OVERVIEW

The 27m TRAWLER from CUSTOM combines practical cruising behavior with roomy interiors. This motor yacht possesses authentic trawler character, spans 87 ft (26.5 m) overall, has a 23 ft (7.2 m) beam, and is designed to cruise efficiently at 12 knots powered by twin Volvo Penta diesel inboards.

Selecting a 27m TRAWLER

Opt for the 27m TRAWLER if your priorities are steady 12-knot passages, durable cold-molded construction, and living spaces capable of accommodating up to nine people. This motor yacht with clear trawler lineage delivers a well-balanced combination of comfort, fuel-conscious cruising, and straightforward systems and layout.

Features of the Model

- Propulsion and performance: twin (2) Volvo Penta inboard diesels; 12-knot cruising and 12-knot maximum speed (13.81 mph for both).
- Dimensions and stability: 87 ft (26.5 m) LOA, 23 ft (7.2 m) beam, and 6.332 ft (1.93 m) draft for confident monohull tracking.
- Construction: cold-molded hull and deck for strength-to-weight benefits and a solid, quiet ride.
- Living aboard: accommodations for up to 9 with 4 heads to support extended time on the water.
- Design integrity: hull and interior by CUSTOM.
- Tankage: 920.64 gal of fuel and 1,299.73 gal of fresh water support practical cruising rhythms.

Technical Specifications

- Category: motor yacht / trawler
- Builder: CUSTOM
- Model: 27m TRAWLER
- LOA: 87 ft (26.5 m)
- Beam: 23 ft (7.2 m)
- Draft (max): 6.332 ft (1.93 m)
- Speed (cruise / max): 12 kn / 12 kn (13.81 mph / 13.81 mph)
- Engines: 2 x Volvo Penta, Inboard, Diesel
- Hull material: Cold Molded
- Deck material: Cold Molded
- Hull configuration: Monohull
- Hull designer: CUSTOM
- Interior designer: CUSTOM
- Accommodations: up to 9 (sleeps 9)
- Heads: 4
- Fresh water capacity: 1,299.73 gal
- Fuel capacity: 920.64 gal

Pricing and Ordering

For up-to-date pricing, availability, and to arrange next steps for the 27m TRAWLER, please reach out to Andrey Shestakov at Shestakov Yacht Sales. Our brokerage team will assist with specifying options, preparing documentation, and coordinating surveys and sea trials so you can proceed with assurance.

Questions and Answers

- Q: What are the performance figures of the 27m TRAWLER? A: The **cruising**

speed is 12 kn and the **maximum speed** is also 12 kn (both equal to 13.81 mph), driven by efficient twin Volvo Penta diesels.

- Q: Is it a motor yacht or a trawler? A: It's a motor yacht configured with genuine trawler characteristics, providing steady pace, pragmatic interior arrangements, and economical operation.
- Q: What powers the yacht and what fuel does it use? A: Two Volvo Penta **inboard** engines run on **diesel** fuel, delivering dependable propulsion suitable for long-range cruising.
- Q: How many people can sleep aboard and how many heads are there? A: There are **accommodations** for up to 9 (sleeps 9) with **4 heads**, offering comfortable arrangements for family and guests.
- Q: What are the build and design details? A: The **hull material** and **deck material** are Cold Molded with a **monohull** configuration; hull and interior design are by CUSTOM. Andrey Shestakov and Shestakov Yacht Sales can provide the full specification overview on request.

Owner Experience Review

Owners generally view the 27m TRAWLER from CUSTOM as a solid choice for family voyaging, full-time liveaboard life, and unhurried coastal cruising. Comparable broker listings for 27m custom trawlers typically show several guest cabins and a generous galley; many of these yachts are set up for 8–9 guests, matching occasional group cruises or limited charter operations. On the water, the full-displacement hull produces a heavy, settled demeanor—owners note stability in waves and reduced motion at anchor—favoring comfort at displacement cruise speeds over sporty handling.

Low-speed handling conveys that noticeable mass, so steering responses can be measured rather than quick; owners frequently suggest fitting a bow thruster or arranging docking assistance, particularly in tight marina situations or when operating with single-screw maneuvering. Like many trawler-type

yachts, there are multiple onboard systems—generator, watermaker, and air conditioning among them—so owners encounter a learning curve and ongoing maintenance demands, with typical annual running and upkeep costs often estimated around 10% of the vessel’s value. Since these yachts are custom builds, layouts and engine-room accessibility vary considerably, making a comprehensive survey essential—inspectors should pay close attention to corrosion risks from extended storage and review galley ergonomics, stair access, storage solutions, and engine-room serviceability.

Pros and Cons

- Full-displacement ride is stable in waves and resists rocking at anchor, prioritizing comfort at cruise.
- Spacious interior with multiple guest cabins and a sizable galley supports family cruising, liveaboard, and guest trips.
- Versatile use profile suits weekend coastal hops, extended passages, and occasional charter.
- Heavy, slow-to-respond handling at low speed; bow thruster or assistance is recommended for tight marinas and single-screw maneuvering.
- Complex systems (generator, watermaker, A/C) add a steep learning curve and ongoing upkeep.
- Custom-build variability means layout and engine-room access differ; corrosion and long-storage issues warrant a thorough survey.

Comparison with Other Models

Model	LOA	Beam	Draft	Speed (Cruising/Max)	Gross Tonnage
