OVERVIEW

Built by RIVA YACHT, the 33' Aquariva Super fuses classic motor yacht lines with the approachable comfort of a cruiser. Offered through Shestakov Yacht Sales with broker Andrey Shestakov, it presents graceful proportions and the essential features for enjoyable cruising in a compact, easy to manage format.

Selecting a 33' Aquariva Super

Opt for the 33' Aquariva Super when you want enduring style paired with reliable twin inboard diesel power and the low maintenance benefits of a fiberglass construction. With an LOA of 33 ft (10.06 m), a beam of 9 ft (2.77 m), and a single head, this elegant cruiser offers intimate accommodations tailored to relaxed day and weekend outings aboard a refined motor yacht.

Features of the Model

- Twin inboard power: 2 Yanmar diesel engines deliver dependable thrust, refined power delivery, and balanced handling under way.
- Purposeful layout: A compact footprint with one head gives the onboard essentials without excess complexity.
- Construction: Traditional monohull built with a fiberglass hull and fiberglass deck for longevity and straightforward upkeep.
- Signature pedigree: The model reflects the distinguished workmanship and finish associated with RIVA YACHT.

- Engines: 2 x Yanmar
- Engine type: Inboard
- Fuel: Diesel
- Heads: 1
- Hull material: fiberglass and plastic
- Deck material: Fiberglass

Pricing and Ordering

For up to date pricing, availability, and purchase guidance on the 33' Aquariva Super from RIVA YACHT, contact Andrey Shestakov at Shestakov Yacht Sales. Our brokerage team will walk you through detailed specifications, inspections, and the steps required to secure the right vessel for your cruising needs.

Questions and Answers

Q: What type of yacht is the 33' Aquariva Super? A: It is a motor yacht positioned in the cruiser segment, constructed with a fiberglass-and-plastic hull. This combination highlights **comfort** , **style** , and **ease of ownership** .

Q: What are the engine details on this model? A: The craft is equipped with **2** Yanmar **inboard** engines running on **diesel** , providing smooth, reliable

performance suitable for confident coastal cruising.

Q: What are the dimensions of the yacht? A: The vessel measures **LOA 33 ft (10.06 m)** with a **beam of 9 ft (2.77 m)**, offering a compact yet well balanced platform for harbor and nearshore use.

Q: How many heads are onboard? A: The 33' Aquariva Super is fitted with **1 head**, supplying the basic onboard facilities within a compact layout.

Q: How do I start the purchase process? A: Contact **Andrey Shestakov** at **Shestakov Yacht Sales** for details on **ordering**, **availability**, and personalized assistance with the 33' Aquariva Super by RIVA YACHT.

Owner Experience Review

Owners generally regard the 33' Aquariva Super by RIVA YACHT as an exceptional day boat and a showpiece for social cruising. Its U shaped cockpit seating, aft sunpad and a table sized for celebrating with champagne make it especially effective for coastal entertaining, and many proprietors of larger yachts deploy it as an elegant tender. The consensus is that the boat emphasizes style and presence more than extended liveaboard comfort — some reviewers have even suggested its primary appeal is cruising about and being seen.

Underway, the 33' Aquariva Super performs in keeping with its looks: it planes rapidly, offers robust midrange acceleration, and remains composed in coastal chop. Typical comfortable cruise speeds are cited around 35–36 knots, with peak speeds near 41–43 knots, and an estimated range of roughly 150 nm when running at cruise. Testers frequently describe it as a pleasure to pilot, and a Swedish sea trial summarized the overall impression as one of safety and poise combined with performance that matches its image.

Accommodations below are deliberately modest: compact forward V berths

and a single day head accommodate brief overnight stays, though many testers questioned whether owners routinely sleep aboard. A small wet bar with a refrigerator supports daytime entertaining, while the high gloss mahogany, leather and chrome fittings create a luxurious ambiance that requires attentive maintenance. Riva's multi coat varnish process (often 10–20 coats) demands periodic care; foredeck veneers have been known to split and, in some cases, need replacement. Maintenance and cosmetic components cost more than typical runabouts; however, an electric engine room hatch facilitates routine inspections, even if the tight machinery spaces can complicate major service tasks.

Pros and Cons

- Confident, quick to plane handling with a comfortable cruise of 35–36 knots and a top end near ~41–43 knots.
- Entertaining focused cockpit featuring a U shaped lounge, aft sunpad, and a wet bar ideal for day socializing.
- Distinctive high gloss mahogany, leather and chrome finish work that creates a strong visual presence.
- Restricted overnight comfort due to small V berths and a single day head.
- High maintenance varnished woodwork (often 10–20 coats) and bespoke cosmetic elements that raise ownership costs.
- Reported instances of foredeck veneer splitting that may necessitate replacement.
