OVERVIEW

Offered through Shestakov Yacht Sales with broker Andrey Shestakov, the Sunliner 250 Sport from HARRIS presents a flexible motor yacht option in a comfortable pontoon configuration built on an aluminum hull base.

Selecting a Sunliner 250 Sport

Opting for the Sunliner 250 Sport emphasizes simple operation, expansive social deck areas, and the convenience of a single outboard engine. This motor yacht with a pontoon footprint and aluminum hull construction is ideal for family days on the water, sandbar stops, and relaxed lakeside entertaining. Work with Shestakov Yacht Sales and broker Andrey Shestakov to determine whether this model aligns with your recreational boating needs.

Features of the Model

• 26 ft (7.92 m) overall length provides reassuring handling and ample room to move about on deck.
• Powered by a single MERCURY outboard; designed to run on unleaded fuel for uncomplicated fueling and maintenance.
• Robust aluminum decking combined with an aluminum-hull class structural design.
• Constructed by HARRIS.
• Classification: motor yacht / pontoon.

Q: What are the hull and deck materials? A: The hull is in the **aluminum yachts class** , the deck is **aluminum** , and the hull configuration is listed as **Other** .

Owner Experience Review

Owners commonly choose the Sunliner 250 Sport from HARRIS for its spacious, sociable layout that works well as a family lake boat and for hosting guests. Listings frequently emphasize abundant seating with storage beneath the cushions, a dedicated rear sun pad, and a user-friendly boarding/swim ladder—features that simplify relaxed cruising and frequent swim breaks.

Performance reports on the water note confident, uncomplicated cruising with a single outboard; many listings show Mercury 200 hp installations. The design favors a stable, convivial platform over aggressive sport handling, and overall performance is linked to the chosen engine package (specifications often reference up to roughly 200 hp). Owners describe handling as steady for lakes and the light chop typical of pontoon boating, with helm layouts generally comfortable and many examples fitted with a low back reclining helm seat.

From a maintenance perspective, routine servicing of the outboard is straightforward for owners. Forum conversations praise the model's sturdy pontoon chassis, though some users have experienced minor accessory issues over time—examples include seat hardware needing attention, a gas gauge that failed on more than one occasion, and an anchor light that loosened—indicating periodic checks of fittings and small components are advisable.

Pros and Cons

• Generous, sociable deck plan with extensive seating and beneath-seat storage makes it well suited to family outings and entertaining.
• Stable, easygoing cruising on lakes with a single outboard in the 200 hp class supports relaxed day trips.
• Comfortable helm area and rear sun pad plus a swim ladder enhance

lounging and water access for day boating.

• Design emphasizes stability and comfort rather than aggressive sport handling.

• Actual performance depends on the engine selected; many examples are outfitted around 200 hp.

• Some owners report minor ancillary component failures (seat hardware, gauges, lights) that may require occasional attention.

Comparison with Other Models

Model	LOA	Beam	Draft	Speed (Cruising/...	Gross Tonnage
Sunliner 250 Sport	26' 0" (7.92 m)				
Grand Mariner 250	27' 0" (8.28 m)	8' 0" (2.59 m)	3' 7" (1.08 m)
