## OVERVIEW

---

The 55 Super Sport from OCEAN SPORT pairs genuine offshore capability with onboard comfort. Presented as a focused motor yacht in a traditional sport fisherman layout and built on a sturdy fiberglass hull, it measures 55 ft (16.76 m) LOA, is driven by a single Detroit Diesel installation, and rides on a fiberglass deck—making it a reliable choice for anglers and cruising couples. For purchasing advice and full support, Shestakov Yacht Sales and broker Andrey Shestakov are available to assist.

## Selecting a 55 Super Sport

---

Opting for the 55 Super Sport is sensible if your priority is a polished offshore platform that emphasizes practicality and low complexity ownership. Positioned in the motor yacht segment with a clear sport fisherman focus, it strikes a balance between angling capability and onboard comfort, while its fiberglass construction helps keep maintenance tasks manageable. Shestakov Yacht Sales, led by Andrey Shestakov, can advise on whether this hull fits your program, check availability, and coordinate inspections.

## Features of the Model

---

- Purpose-built sportfisher layout consistent with the sport fisherman class
- Single Detroit Diesel powerplant for straightforward operation and simplified servicing
- 55 ft (16.76 m) LOA providing offshore capability and generous onboard accommodations
- Strong fiberglass hull paired with a fiberglass deck for durability and easier upkeep
- Built by OCEAN SPORT and offered with brokerage support from Shestakov

## Technical Specifications

---

- Builder: OCEAN SPORT
- Model: 55 Super Sport
- Type: motor yacht
- Class: sport fisherman
- Hull: fiberglass
- Deck: Fiberglass
- LOA: 55 ft (16.76 m)
- Engines: 1 x Detroit Diesel

## Pricing and Ordering

---

For up-to-date pricing, current availability, and to schedule viewings or sea trials of the 55 Super Sport, contact Shestakov Yacht Sales. Broker Andrey Shestakov will guide you through selection, negotiation, surveys, and delivery logistics to ensure a smooth purchase process from offer to handover.

## Questions and Answers

---

Q: What is the LOA of the 55 Super Sport? A: The **LOA** measures 55 ft (16.76 m), giving ample room for a serious sport fisherman setup.

Q: Who is the builder of this model? A: The **builder** is OCEAN SPORT, known for delivering robust motor yacht construction.

Q: What kind of hull does it have? A: It features a **fiberglass hull** with a fiberglass deck, chosen for longevity and relatively lower maintenance demands.

Q: How many engines power the yacht and which brand? A: The yacht is powered by **1** Detroit Diesel **engine** , simplifying maintenance compared with twin installations.

Q: How do I proceed with purchase and delivery? A: Reach out to **Shestakov Yacht Sales** ; broker **Andrey Shestakov** will coordinate inspections, offers, and delivery planning for your 55 Super Sport.

## Owner Experience Review

---

Owners operating the 55 Super Sport from OCEAN SPORT typically depend on it for offshore sportfishing and tournament runs, often describing it as a bona fide battlewagon. On passage, many report a comfortable cruise in the mid 20 knot range (about 25 knots is common) with top speeds into the low 30s depending on engine tune and condition; at least one owner has remarked that the boat outpaced newer vessels. In rougher seas the prevailing approach is to reduce speed and let the hull resettle into a steadier attitude for a composed ride.

Away from the cockpit, the Plan A interior—three staterooms and three heads—earns consistent praise for privacy, storage capacity, and practical livability. The galley up layout and an expansive salon support family cruises and weekend stays, while the forward head and several overhead hatches improve ventilation and daylight below. Fit and finish are generally considered above average for the era, making longer passages and even live aboard use realistic options.

Be clear about maintenance realities: multiple owners describe the machinery space as very tight—an “engine room from hell” when major work is required—and older Detroit 8V92/8V92TA installations call for diligent upkeep, with injector failures reported after poor rebuilds. Cold starting and smoke in cooler climates have been observed, with block heaters offered as a

straightforward mitigation. Haul outs must be executed properly since incorrect blocking can crack the keel or blocks; owners advise following OCEAN SPORT blocking and haul out recommendations and using correct chock placement.

## Pros and Cons

- Offshore sportfishing and tournament ready with a reputation as a true battlewagon.
- Comfortable cruise in the mid 20 knot range with owners reporting low 30 knot top speeds for well tuned examples.
- Three stateroom, three head Plan A layout with galley up and a spacious salon suited to extended trips and live aboard use.
- Extremely tight engine room access, which complicates routine maintenance and larger repairs.
- Older Detroit 8V92/8V92TA powerplants can be maintenance intensive; injector issues have surfaced after substandard rebuilds.
- In very rough seas the boat can feel less settled, prompting owners to slow down to let the hull settle back into the water.
