# OVERVIEW

---

Introducing the 88MY from PRINCESS—an elegant motor yacht crafted for discerning owners within the upper tier of motor yachts. The design sits on a sturdy fiberglass hull paired with a GRP deck. Brokerage representation and transaction support are provided by Andrey Shestakov and Shestakov Yacht Sales.

## Selecting a 88MY

---

Opting for the 88MY prioritizes well-proportioned dimensions, sensible interior arrangements, and engineering suited for offshore passages. Measuring 88 ft (26.82 m) LOA with a 20 ft (6.32 m) beam and a maximum draft of 19.138 ft (5.8333 m), the model balances impressive presence with sea-kindly stability. Propulsion is supplied by twin CAT inboard diesel units, and the boat carries generous fuel and water reserves to extend time at sea. For guidance on configurations and acquisition strategy, reach out to Andrey Shestakov at Shestakov Yacht Sales.

## Features of the Model

---

- Purpose-designed as a motor yacht positioned among leading examples in the motor yachts segment
- Hull constructed in fiberglass construction complemented by a durable GRP deck
- Twin inboard CAT diesel engines for dependable propulsion and performance
- Four heads to accommodate guest comfort during extended cruising
- Separate crew quarters providing 2 berths
- Large onboard capacities: fuel and fresh water stores suited for longer passages (see specifications)

---

## Technical Specifications

---

- Length overall (LOA): 88 ft (26.82 m)
- Beam: 20 ft (6.32 m)
- Max draft: 19.138 ft (5.8333 m)
- Engines: 2 x CAT, Inboard, Diesel
- Hull: fiberglass and plastic
- Deck material: GRP
- Heads: 4
- Crew beds: 2
- Fuel capacity: 2,905.89 gal
- Water capacity: 396.26 gal

---

## Pricing and Ordering

---

To obtain up-to-date pricing, check current availability, or receive hands on assistance through the purchase process for the 88MY by PRINCESS, contact Andrey Shestakov at Shestakov Yacht Sales. Our brokerage team will arrange viewings, manage documentation, and oversee the closing steps to ensure your motor yacht purchase meets expectations among premium motor yachts.

---

## Questions and Answers

---

Q: What type of yacht is the 88MY? A: This model is a dedicated motor yacht that sits within the broader category of motor yachts.

Q: Who is the builder of this model? A: The 88MY is produced by PRINCESS, a yard noted for its high standards of construction and finish.

Q: What powers the yacht and what fuel does it use? A: Propulsion is provided by **two CAT inboard diesel engines**, and the yacht operates on **Diesel** fuel.

Q: What are the key capacities on board? A: The vessel carries **2,905.89 gal of fuel** and **396.26 gal of fresh water** , enabling extended stays offshore.

Q: What are the hull and deck materials? A: The hull is built using fiberglass construction and the deck is finished in **GRP** . For inspections or more information, contact **Andrey Shestakov** at **Shestakov Yacht Sales** .

## Owner Experience Review

---

Owners operate the 88MY by PRINCESS in a variety of roles. In the Mediterranean it has been used successfully as a charter platform in Mallorca and is often marketed to buyers with charter income in mind. Private owners favor it for family cruising and longer voyages; some commission long range variants with fuel capacities around 13,000 L, while others use it for relaxed weekends and social entertaining thanks to expansive cockpit and foredeck areas and a fold out balcony. Many boats are owner managed but operated by professional crews, and brokerage listings frequently note turnkey, crew maintained examples.

On the water, the 88MY is praised for a hybrid/long range hull form that performs confidently at both displacement and planing regimes. Available stabiliser packages such as TRAC or fin systems add to steady, predictable handling suitable for passagemaking at modest cruising speeds, and at least one well reported charter weekend was described by reviewers as “sensational.” In long range configurations owners commonly report economical operation around 11 knots.

Aboard, notable strengths include a full beam owner’s stateroom, adaptable four or five cabin floorplans, and a spacious saloon with joinery that receives positive attention at shows. Al fresco living areas—cockpit, flybridge, and a fold out balcony—support entertaining and charter use. Routine maintenance often focuses on MTU 12 cylinder installations (M94/M96 on many listings),

with servicing on documented 250/500/1,000 hour cycles and correspondingly higher parts and specialist technician costs. Typical items highlighted by owners and brokers include high pressure fuel/injector servicing, turbocharger checks, and raw water impeller replacement. Engine rooms are generally well organized with side deck or crew access, though outboard access can be restricted where a tender garage encroaches.

## Pros and Cons

- The hybrid/long range hull together with stabiliser choices provides composed behavior whether displacing or on plane.
- Configurable 4–5 cabin arrangements and a full beam owner's suite combine with extensive outdoor spaces and a fold out balcony.
- Demonstrated adaptability for charter, family cruising, and entertainment; many vessels are offered turnkey and crew operated.
- MTU 12 cylinder powerplants necessitate scheduled 250/500/1,000 hour servicing and specialist technicians, increasing operational expense.
- Higher cost routine items can include injector and turbocharger work as well as raw water impeller replacement.
- Outboard access to the engine room may be constrained where a tender garage infringes, despite generally good internal arrangement.

## Comparison with Other Models

Model	LOA	Beam	Draft	Speed (Cruising/Max)	Gross Tonnage
88MY	88' 0" (26.82 m)	20' 0" (6.32 m)	19' 2" (5.83 m)
