OVERVIEW

The 58 Flybridge from PRINCESS is an elegant motor yacht fashioned on a seakindly Deep Vee hull by Olesinski, with interior appointments by Princess Yachts. Propelled by twin Caterpillar inboard diesels and capable of a steady 30 knot cruise, it blends spirited performance with onboard comfort suited to extended trips. The construction employs a durable fiberglass/plastic hull and a fiberglass deck, offering accommodations for up to 7 guests, 2 heads, and a dedicated crew area for 2. Shestakov Yacht Sales, represented by broker Andrey Shestakov, can assist with purchase and delivery arrangements.

Selecting a 58 Flybridge

Opting for the 58 Flybridge means choosing a yacht with a moderate footprint—LOA 62 ft / 18.93 m and a beam of 15 ft / 4.83 m—combined with a shallow 4.167 ft / 1.27 m draft for versatile cruising grounds and a Deep Vee hull that promotes a stable ride. If your priorities include an authentic motor yacht feel with a brisk 30 knot cruise and family-and-crew accommodations, this design answers the brief. The marriage of Olesinski hull engineering, Princess Yachts interior styling, and a robust fiberglass/plastic hull platform makes the model compelling within its segment.

Features of the Model

- Twin Caterpillar inboard diesel powerplants deliver dependable thrust and economical cruising range.
- Olesinski designed Deep Vee hull promotes composed, confident handling underway.
- Princess Yachts interiors provide sleeping space for up to 7 guests across two bathrooms.

- Crew quarters include a single cabin fitted with two berths for professional crew or additional guests.
- Structural build highlights a fiberglass/plastic structure complemented by a fiberglass deck.
- Overall dimensions: LOA 62 ft (18.93 m), beam 15 ft (4.83 m), draft 4.167 ft (1.27 m).
- Typical cruising speed is 30 knots (34.52 mph).
- Tankage suited for longer passages: fuel 744.44 gal; fresh water 184.92 gal.

Technical Specifications

- Builder: PRINCESS
- Model: 58 Flybridge
- Category: motor yacht
- Hull: fiberglass/plastic
- Deck material: Fiberglass
- Hull configuration: Deep Vee
- Hull designer: Olesinski
- Interior designer: Princess Yachts
- LOA: 62 ft (18.93 m)
- Beam: 15 ft (4.83 m)
- Draft (max): 4.167 ft (1.27 m)
- Engines: 2 x Caterpillar, Inboard, Diesel
- Cruising speed: 30 knots (34.52 mph)
- Accommodation: sleeps 7; heads: 2
- Crew: 1 cabin; 2 beds
- Fuel capacity: 744.44 gal
- Water capacity: 184.92 gal

Our brokerage team coordinates inspections and supports you through negotiation, survey processes, and the final handover.

Questions and Answers

Q: What is the **cruising speed** of the 58 Flybridge? A: The **cruising speed** is 30 knots, which equates to about 34.52 mph.

Q: Which **engines** power this yacht? A: The yacht is driven by two **Caterpillar** inboard **diesel** engines, providing reliable propulsion for a classic motor yacht profile.

Q: How many **people can sleep** aboard, and what about **crew** ? A: Accommodation is for **7** guests with **2 heads** , and there is **1 crew cabin** with **2 beds** for professional crew or extra berths.

Q: What is the **hull and deck construction** ? A: The hull is classified as fiberglass/plastic with a **fiberglass deck** , built on a Deep Vee form by **Olesinski** .

Q: Who can help me **purchase** and arrange **delivery** ? A: Contact Andrey Shestakov and the team at **Shestakov Yacht Sales** ; they manage **pricing** , **inspections** , **surveys** , and logistical **delivery** for the 58 Flybridge.

Owner Experience Review

Owners are drawn to the 58 Flybridge by PRINCESS for its adaptable nature in everyday use. For family cruising, the three cabin layout provides children with their own quarters, while the roomy flybridge seating and expansive saloon make hosting larger daytime gatherings straightforward. Down below, the full beam aft owner's stateroom is frequently highlighted, and the VIP stateroom often receives praise for master like headroom and storage.

When underway the yacht demonstrates a sea kindly motion, handling chop and confused conditions with composure; many owners report it maintains good performance at speed in less benign seas. Twin inboard diesels—Caterpillar in many examples and MAN in some—supply a steady, confidence inspiring cruise, and owners have completed several hundred miles of coastal passagemaking even when weather conditions were challenging.

Feedback from owners tends toward the positive, with relatively few significant faults reported and solid dealer after sales support. Typical maintenance items noted include the Onan generator and the twin main engines; engine room access is generally considered workable by technicians. On the pre owned market, it's prudent to inspect generator hours closely, as some listings indicate elevated usage figures.

Pros and Cons

- Sea kindly behavior with confident handling through chop and confused seas.
- Excellent for entertaining large groups thanks to generous flybridge seating and a very spacious saloon.
- Family oriented three cabin layout featuring a notable full beam owner's

cabin and a strong VIP stateroom.

- The lower deck galley, while well equipped, can feel somewhat separated from the main saloon.
- On used examples, generator hours may be high and should be carefully reviewed.
- Cruise characteristics and top performance will vary depending on the installed engine package.
