OVERVIEW

Presented by Shestakov Yacht Sales, the Billfish 37 from OCEAN YACHTS is a compact, fishing oriented motor yacht platform in the sportfisher segment built on a robust fiberglass hull. Twin Yanmar inboard diesels paired with a broad beam and a shallow draft make this 37 foot design well suited to dedicated angling as well as versatile coastal cruising.

Selecting a Billfish 37

Opt for the Billfish 37 if you need a 37 ft (11.48 m) vessel with a 13 ft (4.22 m) beam and a minimal 2.493 ft (0.76 m) draft, driven by twin Yanmar inboard diesel engines. Cast as a motor yacht choice within the sportfisher class, it delivers a blend of nimble handling, usable deck footprint, and tough fiberglass construction. The Shestakov Yacht Sales team will match available inventory to your intended use and search criteria.

Features of the Model

- Twin inboard **Yanmar** diesel engines provide dependable thrust and economical cruising performance.
- 37 ft overall length paired with a roomy 13 ft beam for secure footing and ample working room on deck.
- Shallow minimum draft of 2.493 ft (0.76 m) enables access to coastal flats and ease of approach in marinas.
- Fiberglass hull combined with a Fiberglass deck for simple maintenance and durability.
- Marketed as a motor yacht platform in the sportfisher segment, tailored for focused fishing operations.

Technical Specifications

- Builder: OCEAN YACHTS
- Model: Billfish 37
- Type: motor yacht
- Class: sportfisher
- Hull: fiberglass or plastic; Deck: Fiberglass
- LOA: 37 ft (11.48 m)
- Beam: 13 ft (4.22 m)
- Draft (min): 2.493 ft (0.76 m)
- Engines: 2 x **Yanmar** ; Type: Inboard; Fuel: **Diesel**

Pricing and Ordering

Pricing and current availability for the Billfish 37 by OCEAN YACHTS fluctuate with market conditions and specific outfitting. Contact Shestakov Yacht Sales to obtain up to date listings, comprehensive quotes, and to arrange viewings. Broker Andrey Shestakov will assist you through selection, survey coordination, and purchase closing.

Questions and Answers

- What kind of yacht is the Billfish 37? The vessel is a motor yacht type classified as a sportfisher and built on a fiberglass hull, designed principally for fishing and practical coastal cruising.
- What engines power the boat? It is powered by **two Yanmar inboard diesel** engines, offering proven reliability and straightforward maintenance intervals.
- What are the key dimensions? The **LOA** measures 37 ft (11.48 m), the **beam** is 13 ft (4.22 m), and the minimum **draft** is 2.493 ft (0.76 m), delivering a stable platform with shallow water access.

- What materials are used for the hull and deck? The **hull** is listed as fiberglass or plastic, while the **deck** is finished in Fiberglass for long life, low maintenance surfaces.
- How do I buy through Shestakov Yacht Sales? Contact **Shestakov Yacht Sales** and speak with **Andrey Shestakov** for current availability, pricing details, and to schedule inspections of Billfish 37 models produced by OCEAN YACHTS.

Owner Experience Review

Most owners operate the Billfish 37 from OCEAN YACHTS as owner skippered dayboats for both inshore and offshore fishing, including tournament use. Many couples split their time between active angling and short family or weekend cruises, aided by an open main deck that flows into the cockpit without a fixed salon bulkhead, and standard features like insulated fishboxes and a bait prep station.

On the water, reviewers and owners report a contemporary, composed motion with conservative handling for a 37' sportfisher. Boats fitted with Cummins 480s typically cruise between 26–28 knots, Volvo IPS installations cruise in the mid 20s, and owners commonly cite top speeds above 30 knots; post-retooling stiffness improvements are noted as enhancing composure for canyon runs and near-offshore passages rather than for extended bluewater voyaging.

Accommodation comfort exceeds many older dayboat designs in this size: high gloss cherry joinery, wood-planked soles, a U-shaped dinette that folds into a double berth, and a head equipped with a stall shower. In hot climates some owners add air conditioning at the helm and deck areas. Routine upkeep is user-friendly: electric rams lift the bridge-deck seating for excellent engine access, and maintenance on Cummins or IPS installations mirrors the cycles

typical of 35–40' diesels. Online forums sometimes criticize aspects of build quality and engineering when compared to premium builders, and owners warn that the forward glazed windows must be properly bedded and sealed to prevent future leaks.

Pros and Cons

- Modern, easy motion ride with conservative, confident handling suited to canyon and near offshore use.
- Purpose designed cockpit complete with insulated fishboxes and a bait prep center supports serious owner operated fishing and tournament activity.
- For a 37 foot vessel, upgraded accommodations including high gloss cherry, wood flooring, a convertible dinette double, and a stall shower head.
- Some owners rate the build and engineering below that of higher end manufacturers.
- Glazed in forward windows require careful bedding and sealing during maintenance to avoid leaks over time.
- Not intended for prolonged bluewater passagemaking despite strong offshore day boat capabilities.
