OVERVIEW

The Canyon 326 by Grady-White Boats is a multi role motor yacht laid out as a genuine center console, fashioned on a sturdy fiberglass hull. Measuring 31 ft (9.45 m) LOA with a 10 ft (3.28 m) beam, it delivers dependable cruising at about 34.76 kn (40 mph) and reaches up to 52.14 kn (60 mph) at top end — an able choice for coastal runs and lively day outings with family. For expert advice on selection and purchase, consult Andrey Shestakov and the team at Shestakov Yacht Sales.

Selecting a Canyon 326

Opting for the Canyon 326 means choosing a 31 foot center console that balances spirited performance with everyday functionality. The boat is typically equipped with twin, Grady White specified YAMAHA outboards running on unleaded fuel, includes an enclosed single head, and rides on a durable fiberglass hull suitable for everything from sporty cruising to nearshore fishing. Andrey Shestakov at Shestakov Yacht Sales can help match your priorities to available inventory and manage inspections and sea trials.

Features of the Model

- Category: premium motor yacht arranged as a center console
- Construction: tough fiberglass hull with a fiberglass deck
- Propulsion: 2 YAMAHA outboards; unleaded fuel
- Performance: 34.76 kn (40 mph) cruise; 52.14 kn (60 mph) max
- Dimensions: LOA 31 ft (9.45 m); beam 10 ft (3.28 m)
- Draft: approx. 3.281–6.562 ft (1–2 m)
- Amenities: 1 head
- Fuel capacity: 327 gal

Technical Specifications

- Builder: Grady-White Boats
- Model: Canyon 326
- Category: motor yacht; class: center console
- Hull: fiberglass construction; deck: Fiberglass
- LOA: 31 ft (9.45 m)
- Beam: 10 ft (3.28 m)
- Draft: min 3.281 ft (1 m); max 6.562 ft (2 m)
- Engines: 2 x YAMAHA; outboard; fuel: unleaded
- Speeds: cruise 34.76 kn (40 mph); max 52.14 kn (60 mph)
- Heads: 1
- Fuel capacity: 327 gal

Pricing and Ordering

To obtain current pricing, confirm availability, or schedule viewings and sea trials for the Canyon 326, reach out to Andrey Shestakov at Shestakov Yacht Sales. Our brokerage will guide you through shortlisting, negotiating terms, preparing documentation, and arranging surveys and closing to ensure a smooth transaction.

Questions and Answers

Q: What type of yacht is the Canyon 326? A: It’s a motor yacht presented in a center console configuration, built on a resilient fiberglass hull.

Q: What is the propulsion setup? A: **Propulsion:** twin YAMAHA **outboards** running on **unleaded** fuel, offering dependable power and straightforward servicing.

Q: How fast does it go? A: **Speeds:** roughly 34.76 kn (40 mph) for cruise and up to 52.14 kn (60 mph) at maximum, subject to load and sea conditions.

Q: What are the key dimensions and draft? A: **Dimensions:** LOA 31 ft (9.45 m), beam 10 ft (3.28 m). **Draft:** approximately 3.281–6.562 ft (1–2 m) across operating conditions.

Q: What onboard capacities and amenities are notable? A: **Fuel capacity:** 327 gal to support longer outings. **Head:** 1, consistent with the functionality expected in a well-equipped center console. For inventory and option details, contact Andrey Shestakov at Shestakov Yacht Sales.

Owner Experience Review

Owners commonly pick the Canyon 326 from Grady-White Boats because it serves both family cruising and serious fishing needs. Community feedback and test reports highlight a practical layout: a spacious console with a stand up head and sink, comfortable bow seating for family outings, three supportive helm seats, and cockpit ergonomics that favor both leisure and angling. Fishing capability is emphasized by a sizable livewell and insulated fishboxes, and owners often sum up the boat's character as "SOLID boat!!!!".

When heading offshore, the SeaV2 hull gets frequent praise for delivering a composed ride and strong midrange acceleration. Owners note efficient cruising in the low 30s mph (roughly 30–32 mph), report that the boat maintains momentum through heavy seas with twin 350s, and observe top speeds in the high 40s to 50s mph on some engine configurations. With a 327 gallon fuel tank, extended canyon and offshore passages are practical. Maintenance discussions on owner forums mention a fuel plumbing/primer bulb stalling incident on a 2023 example, some gelcoat discoloration on particular finishes (notably Seaport Blue), and that access to wiring and pumps has been improved compared with earlier 306 series boats

but remains tighter than on some other designs; Yamaha F350 owners also note generation specific service points and the benefit of dealer experience.

Pros and Cons

• Smooth, confident offshore ride from the SeaV2 hull, with owners reporting efficient cruising in the 30–32 mph range.
• A family oriented yet fishable layout: comfortable bow seating, a stand up head with sink, three helm chairs, large livewell, and insulated fish storage.
• A substantial 327 gallon fuel capacity enables longer canyon and offshore excursions.
• Some owners have experienced fuel plumbing/primer bulb stalling on a 2023 Canyon 326.
• Reports of gelcoat and finish issues on select colors (for example, Seaport Blue) with discoloration developing over time.
• Access to systems (wiring, pumps) has improved versus earlier models but can still be tighter than on competing designs.

Comparison with Other Models

Model	LOA	Beam	Draft	Speed (Cruising/ Max)	Gross Tonnage
Canyon 326	31' 0" (9.45 m)	10' 0" (3.28 m)	3' 3" (1 m) – 6' 7" (2 m)	34.76 kn / 52.14 kn
