OVERVIEW

Experience the versatile SOLSTICE by HARRIS with Shestakov Yacht Sales — a refined platform for relaxed cruising and on water entertainment. Broker Andrey Shestakov and our team guide you from selection to closing, ensuring the right fit within the motor yacht class and the durability of an aluminum hull build.

Selecting a SOLSTICE

Choosing a SOLSTICE with Andrey Shestakov means aligning your lifestyle with a compact 25 ft layout optimized for easy handling, shallow water access, and low upkeep. As a motor yacht option with an aluminum construction profile, it balances social space with straightforward performance for day boating.

Features of the Model

• Length overall of 25 ft (7.62 m) for confident maneuvering and trailer friendly ownership.
• Single MERCURY outboard, unleaded, for efficient operation and simplified service access.
• Aluminum deck and an aluminum hull foundation for durability and corrosion resistance.
• Practical “Other” hull configuration suited to versatile inland and near shore use.
• Supported by Shestakov Yacht Sales for sourcing, survey coordination, and closing.

Technical Specifications

- Model: SOLSTICE
- Builder: HARRIS
- Category: motor yacht
- Hull: aluminum hull
- LOA: 25 ft (7.62 m)
- Engine: 1 x MERCURY
- Engine type: Outboard
- Fuel type: Unleaded
- Hull configuration: Other
- Deck material: Aluminum

Pricing and Ordering

Exact price, delivery timing, and options vary by engine specification and equipment. Contact Andrey Shestakov at Shestakov Yacht Sales for current availability, tailored quotes, and to schedule inspections or a virtual walkthrough of the SOLSTICE. We handle negotiation, documentation, and logistics end to end.

Questions and Answers

Q: What waters suit the SOLSTICE best? A: With an aluminum hull and **outboard** power, it excels in lakes, rivers, and protected coastal areas where **shallow draft** and easy docking matter.

Q: How does the single MERCURY outboard benefit owners? A: A single **MERCURY outboard** simplifies maintenance, improves fuel economy with **unleaded** gasoline, and offers responsive maneuvering.

Q: Is the model easy to maintain? A: Yes. The **aluminum deck** and aluminum hull construction resist corrosion, and the **outboard** layout keeps service straightforward.

Q: What ownership support does Shestakov Yacht Sales provide? A: Andrey Shestakov coordinates **surveys** , **sea trials** , pricing analysis, and closing logistics, delivering a seamless purchase experience.

Q: Can I customize equipment and options? A: Availability varies; Andrey Shestakov will outline **option packages** , engine configurations, and timing to match your needs on the SOLSTICE.

Owner Experience Review

Owners and reviewers consistently position the SOLSTICE by HARRIS as a day-focused pontoon with a sport-boat feel. The helm is described as responsive and runabout-like, and test boats with higher-hp outboards accelerate briskly and hold plane cleanly. At realistic cruise, reports cite speeds in the 30–40+ mph range depending on engine, while stability in typical lake chop inspires confidence—though it remains a pontoon, not a deep-V.

On board, the layout caters to family cruising and social gatherings, with convivial seating, large sun pads, and an easy cockpit flow. Higher trim packages are noted for premium upholstery, upgraded stereo options, and well-finished panels, and testers praise the dual-console helm ergonomics and visibility. The design is intentionally day-oriented, so there are limited or no true overnight accommodations, aligning more with beach runs, weekend leisure, tow sports, and even short-term demo/rental use.

Pros and Cons

• Sport-boat feel with responsive handling compared to typical pontoons.
• Confident cruise performance, often 30–40+ mph depending on engine setup.
• Social, roomy layout with premium-trim options and praised helm ergonomics.
• Limited overnight capability; day boating focus without full berths or galley.
• Still a pontoon in rough conditions; not a deep-V hull for heavy seas.
• More options (electronics, powered towers) can increase service complexity and costs.

Comparison with Other Models

Model	LOA	Beam	Draft	Speed (Cruising/...	Gross Tonnage
SOLSTICE	25' 0" (7.62 m)				
Grand Mariner 250	27' 0" (8.28 m)	8' 0" (2.59 m)	3' 7" (1.08 m)
