OVERVIEW

Experience the versatile spirit of day boating with the OASIS 23 SR VP by MANITOU, presented by Andrey Shestakov and Shestakov Yacht Sales. This smartly sized 23-foot platform blends social cockpit space with efficient outboard power for relaxed cruising, waterside leisure, and easy trailering.

Selecting a OASIS 23 SR VP

Choosing the OASIS 23 SR VP means prioritizing simplicity, comfort, and low-maintenance fun on the water. At 23 ft (7.01 m) LOA, it neatly balances capacity with maneuverability, ideal for family outings and casual coastal or lake adventures. As a motor yacht with a fiberglass construction hull, it offers a practical blend of durability and easy upkeep.

Features of the Model

• Social-friendly layout designed for relaxed cruising and waterfront entertaining
• Reliable single-outboard configuration for straightforward ownership
• Lightweight fiberglass hull for efficient performance and easy trailering
• Thoughtful ergonomics to support day trips, sandbar stops, and sunset cruises

Andrey Shestakov and Shestakov Yacht Sales can guide you through configuration options and availability for the OASIS 23 SR VP by MANITOU.

Questions and Answers

Q: What kind of boating is the OASIS 23 SR VP best for? A: It's ideal for relaxed day cruising as a motor yacht—think sandbar gatherings, lake runs, and casual coastal trips.

Q: What is the hull made of? A: The hull is a fiberglass structure, offering durability and low maintenance.

Q: What engine setup does it use? A: A single **YAMAHA Outboard** running on **Unleaded** fuel for simple operation and serviceability.

Q: How long is the boat? A: The LOA is **23 ft (7.01 m)** , balancing capacity with easy handling and storage.

Q: Who can help me order and deliver the boat? A: Andrey Shestakov and the Shestakov Yacht Sales team will coordinate specification, pricing, and delivery for your OASIS 23 SR VP.

Owner Experience Review

Owners see the OASIS 23 SR VP from MANITOU as a family-friendly day boat that balances social space with a more responsive feel than a basic pontoon. The split rear layout earns consistent praise for its easy flow to the swim platform and the flexibility to flip aft seats into a sun pad. Typical capacity suits a crowd for casual cruising and café table picnics, with stowage touches owners find practical for weekend use.

On the water, the VP three toon V Toon setup gives it a quicker hole shot and a composed, banked attitude in turns compared with flat riding pontoons. Owners and tests alike caution it's not a tight turn sportboat; it prefers wider arcs and smart trim use—trim down for close quarters handling, trim up as speed builds to avoid ventilation. With a 150 hp example, reported comfortable cruise spans roughly the mid teens to low 20s mph, and top end in independent testing reached the low 30s mph. Fit and finish are viewed as a value upscale step above entry lines, while long term costs tend to mirror normal pontoon upkeep and the chosen outboard's service network.

Pros and Cons

• Social split rear seating converts to a sun pad and improves access to the swim platform.
• V Toon design delivers a quicker hole shot and more composed, banked turns than basic pontoons.
• Comfortable cruise in the mid teens to low 20s mph with 150 hp suits family day boating.

• Not intended for tight, aggressive maneuvering; prefers wider turn radii.
• Trim management is important to avoid ventilation when transitioning between speeds.
• Ownership experience depends on outboard choice and local dealer service availability.

Comparison with Other Models

Model	LOA	Beam	Draft	Speed (Cruising/Max)	Gross Tonnage
Legacy 24 Tritoon	27' 0" (8.23 m)	8' 0" (2.59 m)		26 kn / 34 kn	
25 Encore	26' 0" (8.03 m)	8' 0" (2.59 m)		48 kn	
OASIS 23 SR VP	23' 0" (7.01 m)
