## OVERVIEW

---

Crafted for extended-range comfort and contemporary Italian flair, the Navetta 28 from FERRETTI CUSTOM LINE is a sophisticated motor yacht built on a fiberglass and plastic hull with a semi displacement hull form designed for relaxed passage-making. Shestakov Yacht Sales, led by broker Andrey Shestakov, stands ready to assist with locating the right vessel and managing every phase of the purchase.

## Selecting a Navetta 28

---

Measuring 92 ft (28.31 m) overall with a 23 ft (7.27 m) beam, the Navetta 28 offers substantial internal volume suited to prolonged cruising. Twin MAN diesel powerplants yield a comfortable 15 knot cruising pace and a top speed near 16 knots, making this semi displacement motor yacht an efficient and serene choice. Accommodation for up to **10 guests**, supported by two crew cabins, positions the model ideally for family use and onboard entertaining.

## Features of the Model

---

- Design by Studio Zuccon International Project for both the hull lines and interior layout.
- Semi displacement hull delivering a cruising speed of 15 kn (about 17.26 mph) and a maximum of 16 kn (about 18.41 mph).
- Wide 23 ft (7.27 m) beam creating roomy living spaces and steady behavior underway.
- Sleeps up to **10 guests** and offers **6 heads** for privacy and convenience.
- Dedicated crew accommodations with 2 cabins and 3 berths for professional operation.
- Solid construction using a fiberglass and plastic hull and GRP decks.

- Large tank capacities: approximately 12,400 gallons of fuel and 3,300 gallons of fresh water.

## Technical Specifications

---

- Length overall (LOA): 92 ft (28.31 m)
- Beam: 23 ft (7.27 m)
- Draft (min/max): 7.185 ft / 7.185 ft (2.19 m / 2.19 m)
- Hull configuration: Semi Displacement
- Speed (cruise/max): 15 kn / 16 kn (17.26 mph / 18.41 mph)
- Engines: 2 × MAN, Diesel
- Hull material: fiberglass and plastic
- Deck material: GRP
- Designers: Hull and interior by Studio Zuccon International Project
- Accommodation: up to 10 guests (sleeps 10)
- Heads: 6
- Crew: 2 cabins, 3 berths
- Fresh water capacity: 3,300 gal
- Fuel capacity: 12,400 gal

## Pricing and Ordering

---

To obtain current listings, price estimates, or to schedule private inspections of the Navetta 28 by FERRETTI CUSTOM LINE, reach out to Andrey Shestakov and the team at Shestakov Yacht Sales. We provide end to end brokerage services including viewings, survey coordination, negotiation support, and assistance through closing to ensure a smooth transaction.

## Questions and Answers

---

Q: What sets the Navetta 28 apart among motor yachts? A: Its semi displacement architecture from Studio Zuccon International Project strikes a careful balance between onboard comfort and fuel efficiency, while the expansive 23 ft beam, capacity for **10 guests**, and **6 heads** establish it as an elegant and practical cruising platform.

Q: What are the **performance** figures for the Navetta 28? A: You can expect a cruising speed of about 15 knots (roughly 17.26 mph) and a maximum near 16 knots (around 18.41 mph) powered by twin **MAN diesel** engines.

Q: How is the yacht constructed? A: The construction uses a fiberglass and plastic hull paired with **GRP decks** and a **Semi Displacement** hull form, with hull and interior design by Studio Zuccon International Project.

Q: What is the accommodation layout like? A: The layout sleeps **up to 10 guests** across multiple cabins with **6 heads**, supported by **2 crew cabins** and **3 crew berths**, configured to support comfortable long-distance cruising.

Q: How can Shestakov Yacht Sales help me acquire a Navetta 28 by FERRETTI CUSTOM LINE? A: Broker **Andrey Shestakov** and the Shestakov Yacht Sales team deliver comprehensive support—curating suitable yachts, arranging inspections and sea trials, facilitating surveys, negotiating terms, and handling closing documentation.

## Owner Experience Review

---

Owners who select the Navetta 28 from FERRETTI CUSTOM LINE typically embrace its long range, semi displacement purpose. The yacht is reported to be most efficient and comfortable around a 13–13.5 knot cruise, with roughly 16 knots available when needed, and a published range of approximately

1,250 nm that supports relaxed passages between cruising grounds.

Stability and comfort come from electro-hydraulic fin stabilizers, with optional zero-speed fins or a gyro available for enhanced comfort at anchor. Sea trial measurements underline the quiet onboard environment, with noise levels noted at about 54 dB in the master at full revs and approximately 47 dB at 12 knots.

The layout supports private ownership or charter operation across a three-deck arrangement: a full-beam owner's suite on the main deck, four guest cabins below deck, separate crew quarters, and an upper-deck sky lounge. Extensive glazing and large hull windows flood interiors with light and views, while the patented Dual Mode Transom serves both as a floodable tender garage and an unusually spacious beach club for a yacht of this length—simplifying tender handling, water access, and toy deployment.

From a maintenance perspective, the twin MAN V8 1200 engines align with standard MAN service intervals, and owners should plan for periodic checks of the electro-hydraulic transom mechanism and stabilizer components. Publicly available multi-season owner maintenance logs are limited, so much of the operational feedback comes from press reviews and dealer reports rather than extensive forum histories—an important consideration when evaluating long-term reliability benchmarks.

## Pros and Cons

---

- Semi-displacement range of about 1,250 nm and an efficient 13–13.5-knot cruising speed suit extended transfers.
- Exceptionally quiet operation, with sea trials recording roughly 54 dB in the master at full revs and about 47 dB at 12 knots.
- Patented Dual Mode Transom provides a large beach club and a floodable garage for streamlined tender and water-toy handling.

- A modest top speed near 16 knots will not satisfy buyers seeking high speed planing performance.
- Electro hydraulic fins, optional zero speed stabilization, and the transom system introduce specialist service and maintenance points compared with simpler designs.
- Sparse public long term owner maintenance reporting limits independent benchmarking of reliability.

## Comparison with Other Models

Model	LOA	Beam	Draft	Speed (Cruising/Max)	Gross Tonnage
Navetta 28	92' 0" (28.31 m)	23' 0" (7.27 m)	7' 2" (2.19 m)	15 kn / 16 kn
