OVERVIEW

Presented by Shestakov Yacht Sales, the Bandido 170 by JADE YACHTS measures 170 ft (51.8 m) and sits in the motor yacht category within the broader motor yachts class. Constructed on a sturdy steel yacht platform, this vessel is offered through Shestakov Yacht Sales—reach out to broker Andrey Shestakov and our team for bespoke advice and current availability.

Selecting a Bandido 170

Opting for the Bandido 170 is sensible if you prioritise tried-and-tested steel construction, a balanced mix of range and habitable volume, and a seagoing design suited to extended voyages. Configured for 12 guests supported by a crew of 6 and designed to cruise comfortably at 12 knots, this JADE YACHTS model delivers blue water capability backed by Shestakov Yacht Sales' representation.

Features of the Model

- Ocean-capable profile with a steel yacht hull, steel deck, and monohull configuration
- Substantial interior volume at 783 GT and accommodation for 12 guests with 7 heads
- Professional crew layout with 3 crew cabins and 6 berths
- Efficient performance: 12 knots cruising (13.81 mph), 16 knots maximum (18.41 mph)
- Twin MTU inboard diesel engines for reliable propulsion
- Hull designer: JADE Yachts; interior designer: Central Yacht
- Part of the motor yachts market segment as a full-size motor yacht

Technical Specifications

- Length overall (LOA): 170 ft (51.8 m)
- Beam: 30 ft (9.4 m)
- Max draft: 10.072 ft (3.07 m)
- Gross tonnage: 783 GT
- Engines: 2 x MTU, Inboard, Diesel
- Speeds: 12 kn cruising (13.81 mph), 16 kn max (18.41 mph)
- Hull: steel yacht; Deck: Steel; Configuration: Monohull
- Interior designer: Central Yacht
- Accommodation: 12 sleeps; Heads: 7
- Crew: 3 cabins, 6 berths
- Fuel capacity: 24,311.75 gal
- Fresh water capacity: 2,773.81 gal

Our brokerage can coordinate confidential viewings, review build documentation with JADE YACHTS, and source comparable vessels that match your specifications.

Questions and Answers

Q: What are the speeds of the Bandido 170? A: The **cruising speed** is 12 knots (13.81 mph), and the **maximum speed** is 16 knots (18.41 mph).

Q: How many guests and crew can be accommodated? A: **Accommodation** includes sleeping for 12 guests with **7 heads** ; **crew** quarters provide 3 cabins

with 6 berths.

Q: What are the principal dimensions? A: **LOA** is 170 ft (51.8 m), **beam** is 30 ft (9.4 m), and **max draft** is 10.072 ft (3.07 m).

Q: What powers this motor yacht? A: Two **MTU inboard diesel engines** provide propulsion.

Q: What is the hull type and construction? A: The yacht is a **monohull** built with a steel yacht hull and a **steel** deck, positioning it within the motor yachts marketplace.

Owner Experience Review

The Bandido 170 from JADE YACHTS presents as a true displacement explorer engineered for all weather, long range operation rather than outright speed. In regular operation owners report cruising at around 12 knots, with documented top speeds ranging from about 13 to 16 knots, and an ocean crossing capability estimated at approximately 4,000 nautical miles—supporting genuine global passages. The steel hull, aluminium superstructure, and the specified TRAC fin stabilisation package combine to prioritise seakeeping and onboard comfort whether underway or at anchor.

Internally, the yacht is laid out to suit private family ownership or commercial charter: a main deck owner's apartment anchors the accommodation plan, which supports up to 12 guests across six cabins and is complemented by separate crew quarters typically accommodating about 8–10 crew. Guests benefit from multiple lounges and dining settings, an observation lounge, a gym, and large exterior spaces including a sun deck Jacuzzi—features that make the volume feel generous for a 52 metre explorer. Owners should expect steel specific maintenance regimes distinct from GRP craft, and while the TRAC stabilisers are designed for low day to day attention, their major

servicing is specialist work; similarly, twin MTU 4000 series engines require the professional servicing and logistics expected for large displacement superyachts.

Pros and Cons

- True long-range capability (~4,000 nm) enables global cruising and expedition routing.
- Comfortable displacement ride with fin/TRAC stabilizers reducing roll underway and at anchor.
- Family- and charter-friendly layout with a main-deck owner apartment, up to 12 guests, and multiple social decks with Jacuzzi.
- Service speed around 12 knots and a 13–16 knot top will not satisfy speed-focused buyers.
- Steel hull demands vigilant corrosion control and periodic yard time compared with GRP.
- TRAC stabilizers and MTU 4000 series machinery require specialist servicing and parts logistics.
