OVERVIEW

Discover the 330CBR by Formula Boats — an adaptable motor yacht built on a sturdy fiberglass hull. Shestakov Yacht Sales, represented by broker Andrey Shestakov, stands ready to assist with model selection, availability checks, and the purchase process.

Selecting a 330CBR

Opting for the 330CBR means choosing a blend of athletic performance and practical day-cruise amenities. Measuring 33 ft (10.06 m) LOA, the 330CBR pairs twin powerplants with a hull shape that promotes sure-footed handling and efficient cruising — an appealing choice for buyers wanting a nimble motor yacht from the reputable Formula Boats stable.

Features of the Model

• Twin propulsion: equipped with two MERCRUISER engines to provide balanced, confident thrust.
• Drive setup: **Inboard/Outboard** configuration for responsive throttle and steering feel.
• Fuel: compatible with **Unleaded** gasoline for widespread fueling convenience.
• Construction: built on a robust fiberglass construction foundation for durability.
• Built by Formula Boats on the well established 330CBR platform.

Pricing and Ordering

For up-to-date pricing, current availability, or to arrange a private showing of the 330CBR, please contact Andrey Shestakov at Shestakov Yacht Sales. Our staff will manage the details, paperwork, and delivery timing so you can move forward with acquiring a motor yacht from Formula Boats.

Questions and Answers

Q: What is the overall length of the 330CBR? A: The vessel's overall length measures **33 ft (10.06 m)** .

Q: Which engine brand powers this model? A: This model is fitted with twin **MERCRUISER** engines.

Q: What drive and fuel type does it use? A: The boat utilizes an **Inboard/Outboard** drive arrangement and operates on **Unleaded** fuel.

Q: What is the hull construction category? A: The hull belongs to the fiberglass construction category.

Q: How do I purchase through Shestakov Yacht Sales? A: Contact **Andrey**

Shestakov at **Shestakov Yacht Sales** to explore inventory, obtain pricing, and learn the next steps to acquire the 330CBR from Formula Boats.

Owner Experience Review

Owners and reviewers typically praise the 330CBR from Formula Boats as a competent day boat for entertaining family and friends, noting a generous cockpit and an expansive bow lounge that's ideal for raft ups and social days on the water. The hull's deep V form gives the boat a stable, weighted feel underway; it trims down big wakes and chop effectively, and the joystick control is credited with precise handling when maneuvering into tight slips.

For brief overnight trips the cabin is compact but functional for two, offering a V berth, head, microwave, and A/C — a setup best suited to occasional overnights rather than extended cruising. One owner summarized the balance well: the cockpit is thoughtfully laid out, and the modest cuddy performs adequately if a couple wants to tuck into a cove for a night.

Performance notes emphasize strong midrange acceleration, with the boat coming on plane to about 30 mph in roughly 7 seconds and reaching top speeds near 55 mph when equipped with triple Verados; owners also run sterndrive and triple outboard configurations for towing and watersports. Maintenance needs vary by propulsion choice, and reviewers warn that the sophisticated battery system requires some learning; additionally, generator placement can complicate access for servicing and adds another component to winterization tasks.

Pros and Cons

• Deep V hull delivers confident handling in wakes and choppy conditions.
• Large bow and cockpit lounging areas are well suited to day boating and

raft ups.

• Joystick drive provides fine low speed control in confined spaces.

• The advanced battery system is complex and takes time to master.

• Generator location may restrict service access and increases winterization steps.

• Cabin space is limited and better suited for occasional overnight stays for two.

Comparison with Other Models

Model	LOA	Beam	Draft	Speed (Cruising/ Max)	Gross Tonnage
330CBR	33' 0" (10.06 m)				
330 Crossover Bowrider	34' 0" (10.54 m)	10' 0" (3.12 m)	9' 7" (2.92 m)
