OVERVIEW

The Freedom 275 Twin Engine from Grady-White Boats combines twin outboard muscle with Deep Vee sea-keeping on a nimble 27-foot platform. As a motor yacht sporting a fiberglass hull, it offers an efficient, composed ride and everyday conveniences for coastal and day-boat use. For sales, specifications, or delivery planning, coordinate directly with Andrey Shestakov and the Shestakov Yacht Sales team for expert support from first inquiry through handover.

Selecting a Freedom 275 Twin Engine

Opt for the Freedom 275 Twin Engine when you prioritize responsive twin-engine handling, uncomplicated ownership, and a compact footprint. Measuring 27 ft LOA (8.23 m) with an 8 ft (2.59 m) beam, it's straightforward to trailer, dock, and manage. Twin YAMAHA outboards deliver brisk acceleration and dependable serviceability, while the fiberglass hull in a Deep Vee form provides confidence and a steady ride for day cruising and short coastal passages as a motor yacht.

Features of the Model

• Twin YAMAHA outboard engines (Unleaded) that offer robust, reliable thrust
• Deep Vee hull design engineered for a settled, composed ride across choppy seas
• Sturdy fiberglass construction paired with a Fiberglass deck for durability and low maintenance
• One onboard head to cover basic comfort needs
• Functional capacities including 184 gal of fuel and 20 gal of fresh water
• Proven performance figures: a 23.81 kn cruising pace (27.4 mph) and a 36.93

kn top end (42.5 mph)
• Compact dimensions: 27 ft overall length and an 8 ft beam for manageable docking and storage

Technical Specifications

• Length overall (LOA): 27 ft (8.23 m)
• Beam: 8 ft (2.59 m)
• Draft (min/max): 5.479 ft (1.67 m) / 9.843 ft (3 m)
• Cruising speed: 23.81 kn (27.4 mph)
• Maximum speed: 36.93 kn (42.5 mph)
• Engines: 2 x YAMAHA Outboard; Fuel: Unleaded
• Hull: fiberglass construction; Configuration: Deep Vee
• Deck material: Fiberglass
• Heads: 1
• Fuel capacity: 184 gal
• Water capacity: 20 gal
• Classification: motor yacht

Pricing and Ordering

Pricing and availability for the Freedom 275 Twin Engine from Grady-White Boats are available upon request. Shestakov Yacht Sales will walk you through specification choices, build timelines, and delivery options to suit your schedule. Contact Andrey Shestakov for a tailored quote, trade-in appraisal, and to secure allocation on new builds or inventory within the motor yacht range.

Questions and Answers

Q: What kind of yacht is the Freedom 275 Twin Engine? A: It is a motor yacht built on a fiberglass hull with a Deep Vee shape, combining maneuverability with comfort. Expect a **versatile layout** and **predictable handling** suited to mixed-use days on the water.

Q: How fast does it go, and what is the comfortable cruise? A: The **maximum speed** reaches 36.93 kn (42.5 mph), while a practical **cruising speed** is 23.81 kn (27.4 mph), delivering efficient performance for day trips.

Q: What powers this model? A: Twin **YAMAHA Outboard** engines running on **Unleaded** fuel provide dependable propulsion and accessible maintenance.

Q: What are the key dimensions and capacities? A: LOA 27 ft (8.23 m), beam 8 ft (2.59 m), draft 5.479–9.843 ft (1.67–3 m), fuel capacity 184 gal, water capacity 20 gal, and **1 head** aboard for basic convenience.

Q: Who can help me configure and purchase this boat? A: Contact **Andrey Shestakov** and the team at **Shestakov Yacht Sales** for expert assistance with the Freedom 275 Twin Engine, allocation, and delivery within the motor yacht category.

Owner Experience Review

Owners often highlight the Freedom 275 Twin Engine as a highly adaptable dual-console that transitions quickly from family outings to fishing trips. The 32-gallon livewell alongside aft fish and ice boxes supports light tournament use, while the general layout also accommodates watersports. As with other Grady-White Boats models, the cockpit is family-oriented and comfortable, featuring a lockable port head, forward bolsters, and a helm arrangement that keeps conversation flowing among passengers.

On the water, the V bottom hull earns praise for delivering a dry, smooth ride through chop. With twin Yamaha 200s, owner testing records about 0–30 mph in 7.9 seconds, a fuel-efficient cruise near 31.5 mph at 4000 rpm (approximately 2.2 mpg), and a top speed near 48.9 mph. Some owners note sensitivity to trim inputs, including a tendency to rock slightly side to side with small adjustments and a reported mild port list (roughly 3°) until trim is properly set.

Day-to-day ergonomics are generally commended, though some users point out awkward placements of smaller controls, cup holders, or charging points. Storage and fishbox volume are sometimes reported as reduced compared with earlier iterations. Maintenance notes are consistent with twin-outboard ownership: regular Yamaha F200 servicing is emphasized, and community advice recommends checking access to seacocks and engine mounts and confirming service history—particularly for older boats—while acknowledging Grady's transom/core techniques evolved around the mid 2010s.

Pros and Cons

• Versatile dual-console arrangement shifts easily between family cruising, fishing, and tow-sports activities.
• Deep Vee hull produces a smooth, dry ride that inspires confidence in chop.
• Strong twin-200 performance: roughly 7.9 s to 30 mph, an efficient 31.5 mph cruise (2.2 mpg), and about a 48.9 mph top speed.
• Some owners report trim sensitivity and a slight port list until trim is adjusted correctly.
• Storage and fishbox capacity are reported as smaller than on earlier models by some owners.
• Certain fittings and small controls can be cramped or awkward to access, so a careful inspection is advised.

Comparison with Other Models

Model	LOA	Beam	Draft	Speed (Cruising/ Max)	Gross Tonnage
Freedom 275 Twin Engine	27' 0" (8.23 m)	8' 0" (2.59 m)	5' 6" (1.67 m) – 9' 10" (3 m)	23.81 kn / 36.93 kn
