OVERVIEW

The Grand Mariner 230 from HARRIS is a multi-use motor yacht built around a premium pontoon configuration and a lightweight, durable aluminum hull. Offered through international brokerage Shestakov Yacht Sales with broker Andrey Shestakov, this model appeals to buyers seeking steady cruising manners, nimble handling, and uncomplicated ownership.

Selecting a Grand Mariner 230

If simple operation, adaptable open-deck layouts, and reassuring performance matter to you, the Grand Mariner 230 is a top contender. At 27 ft (8.23 m) LOA with an 8 ft (2.59 m) beam it provides expansive deck real estate, and the pontoon layout enhances stability for family days or evening cruises. With a single MERCURY outboard and a 50-gallon fuel tank, it strikes a balance between cruising range and mechanical simplicity. As a motor yacht riding on an aluminum hull, it’s crafted for straightforward dayboating. Contact Andrey Shestakov at Shestakov Yacht Sales to match this platform to your intended cruising grounds and usage needs.

Features of the Model

• Hull and structure: robust aluminum hull complemented by an aluminum deck for enduring longevity.
• Layout: an open, sociable pontoon design that prioritizes stability and flexible seating arrangements.
• Performance: reliable cruise performance at 17.38 kn (20 mph) with peak speeds reaching 36.5 kn (42 mph).
• Power: equipped with a single MERCURY outboard that is straightforward to maintain and economical to operate on **Unleaded** .

• Usability: compact dimensions and modest draft figures suitable for a broad range of inland and nearshore waters.
• Brokerage advantage: personalized selection and transaction assistance provided by Andrey Shestakov and Shestakov Yacht Sales.

Technical Specifications

• Class: motor yacht
• Type: pontoon
• Hull: aluminum hull
• Builder: HARRIS
• Model: Grand Mariner 230
• LOA: 27 ft (8.23 m)
• Beam: 8 ft (2.59 m)
• Draft (min): 3.543 ft (1.08 m)
• Draft (max): 5.741 ft (1.75 m)
• Cruise speed: 17.38 kn (20 mph)
• Max speed: 36.5 kn (42 mph)
• Engines: 1 x MERCURY, Outboard
• Fuel type: Unleaded
• Deck material: Aluminum
• Fuel capacity: 50 gal

Pricing and Ordering

For up-to-date pricing, current availability, and full brokerage guidance on the Grand Mariner 230, contact Andrey Shestakov at Shestakov Yacht Sales. We will assist you in evaluating layout choices, delivery timing, and the best cruising environments for this pontoon platform within the wider motor yacht segment, ensuring a streamlined purchase from initial inquiry through

handover.

Questions and Answers

• Q: What kind of boat is the Grand Mariner 230? A: It's a motor yacht arranged in a pontoon format riding on an aluminum hull, manufactured by HARRIS and designed for stable, social dayboating.
• Q: How fast can it go? A: The Grand Mariner 230 maintains a **cruise speed** of 17.38 kn (20 mph) and reaches a **top speed** of 36.5 kn (42 mph), delivering a mix of fuel efficiency and spirited performance.
• Q: What are the dimensions and draft? A: The boat measures **LOA** 27 ft (8.23 m) with a **beam** of 8 ft (2.59 m), and a **draft** varying from 3.543 ft (1.08 m) to 5.741 ft (1.75 m), suitable for many coastal and inland waterways.
• Q: What is the engine setup and fuel? A: Propulsion is a single MERCURY **outboard** running on **Unleaded** , chosen for straightforward maintenance and practical performance characteristics.
• Q: How do I purchase through a broker? A: Contact **Andrey Shestakov** at Shestakov Yacht Sales for details on **pricing** , **availability** , and hands-on transaction support tailored to this pontoon motor yacht.

Owner Experience Review

Owners of the Grand Mariner 230 from HARRIS most often deploy it for family day runs, beaching at sandbars, and convivial weekend outings, appreciating the roomy seating, onboard entertainment station, and integrated lighting options.

On the water, the tri-toon configuration is commonly reported to produce a steady, forgiving ride in chop with assured tracking and predictable turning behavior; reported speeds vary depending on engine selection and load, with owners noting mid-20s to high-30s mph in real-world use. A frequently

encountered reference point is that a 150 hp installation can reach about 38 mph on a 23-foot triple-toon hull, while greater horsepower yields improved tow-sport acceleration.

Comfort aboard is frequently highlighted: pillow-top seating, abundant lockers, and integrated systems such as Simrad/GPS and JL audio are often listed in owner comments and sale listings. Some owners mention pillow-top cushions loosening or sagging over time, with fixes ranging from warranty work to professional refinishing; a minority have reported repeat occurrences. Typical maintenance focuses on Mercury outboard service schedules, and there are isolated reports of pontoon tube leaks or welded seam issues addressed by dealers under warranty. Several owners commend the warranty responsiveness while questioning broader quality-control consistency. The under-deck skinning common to tri-toon constructions can also restrict direct access for some inspections.

Pros and Cons

• Stable, soft ride in chop from the tri-toon setup with confident, dry handling.
• Versatile for family cruising, entertaining, and watersports with appropriate Mercury power.
• Plush seating, generous storage, and integrated electronics like Simrad GPS and JL audio.
• Pillow-top upholstery can loosen or sag and may require warranty or repair attention.
• Some owners praise the warranty while citing questionable quality control.
• Isolated pontoon tube leaks or weld issues have been reported and addressed by dealers.
