OVERVIEW

Crafted by Intrepid, the 43 NOMAD SE is a performance-oriented motor yacht that features an open, flexible center console arrangement and a durable fiberglass and plastic hull. Propelled by quad MERCURY outboards, it reaches a claimed top speed of 54.75 knots (63 mph) on this 42-foot platform. Sales and enquiries are handled through Shestakov Yacht Sales with broker Andrey Shestakov available to assist.

Selecting a 43 NOMAD SE

If your priority is a swift, open-deck vessel driven by multiple outboards, the 43 NOMAD SE is a strong contender. Its 12 ft (3.86 m) beam contributes to reassuring handling underway, while the center console arrangement preserves clear circulation across the deck. As a modern motor yacht, it combines straightforward systems with high-speed capability—four MERCURY outboards fueled by unleaded petrol. For personalized advice on suitability, timing, and acquisition strategy, reach out to Andrey Shestakov at Shestakov Yacht Sales.

Features of the Model

• Performance: capable of reaching up to 54.75 knots (63 mph) for quick transit between points.
• Power: driven by four MERCURY outboards; **Outboard** setup; **Unleaded** fuel.
• Dimensions: 42 ft LOA (12.8 m) with a 12 ft beam (3.86 m) providing a solid profile.
• Construction: fiberglass and plastic hull paired with a fiberglass deck.
• Layout and class: practical center console configuration within the motor yacht category.

Technical Specifications

• Builder: Intrepid
• Model: 43 NOMAD SE
• Classification: motor yacht; layout: center console
• Hull material: fiberglass and plastic
• Deck material: Fiberglass
• Hull configuration: Other
• LOA: 42 ft (12.8 m)
• Beam: 12 ft (3.86 m)
• Engines: 4 x MERCURY, Outboard, Unleaded
• Maximum speed: 54.75 kn (63 mph)
• Fuel capacity: 535 gal
• Water capacity: 90 gal

Pricing and Ordering

To obtain pricing, confirm availability, or explore purchase options for the 43 NOMAD SE, contact Andrey Shestakov at Shestakov Yacht Sales. We will coordinate timing, arrange inspections, assist with offers, and support delivery planning tailored to your schedule.

Questions and Answers

• What class does the 43 NOMAD SE belong to? It's cataloged as a motor yacht outfitted in a center console configuration and built by Intrepid.
• What is the top speed? The **top speed** is listed at 54.75 knots (63 mph).
• What engines power this model? The model is propelled by **four MERCURY outboards** that operate on **unleaded** fuel.
• What are the key dimensions? The **LOA** measures 42 ft (12.8 m) and the

beam is 12 ft (3.86 m).
• What is the hull made of? The hull is designated as fiberglass and plastic, with a fiberglass deck. For more detailed specifications, consult Andrey Shestakov at Shestakov Yacht Sales.

Owner Experience Review

Owners typically choose the 43 NOMAD SE for offshore sportfishing and tournament use, though it also adapts well to family day trips and sandbar stops thanks to a capacious cockpit and generous social seating. Within Intrepid's Nomad lineup, this model is aimed at serious offshore anglers while offering about 535 gallons of fuel and an estimated range near 400 miles, which supports island-hopping and longer coastal passages.

On the water, Intrepid's stepped-hull approach is credited with enhancing fuel efficiency and seakeeping compared with more traditional hull shapes. Owner reports describe a ride that is dry, stable, and comfortable, with an easy cruising feel at roughly 30 mph and top speeds dependent on power selections, with spec sheets indicating up to about 63 mph.

Interior and deck comforts include a roomy head with a shower, a compact cabin and small galley or summer-kitchen, two-row helm/cockpit seating, and convertible bow/lounge areas configured for socializing. These features make the vessel versatile for both fishing and leisure outings.

Ownership notes include routine outboard service at 100-hour or annual intervals; higher-horsepower setups and multi-outboard installations (examples on the market include triple V12 600 or quad V10 arrangements) increase the frequency and cost of maintenance. If equipped, a Seakeeper will also require dealer-serviced upkeep—commonly estimated in the $900–$1,600 range per year—and long-term reliability statistics are still emerging given the model's introduction in the mid-2020s.

Pros and Cons

• The stepped-hull design from Intrepid produces efficient, stable performance and a dry, smooth ride.
• A flexible layout accommodates offshore fishing, family cruising, and casual sandbar stops with its large cockpit and social seating arrangements.
• Noted long-range capability with approximately 535 gallons of fuel and an estimated 400-mile range suitable for island-hopping.
• Limited long-term owner reliability data since the model is relatively new in the market.
• Multiple outboard configurations (including triple V12 600 or quad V10 options) introduce additional routine maintenance tasks and associated costs.
• Optional items such as a Seakeeper and powerful outboards necessitate dealer maintenance, typically adding roughly $900–$1,600 annually depending on the dealer and equipment.
