERCURY outboard using **Unleaded** fuel, and a 52-gallon fuel tank, it offers a balanced mix of space and uncomplicated ownership for relaxed cruising. For availability and full specifications, contact Andrey Shestakov and the team at Shestakov Yacht Sales.

Selecting a 250 CARRIBEAN

When evaluating the 250 CARRIBEAN, owners typically prioritize ease of use, stability, and low-maintenance construction. At 25 ft (7.62 m) overall and with an 8 ft (2.59 m) beam, it delivers the airy layout you expect from a pontoon design. The single MERCURY outboard paired with **Unleaded** fuel makes fueling and upkeep straightforward. Constructed with an aluminum hull and aluminum deck and listed with a hull configuration of Other, it suits casual lake and nearshore cruising needs. For personalized advice on whether this model matches your boating objectives, consult Shestakov Yacht Sales.

Features of the Model

• 25 ft LOA (7.62 m) with an 8 ft beam (2.59 m) giving a confident pontoon footprint
• Single MERCURY outboard; **Unleaded** fuel for simple refueling and routine service
• Durable aluminum hull and aluminum deck for reduced upkeep
• Thoughtful pontoon layout designed for social cruising and straightforward operation
• Marketed as a compact, fun motor yacht intended for day boating

- Fuel capacity: 52 gal

Pricing and Ordering

To obtain up-to-date pricing, current inventory, and brokerage support for the 250 CARRIBEAN by CREST, please reach out to Andrey Shestakov at Shestakov Yacht Sales. Our brokerage team can compare similar vessels within the motor yacht class and the pontoon segment, schedule inspections, and handle logistics to suit your timeframe.

Questions and Answers

Q: What type of yacht is the 250 CARRIBEAN? A: It's a compact motor yacht built around a sociable, open pontoon configuration and finished with a resilient aluminum hull.

Q: What are the dimensions of the model? A: The **LOA is 25 ft (7.62 m)** and the **beam is 8 ft (2.59 m)** , providing a stable, spacious platform well suited to daytime cruising.

Q: What propulsion does it use? A: It's outfitted with **1 x MERCURY Outboard** engine and runs on **Unleaded** fuel, which keeps operation familiar and maintenance predictable.

Q: What is the fuel capacity? A: The onboard **fuel capacity is 52 gal** , giving you range for extended day trips without frequent refueling.

Q: Who can help me purchase and inspect one? A: Contact **Andrey Shestakov** and the brokerage specialists at **Shestakov Yacht Sales** for professional guidance on viewings, negotiating terms, and closing.

Owner Experience Review

Owners most often employ the 250 CARRIBEAN by CREST for family outings and larger social gatherings; the floorplans commonly accommodate around 15 passengers. It handles well at sandbars and popular day-anchoring spots, and many examples are equipped with 250–300 hp outboards to support light towing and watersports. Dealers and brokers frequently present it as a no-fuss day-charter option centered on comfort and social time.

On the water, buyers often highlight notable performance when the boat is paired with more powerful engines. Tritoon configurations and specific SLR2/SLRC layouts are popular choices to boost carrying capacity and deliver a smoother ride at speed. In used-boat ads, you'll often see comments that the vessel "runs great," reflecting expectations for well-powered, properly maintained units.

Comfort features receive consistent praise: owners mention plush marine-grade upholstery, a sliding and reclining helm seat, illuminated cupholders, USB and 12V charging ports, and a standard Bimini; factory and aftermarket stereo systems also get positive mentions in listings. On the maintenance side, owner forums report instances of tube leaks, occasional

weld repairs, and a range of dealer/warranty experiences; nevertheless, many sellers provide documented dealer service histories and low engine hours. As with any purchase, inspect tube condition and service records carefully.

Pros and Cons

• Generous seating and lounging arrangements with ultra-soft vinyl and a sliding/reclining captain’s chair.
• Strong cruising capability when equipped with 250–300 hp outboards, making it well suited to sandbar excursions and light tow/sport activities.
• Tritoon options (including SLR2/SLRC) that raise load capacity and improve ride comfort at higher speeds.
• Some owners have reported tube leaks on particular boats.
• Reports exist of weld repairs and mixed experiences with dealer and warranty responsiveness.
• Peak performance is typically seen with higher-horsepower installations; lower-power setups may be less satisfying.
