OVERVIEW

The Super Air Nautique G25 by NAUTIQUE is a motor yacht built with a fiberglass and plastic hull, offered through Shestakov Yacht Sales. For personalized advice and a guided walkthrough of options, contact Andrey Shestakov.

Selecting a Super Air Nautique G25

Deciding if the Super Air Nautique G25 fits your needs hinges on its 25 ft (7.62 m) LOA, single inboard propulsion, and construction materials. The single PCM inboard running on unleaded fuel makes this boat attractive to owners who prefer the straightforwardness of one engine in a compact motor yacht with a durable fiberglass hull. Reach out to Andrey Shestakov and the Shestakov Yacht Sales team to assess whether its layout and options match your boating plans.

Features of the Model

• 25 ft (7.62 m) overall length delivers manageable handling with generous usable space
• Single PCM inboard powerplant using unleaded fuel
• Sturdy fiberglass and plastic hull construction complemented by a fiberglass deck
• Hull configuration categorized as "Other"
• Manufactured by NAUTIQUE
• Represented and supported by Shestakov Yacht Sales with broker Andrey Shestakov

Current pricing and availability for the Super Air Nautique G25 are provided upon request. Contact Andrey Shestakov at Shestakov Yacht Sales to verify up-to-date market listings, confirm lead times, and tailor specifications to your requirements.

Questions and Answers

Q: What is the LOA of the Super Air Nautique G25? A: The **LOA** is 25 ft (7.62 m), which offers a well proportioned footprint for a compact motor yacht.

Q: What powers this model? A: The **engine** arrangement is a single **inboard** unit made by **PCM** , and the **fuel** type is unleaded.

Q: What is the hull made of? A: The **hull** uses a fiberglass and plastic construction, paired with a **fiberglass** deck.

Q: What type of yacht is it? A: **Type** : It is a motor yacht manufactured by NAUTIQUE.

Q: How do I get pricing and place an order? A: **Pricing** and **availability** are supplied on request; contact Andrey Shestakov at Shestakov Yacht Sales to discuss a Super Air Nautique G25 configured for your needs.

Owner Experience Review

Owners frequently select the Super Air Nautique G25 from NAUTIQUE for family outings and large-day-crew excursions, noting that the 25-foot arrangement feels unusually spacious. Numerous owners report the interior “felt the largest” within the 23–25' class they trialed, praising a roomy cockpit and seating well-suited for full-day activities. Several comments reference coastal and saltwater use (including Coastal Edition variants and anecdotal Bimini trips).

The model’s lineage dates back to an initial introduction around 2012, with a G Series update announced in July 2020 for the 2021 model-year G23/G25, and manufacturing continuing into the mid 2020s.

On the water, feedback is emphatic: the wake is described as “insane,” “awesome,” and specifically engineered for wakesurfing and wakeboarding. Owners highlight a heavy, stable sensation and a broad, surfable wave with a consistent shape that appeals to many intermediate and advanced riders, while cautioning it may be “not for beginners.” Several owners add that the G hull’s relatively flat profile excels at producing shaped wakes; a minority note that other brands can offer a smoother ride in very rough seas.

Day-to-day ownership reports cover normal cosmetic wear on older examples (faded or torn seat vinyl and small cushion tears) as well as mechanical and electronic observations. Forum discussions record cooling-related faults on PCM/XR7 packages; owners also report supercharged XR7 engines are fuel-hungry with potentially higher service costs, and some model years show fueling/charging/touchscreen (LINQ) quirks. Sourcing certain OEM

components, such as board racks, can be challenging. Still, many owners stress that long-term dependability is strong when boats receive scheduled maintenance and have consistent dealer or owner service records.

Pros and Cons

• Class-leading wake and surf performance delivering a wide, reliable wave that advanced riders praise.
• Remarkably spacious 25-foot layout accommodating large groups and family day trips.
• Substantial, stable feel that supports consistent wake formation and rider confidence.
• The aggressive wake profile that enthusiasts love can be daunting for novice riders.
• In very rough chop the ride can feel less forgiving compared with some competing brands.
• Ownership may require close attention: XR7 cooling, fueling, and infotainment issues have been reported, supercharged engines can consume more fuel, and certain OEM parts can be harder to obtain.

Comparison with Other Models

Model	LOA	Beam	Draft	Speed (Cruising/...	Gross Tonnage
Super Air G23	25' 0" (7.67 m)	8' 0" (2.59 m)	8' 6" (2.58 m)
