OVERVIEW

Discover the M 65 by MONTEREY—a multipurpose motor yacht constructed on a resilient fiberglass and plastic foundation. Measuring 27 ft (8.23 m) overall and driven by a single MERCURY outboard using unleaded fuel, it delivers uncomplicated ownership and dependable on water capability for confident outings.

Selecting a M 65

If you prefer the simplicity of a single outboard, the fuel efficiency of an externally mounted engine, and the low maintenance that comes with a fiberglass and plastic hull, the M 65 is worth evaluating. Its 27 ft (8.23 m) length strikes a balance between usable onboard space and easy trailering or marina handling, making it well suited for day trips and coastal cruising. Contact Andrey Shestakov and the team at Shestakov Yacht Sales to explore how the M 65 by MONTEREY matches your boating needs and schedule.

Features of the Model

• LOA of 27 ft (8.23 m) for confident handling and transport planning.
• Power by 1 × MERCURY outboard; fuel type: unleaded—simple and serviceable.
• Hull configuration listed as “Other,” offering flexibility within the model’s design brief.
• Deck material: Fiberglass for clean looks and durability.
• Classified as a motor yacht with a fiberglass and plastic hull focus.

Technical Specifications

• Builder: MONTEREY
• Model: M 65
• Class: motor yacht
• LOA: 27 ft (8.23 m)
• Engine: 1 × MERCURY
• Engine type: Outboard
• Engine fuel: Unleaded
• Hull material: fiberglass and plastic
• Hull configuration: Other
• Deck material: Fiberglass

Pricing and Ordering

For up-to-date pricing, availability, and tailored advice on the M 65 by MONTEREY, reach out to Andrey Shestakov at Shestakov Yacht Sales. Our brokerage will assist with reviewing specifications, arranging inspections, and guiding you through the purchase steps so you can proceed with assurance.

Questions and Answers

• Q: What is the LOA of the M 65? A: The **LOA** measures 27 ft (8.23 m), which supports confident handling and storage planning.
• Q: What engine configuration does it use? A: The M 65 is equipped with **1 × MERCURY** in an **Outboard** arrangement running on **Unleaded** fuel.
• Q: How is the hull and deck constructed? A: The **hull** is defined as fiberglass and plastic, and the **deck** is built from Fiberglass.
• Q: What type of yacht is this model? A: It’s a **motor yacht** designed for versatile day boating.

• Q: Who can assist me with purchase and logistics? A: Contact **Andrey Shestakov** at **Shestakov Yacht Sales** for brokerage support with the M 65 by MONTEREY.

Owner Experience Review

As a true dayboat, the M 65 from MONTEREY is praised for its sociable arrangement. The cockpit provides flexible seating including a flip up/convertible aft bench, a bow dinette with table, and an expansive SeaDek covered swim platform that accommodates groups comfortably. Typical owner and dealer specifications add conveniences such as a wet bar, pull out cooler and upgraded stereo, while optional activity packages include a wake tower for tow sports, rod holders and a generous bow area that doubles as a casual fishing station. For weekend trips the single head can be equipped with an electric toilet, a forward shower and either a holding tank or a macerator.

On the water, reviewers consistently report a composed, well planted ride through chop, attributing the feel to the hull's balanced deadrise and predictable handling. With a single 300–350 hp outboard the [M 65] is responsive, and automatic or active trim systems assist in finding an optimal running attitude with minimal helm adjustments, producing smooth and quiet propulsion. Manufacturer and test reports also highlight efficient cruise characteristics when fitted with Verado 300/350 powerplants.

Ownership chores tend to be straightforward. With outboard propulsion the routine engine servicing is concentrated on the outboard itself where access is generally uncomplicated, while a macerator or holding tank sanitation setup requires periodic flushing and checks. The electrical/DC breaker panels are located in accessible areas (the starboard battery compartment and a forward main DC panel), so regular inspection of breakers and batteries is

recommended. Because the outboard installation frees the former engine bay for storage, inspections of through hulls, bilges and trim tab actuators are performed under deck hatches—a service detail some owners consider when scheduling maintenance.

Pros and Cons

• Smooth, planted ride in chop with confident handling and easy trimming via automatic trim systems.
• Social, versatile cockpit with convertible seating, bow dinette and a large SeaDek swim platform for entertaining.
• Abundant storage thanks to the outboard layout freeing the former engine bay.
• Ventilation in the head depends on an optional porthole that reviewers felt should be standard.
• Access to bilge, through-hulls and trim-tab gear is via deck hatches, adding steps to some service tasks.
• Popular activity-focused features such as the wake tower, wet bar and rod holders are optional rather than standard.

Comparison with Other Models

Model	LOA	Beam	Draft	Speed (Cruising/ Max)	Gross Tonnage
M 65	27' 0" (8.23 m)				
278 Super Sport	27' 0" (8.23 m)	8' 0" (2.59 m)	6' 10" (2.08 m) – 10' 11" (3.33 m)
