OVERVIEW

Crafted by PURSUIT BOATS, the 365I SPORT COUPE is a multi-role motor yacht built on a time-tested fiberglass hull. Powered by twin YAMAHA outboards that run on unleaded fuel and equipped with a single practical head, it serves well for day excursions and short cruising weekends. Offered through Shestakov Yacht Sales, with broker Andrey Shestakov handling inquiries.

Selecting a 365I SPORT COUPE

Opting for the 365I SPORT COUPE emphasizes a manageable overall size and straightforward handling, featuring an LOA of 41 ft (12.5 m). As a motor yacht constructed with fiberglass, it offers owners robust longevity and relatively low upkeep demands suited to active use.

Consult with Andrey Shestakov and the Shestakov Yacht Sales team to evaluate how the twin YAMAHA outboard package, its compatibility with unleaded fuel, and the single-head interior plan fit your cruising profile and maintenance preferences.

Features of the Model

- Constructed by PURSUIT BOATS
- Classified as a motor yacht
- Fiberglass hull with a fiberglass deck
- Twin YAMAHA outboard powerplants running on unleaded fuel
- Practical interior layout featuring 1 head
- Overall length (LOA) of 41 ft (12.5 m)

Technical Specifications

- Builder: PURSUIT BOATS
- Model: 365I SPORT COUPE
- Length overall (LOA): 41 ft / 12.5 m
- Engines: 2 x YAMAHA
- Engine type: Outboard
- Fuel: Unleaded
- Hull material: fiberglass and plastic
- Deck material: Fiberglass
- Hull configuration: Other
- Heads: 1

Pricing and Ordering

For up-to-date pricing, current availability, or to discuss ordering the 365I SPORT COUPE, contact Andrey Shestakov at Shestakov Yacht Sales. Our brokerage can walk you through build options and estimated delivery timelines tailored to your chosen specification.

Questions and Answers

Q: What type of yacht is the 365I SPORT COUPE? A: It is a motor yacht built on a fiberglass hull, combining **motor yacht** capability with durable **fiberglass** construction.

Q: What engines power the 365I SPORT COUPE? A: The boat is driven by **2 x YAMAHA outboard** engines that operate on **unleaded** fuel.

Q: What are the overall dimensions? A: The **LOA is 41 ft (12.5 m)** , providing a well-proportioned platform for multiple cruising uses.

Q: What onboard amenities are specified? A: The listed specification includes **1 head** , offering necessary facilities for both daytime trips and short overnight stays.

Q: Who can help me order this model? A: Contact **Andrey Shestakov** at **Shestakov Yacht Sales** to review availability, pricing, and the ordering process for the 365I SPORT COUPE from PURSUIT BOATS.

Owner Experience Review

Owners frequently use the 365I SPORT COUPE from PURSUIT BOATS for family weekend cruising and island-hopping along coasts; one owner recounted a delivery run of roughly 1,000 miles while others combine cruising with recreational fishing. On-water reports describe it as "handled very well in a lot of different weather conditions," and a published evaluation observed it delivered "an even more confident feel at the helm than did the Sea Ray." Performance testing lists a top speed around ~47.3 mph, with the most economical cruise near ~32.7 mph at about ~35.5 gph; when carrying six people, recorded WOT was approximately ~43.5 mph and cruise roughly ~30.0 mph.

Owners praise the boat’s day-to-night flexibility: the layout includes a full-beam midship stateroom with a privacy door, and the salon seating electrically converts into an island-style berth. The single-level cockpit encourages easy movement, complemented by a large wet bar and a family-oriented helm lounge, while the cockpit configuration and outboard installation also make the yacht suitable for mixed cruising and fishing activities. Maintenance threads note occasional anchor-locker water intrusion attributed to inadequately sealed drain or thru-hull fittings—owners recommend inspection, re-sealing, or replacing those fittings. Some have reported component work such as replacing a Seakeeper sphere or upgrading generator and electrical

systems. Positively, the outboards provide convenient service access — cowls remove easily and the engines tilt clear of the water — though reviewers remind buyers that the Yamaha F350 setup tends to consume more fuel, so cruise operating costs are a practical consideration. These insights come from owner forums and published test data; individual experiences will vary.

Pros and Cons

• Confident handling across a range of conditions and strong performance, with WOT around ~47.3 mph and an efficient cruise near ~32.7 mph at ~35.5 gph.
• Well-considered interior and deck arrangements, featuring a full-beam midship berth with privacy door and an electrically converting salon berth.
• Outboard propulsion simplifies routine servicing, with easy-to-remove cowls and engines that tilt clear of the water.
• Some owners report anchor-locker water intrusion linked to poorly sealed drain/thru-hull fittings; inspection and resealing are recommended.
• The Yamaha F350 power package carries higher fuel consumption, making operating expenses a relevant factor at cruising speeds.
• Occasional owner reports note replacements or upgrades such as a Seakeeper sphere and generator/electrical component work.

Comparison with Other Models

Model	LOA	Beam	Draft	Speed (Cruising/ Max)	Gross Tonnage
365I SPORT COUPE	41' 0" (12.50 m)
