OVERVIEW

The XT24 from MASTERCRAFT packs 24 feet of capability into a compact, easily managed hull, combining a single inboard propulsion system with resilient composite construction. As a motor yacht featuring fiberglass and plastic construction, it is well suited to day boating with straightforward upkeep. For tailored advice and full-service support, Shestakov Yacht Sales and broker Andrey Shestakov guide clients through selection, specification, and delivery.

Selecting a XT24

Opting for the XT24 delivers a well-proportioned platform: its 24 ft LOA and 8 ft beam give stable handling and enough room for family and guests, while the single **ILMOR Inboard** running on **Unleaded** keeps systems simple and predictable. The combination of a fiberglass and plastic build and a fiberglass deck prioritizes longevity and easy maintenance.

Shestakov Yacht Sales, with broker Andrey Shestakov at the helm, can advise whether this motor yacht matches your intended use, help configure options, and plan for ownership logistics.

Features of the Model

• A deliberately arranged 24 ft layout built for flexible day-boat duties and coastal excursions.
• A single **ILMOR Inboard** powerplant configured to operate on **Unleaded** fuel for uncomplicated fueling and servicing.
• A durable fiberglass and plastic hull paired with a fiberglass deck to reduce upkeep over time.
• An 8 ft beam that balances generous cockpit room with practical trailer and

storage dimensions.
• Full brokerage and after-sales coordination from Shestakov Yacht Sales and broker Andrey Shestakov, including worldwide support.

Technical Specifications

• Model: XT24
• Builder: MASTERCRAFT
• Category: motor yacht
• Hull: fiberglass and plastic
• Length Overall (LOA): 24 ft (7.32 m)
• Beam: 8 ft (2.59 m)
• Engines: 1 x **ILMOR**
• Engine Type: **Inboard**
• Fuel Type: **Unleaded**
• Fuel Capacity: 92 gal
• Deck Material: Fiberglass
• Hull Configuration: Other

Pricing and Ordering

For up-to-date pricing, current availability, and potential build slots for the XT24, contact Shestakov Yacht Sales. Broker Andrey Shestakov will manage specifications, documentation, and delivery logistics to streamline the purchase from offer through handover. Trade-in options and international transport can be arranged upon request.

Questions and Answers

• Q: What type of yacht is the XT24? A: It is a motor yacht constructed with

fiberglass and plastic, featuring a composite hull and fiberglass deck engineered for **low maintenance** and **long-term durability** .

• Q: What engine powers the model? A: The XT24 is driven by a single **ILMOR Inboard** engine that runs on **Unleaded** fuel, making fueling and routine service straightforward.

• Q: How large is the boat? A: The **LOA** is 24 ft (7.32 m) and the **beam** measures 8 ft (2.59 m), providing a stable footprint with usable **space** for day cruising.

• Q: What is the fuel capacity? A: The **fuel capacity** is 92 gal, allowing for extended day trips with fewer refueling stops.

• Q: How do I order with Shestakov Yacht Sales? A: Contact Shestakov Yacht Sales and broker Andrey Shestakov for current **pricing** , **availability** , and the steps to purchase; they will assist with **spec verification** , **paperwork** , and coordinating **delivery** for your XT24.

Owner Experience Review

Owners deploy the XT24 across family outings and watersports activities. It regularly supports multi-family days and kid-friendly sessions—one owner recalled, "Kids absolutely fell in love with the wave." The model also appears in surf schools and smaller rental operations, where operators praise its consistent, lesson-friendly performance. For wakesurfing and wakeboarding, both recreational users and instructors highlight a long, pushy wave that delivers "plenty of length and push."

On the water, the XT24 is frequently commended for its responsive, confident handling—several owners liken it to "handles like a sports car" for a 24' boat. The surf profile produces a lengthy face with solid stern push; some riders report they can ride further back than on their prior "G." A few owners note the lip may be softer until ballast and tuning are optimized. Regarding power and trim, the smaller 6.0 paired with a stock prop can be challenged at altitude or under heavy load, so many suggest increasing power or adjusting prop and

ballast to improve holeshot and wave shape. Maintenance feedback includes instances of rear ballast-bag/connector issues that prevented proper emptying until hoses and installations were corrected; dealers have issued fixes and updates. Several owners have experienced CoolFeel upholstery delamination or cracking on certain years and pursued replacements under MASTERCRAFT's factory warranty, which owners commonly reference as five years on many components (engine coverage varies); a minority reported multiple early warranty or service visits.

Pros and Cons

• Long, surfable wave with a powerful push that works well for lessons and family-friendly outings.
• Agile, sporty handling for a 24' craft—owners describe it as "handles like a sports car."
• Generous cockpit space with a convertible rear-facing center seat that helps socializing between sets.
• The smaller 6.0 engine with the stock prop may struggle at altitude or when heavily loaded.
• Some owners have experienced rear ballast-bag/connector faults that prevented bags from emptying until dealer repairs were completed.
• Reports of CoolFeel upholstery delamination or cracking on select model years, typically resolved under warranty.

Comparison with Other Models

Model	LOA	Beam	Draft	Speed (Cruising/ Max)	Gross Tonnage
