## OVERVIEW

---

Designed for owners who prioritize performance, generous living areas, and straightforward handling, the 5000 Sport Yacht from Riviera is a contemporary motor yacht within the broader motor yachts category, built on a monohull using fiberglass construction. This model is offered internationally by Shestakov Yacht Sales, represented by broker Andrey Shestakov.

---

## Selecting a 5000 Sport Yacht

---

Deciding on a 5000 Sport Yacht means aligning your cruising ambitions with a yacht that delivers speed, comfort, and range: substantial fuel capacity of 607.6 gallons supports longer runs, while the monohull configuration provides predictable handling. With a 54 ft LOA and a 15 ft beam, the 5000 Sport Yacht offers interior space suitable for families or entertaining—sleeping 6 with room for 7 aboard—while retaining a responsive character. Contact Andrey Shestakov and the Shestakov Yacht Sales team to review inventory, confirm vessel condition and specifications, and to arrange inspections of Riviera examples.

---

## Features of the Model

---

- A twin engine expression of Riviera's performance philosophy, equipped with 2 x **Cummins** diesel motors to deliver efficient and dependable propulsion.
- Economical cruising at 24 kn (27.62 mph) with a top end near 32 kn (36.83 mph), allowing flexible scheduling and longer weekend passages.
- Practical overall dimensions: 54 ft LOA, 15 ft beam, and a draft of 13.397 ft that contribute to onboard stability and seakeeping.
- A liveaboard-capable arrangement featuring accommodations for 7, sleeping capacity for 6, and 2 heads to support extended cruising.

- Construction details include a monohull built with fiberglass construction and a durable **GRP** deck; hull design by Riviera Yachts.
- Designed as a contemporary motor yacht within the motor yachts sector, aimed at versatile coastal cruising.

## Technical Specifications

---

- Builder: Riviera
- Model: 5000 Sport Yacht
- LOA: 54 ft (16.69 m)
- Beam: 15 ft (4.75 m)
- Draft (max): 13.397 ft (4.0833 m)
- Hull configuration: Monohull
- Hull material: fiberglass and plastic
- Deck material: GRP
- Hull designer: Riviera Yachts
- Engines: 2 x Cummins
- Fuel type: Diesel
- Cruising speed: 24 kn (27.62 mph)
- Maximum speed: 32 kn (36.83 mph)
- Fuel capacity: 607.6 gal
- Water capacity: 198.13 gal
- Accommodation count: 7
- Sleeps: 6
- Heads: 2

## Pricing and Ordering

---

For up to date pricing, availability, and purchasing guidance on the 5000 Sport Yacht, get in touch with Andrey Shestakov at Shestakov Yacht Sales. Our

brokerage will assist with vessel inspections, specification verification, and negotiating terms for suitable Riviera listings.

## Questions and Answers

---

- Q: What are the key performance numbers for the 5000 Sport Yacht? A: The yacht is rated for a **cruising speed** of 24 kn (27.62 mph) and a **maximum speed** of 32 kn (36.83 mph), delivering an efficient yet lively experience for a modern motor yacht.
- Q: Which engines power this model? A: It is fitted with **2 x Cummins diesel** engines, providing dependable propulsion in keeping with Riviera's performance objectives.
- Q: How many people can the yacht accommodate and sleep? A: The interior layout supports **accommodations for 7**, with **sleeping for 6** and **2 heads**, making it well suited for family outings or hosting guests.
- Q: What is the construction of the hull and deck? A: The vessel is a **Monohull** constructed using fiberglass construction with a **GRP** deck—durable, low maintenance materials appropriate for a premium motor yachts cruiser.
- Q: How do I proceed with purchase through Shestakov Yacht Sales? A: Contact **Andrey Shestakov** at **Shestakov Yacht Sales** to review availability, schedule inspections, and submit offers on the 5000 Sport Yacht from Riviera.

## Owner Experience Review

---

Owners often choose the 5000 Sport Yacht by Riviera for family coastal trips, occasional blue water outings, and lively weekend entertaining. The single level indoor-outdoor saloon, featuring a pillarless aft door and an awning window, creates a fluid connection to the cockpit, and the tri cabin/two head arrangements have proven adaptable for couples, children, and visitors. A generous cockpit, integrated tender garage, and a

submersible swim platform accommodate toys and day guest activities, and the model is frequently used in syndication setups.

Underway, owners describe a stable, large boat feel that emphasizes comfort rather than the razor sharp responses of dedicated sportcruisers. Sea trials and owner reports note the yacht can remain "bone dry" in challenging Tasman Sea conditions, while agile marina manoeuvring is attributed to Zeus pod joystick controls and Skyhook station keeping—features that simplify close quarters work for owner operators. Performance figures vary by installation and sea state, with listings and tests commonly citing speeds in the 25–35+ knot range.

Feedback from owners also highlights the trade offs of pod drive propulsion. Routine inspections are generally accessible through the cockpit sole and hydraulic hatch with an adequately arranged engine room, but Zeus pods contain specialized components—owners occasionally report actuator or pod component faults that require experienced technicians. Typical Cummins QSC 8.3 maintenance (oils/filters, fuel filtration, turbo and cooling checks, valve/timing services) remains necessary, and many listings call out recent servicing of engines, pods, and gensets as indicators of ongoing care these systems demand.

## Pros and Cons

---

- Confident seakeeping with a comfortable, large boat ride and reports of staying dry in rough conditions.
- Joystick docking and Skyhook station keeping simplify owner led cruising and tight quarters manoeuvres.
- Single level saloon, tri cabin/two head options, sizable cockpit, tender garage, and submersible platform cater to family cruising and entertaining.
- Zeus pod installations can experience actuator or pod component faults and

commonly need specialist servicing.

- The combined complexity of engines, pods, and genset increases routine maintenance requirements and associated costs.
- Handling prioritizes comfort over the razor sharp responses sought by performance purists.

## Comparison with Other Models

Model	LOA	Beam	Draft	Speed (Cruising/Max)	Gross Tonnage
