## OVERVIEW

---

Experience the iconic Aquariva Super from RIVA YACHT—a sophisticated motor yacht fashioned with a fiberglass and plastic hull that captures enduring Italian elegance. Shestakov Yacht Sales, led by broker Andrey Shestakov, stands ready to assist your acquisition with personalized guidance and a seamless transaction process.

### Selecting a Aquariva Super

---

Opting for the Aquariva Super means choosing a compact, elegant dayboat built for effortless coastal cruising. With an LOA of 33 ft (10.06 m) and a beam of 9 ft (2.79 m), the design marries nimble handling with reassuring stability. Twin Yanmar inboard gas engines provide lively thrust, and the combination of a fiberglass deck with a fiberglass and plastic hull ensures durability and straightforward ownership. Work with Andrey Shestakov and the Shestakov Yacht Sales team to check current availability and map out the best path to purchase.

### Features of the Model

---

- Proportions tuned for pleasurable day excursions: 33 ft LOA and 9 ft beam
- Twin-engine setup: 2 x Yanmar, Inboard, Gas
- fiberglass and plastic hull paired with a Fiberglass deck
- Constructed by RIVA YACHT; model Aquariva Super
- Registered as a motor yacht

---

## Technical Specifications

---

- Model: Aquariva Super
- Builder: RIVA YACHT
- Category: motor yacht
- Hull: fiberglass and plastic
- LOA: 33 ft (10.06 m)
- Beam: 9 ft (2.79 m)
- Engines: 2 x Yanmar
- Engine type: Inboard
- Fuel type: Gas
- Deck material: Fiberglass

---

## Pricing and Ordering

---

For up to date pricing, current availability, and purchase options for the Aquariva Super by RIVA YACHT, reach out to Andrey Shestakov at Shestakov Yacht Sales. Our brokerage handles viewings, prepares documentation, oversees surveys, and coordinates delivery logistics to facilitate a smooth sale.

---

## Questions and Answers

---

Q1: What are the key dimensions of the Aquariva Super? A1: The vessel measures **LOA 33 ft (10.06 m)** with a **beam 9 ft (2.79 m)** , providing confident handling and refined day-cruising characteristics.

Q2: What engines power this motor yacht? A2: Power comes from **2 x Yanmar** units configured as **Inboard** engines running on **Gas** , offering smooth and responsive propulsion.

Q3: What are the hull and deck materials? A3: The hull is listed as fiberglass

and plastic, while the deck is finished in **Fiberglass** for longevity and simplified maintenance.

Q4: Who builds the Aquariva Super? A4: The boat is produced by RIVA YACHT and is marketed as a motor yacht, emphasizing elegant design and performance.

Q5: How can Shestakov Yacht Sales help me purchase this model? A5: Contact Andrey Shestakov at Shestakov Yacht Sales for **pricing** , **availability** , **inspections** , and **delivery planning** concerning the Aquariva Super.

## Owner Experience Review

---

Owners are drawn to the Aquariva Super from RIVA YACHT for relaxed day cruises and coastal sightseeing; it's commonly seen in Venetian and Riviera charter fleets. The layout comfortably accommodates up to eight guests, centering the cockpit around a U shaped seating area with a small table, wet bar, and an expansive stern sunpad—all arranged for sociability and sun-soaked afternoons. Below decks a compact cabin provides V berths and a head for short stays, though the fine leather and mahogany/maple joinery come with constrained space and storage, so most owners do not plan extended sleeping aboard.

Underway, the Aquariva Super behaves like the planing runabout many expect: rapid and responsive, with reported top speeds in the region of 41.5–42 knots, a comfortable cruise near 36 knots, and an approximate range of 150 nm. An automatic gearbox with electronic two speed control aids in getting the hull onto plane quickly and boosts low speed acceleration, while handling at planing speeds is generally described as assured—best enjoyed in calm coastal conditions during day trips.

Ownership requires attentive care as well as enthusiasm for performance. The

mahogany decking with maple inlays needs frequent varnishing and meticulous maintenance, which leads many owners to limit time afloat—some examples are kept in the water only seasonally to preserve the finishes. Twin Yanmar diesels respond well to routine servicing of impellers, heat exchangers, and fuel filters, and electric opening engine room hatches simplify inspections. That said, replacement parts, specialized technicians, and manufacturer specific systems often carry higher costs than those for mainstream small cruisers.

## Pros and Cons

- Pro: Quick and responsive planing runabout with an approximate 36 knot cruise and a ~41.5–42 knot top speed.
- Pro: Entertaining focused cockpit featuring a U shaped lounge, wet bar, and a large stern sunpad ideal for day gatherings.
- Pro: Electric opening engine room hatches ease inspection and routine access.
- Con: Limited below deck volume means most owners avoid overnighting and longer cruises.
- Con: Exterior mahogany and maple inlays demand regular varnishing and careful storage out of the water.
- Con: Servicing and parts generally cost more than those for mainstream small cruisers due to luxury finishes and proprietary systems.

## Comparison with Other Models

Model	LOA	Beam	Draft	Speed (Cruising/...	Gross Tonnage
Aquariva Super	33' 0" (10.06 m)	9' 0" (2.79 m)
