OVERVIEW

The A85S from GRP is an 85 ft (25.91 m) motor yacht designed for the motor yachts market, built on a fiberglass and plastic hull. Listed through Andrey Shestakov and the team at Shestakov Yacht Sales, it combines the simplicity of single engine propulsion with a substantial 110 GT of volume and a generous 23 ft beam to deliver assured offshore capability and ample space for entertaining onboard.

Selecting a A85S

Selecting the A85S will appeal to owners who prefer the straightforward maintenance and operation of a single MAN propulsion unit, together with a steady 18 knot cruise and the spaciousness of 110 GT within an 85 foot hull. With a 23 ft (7.1 m) beam and GRP deck construction, the design strikes a balance between seakeeping, onboard comfort, and long term durability. For specification guidance and acquisition support, Andrey Shestakov and Shestakov Yacht Sales will assist through the ordering and delivery process for this model from GRP.

Features of the Model

- Single MAN engine layout promotes straightforward operation and maintenance while delivering a cruise of 18 knots and a 21 knot top end.
- 110 GT of internal volume and a 23 ft (7.1 m) beam enhance living space and stability at sea.
- Durable construction: a fiberglass and plastic hull paired with GRP decks.
- Practical onboard amenities include 2 heads to support extended days on the water.
- Positioned as a premium motor yacht for versatile private cruising in the

motor yachts class.

Technical Specifications

- Length overall (LOA): 85 ft (25.91 m)
- Beam: 23 ft (7.1 m)
- Gross tonnage: 110 GT
- Engines: 1 x MAN
- Cruising speed: 18 knots (20.71 mph)
- Maximum speed: 21 knots (24.17 mph)
- Heads: 2
- Hull: fiberglass and plastic
- Deck material: GRP

Pricing and Ordering

To obtain the latest pricing, available build slots, and purchasing options for the A85S by GRP, reach out to Andrey Shestakov at Shestakov Yacht Sales. Our brokerage will manage specification choices, coordinate inspections, and arrange delivery tailored to your cruising requirements.

Questions and Answers

Q: What type of yacht is the A85S? A: The A85S is a motor yacht in the motor yachts category constructed on a fiberglass and plastic hull. **Type** , **Class** , and **Hull** align to deliver a flexible platform for private cruising.

Q: What are the cruising and maximum speeds? A: The **cruising speed** is 18 knots (20.71 mph) and the **maximum speed** is 21 knots (24.17 mph), providing confident performance for an 85 foot yacht.

Q: What powers the yacht? A: A **single engine** from MAN propels the yacht (1 x MAN), emphasizing efficient, uncomplicated **engineering**.

Q: What are the key dimensions and tonnage? A: **LOA** is 85 ft (25.91 m), **beam** is 23 ft (7.1 m), and **gross tonnage** is 110 GT, offering generous interior volume and deck area.

Q: How do I order and get pricing? A: For **pricing**, **availability**, and **ordering**, contact Andrey Shestakov and the team at Shestakov Yacht Sales about the A85S by GRP.

Owner Experience Review

Owners commonly choose the A85S for family cruising and social charter operations, with many examples employed in crewed charters across the Mediterranean and Caribbean. The main deck's open "winter garden" layout, framed by floor to ceiling glazing, creates a seamless transition between interior and exterior living, aided by a galley pass through to the salon. Accommodation typically includes a full beam master of around 345 ft² forward, a VIP suite, and two guest cabins below, while the upper sky lounge provides a secondary helm, foldout balconies, and approximately 100 m² of aft communal deck. The beach club swim platform and transom garage keep tenders and water toys immediately accessible to the waterline.

At sea, the semi displacement, hydro efficient hull and a displacement near 165,000 lb yield a substantial, confidence inspiring motion. Many owners report a comfortable operating band around 14–16 kt with a top speed approaching 18 kt, and significantly improved fuel economy at reduced speeds. The optional hybrid package enables very quiet, generator light passages at roughly 8 kt for relaxed, eco minded cruising. Routine maintenance is straightforward thanks to the presence of twin MAN diesels in the 730–800 hp range and wide parts/service availability; factory support from

GRP includes enhanced after sales and maintenance resources, and a number of A85S hulls are wintered at the builder’s yard. A recorded external technical overhaul on a sistership cost approximately €350,000, providing a practical reference point for mid life refit budgeting.

Pros and Cons

- Seamless indoor–outdoor living thanks to the open plan “winter garden” main deck with floor to ceiling glass.
- Socially adept layout with a sky lounge and second helm, foldout balconies, roughly 100 m² of aft deck space, and a beach club platform with transom garage.
- Semi displacement efficiency with an optional hybrid for very quiet 8 kt passages and an easy 14–16 kt cruising band.
- Top speed of roughly 18 kt will not satisfy buyers prioritizing outright pace.
- The quiet 8 kt experience depends on ordering the optional hybrid system.
- A documented external technical overhaul on a sistership cost about €350,000, signaling meaningful mid life refit budgets.
