OVERVIEW

The R 272 by ROBALO blends offshore confidence with family-friendly comfort in a sleek 27-foot package. Represented by Andrey Shestakov and Shestakov Yacht Sales, this versatile center console is equally at home chasing the bite or cruising the coastline as a motor yacht with a durable корпус из стеклопластика build.

Selecting a R 272

Choose the R 272 if you want a nimble 27 ft/8.23 m platform backed by twin power and a robust фибергласовый корпус construction. It's an ideal step-up for anglers and families seeking reliable performance and straightforward ownership, supported by Andrey Shestakov and the Shestakov Yacht Sales team.

Features of the Model

• Twin outboard propulsion from YAMAHA delivers confident handling and redundancy.
• Practical deck layout for fishing and day boating, with the resilience of a fiberglass build hull.
• Balanced size at 27 feet for easy trailering, storage, and weekend versatility.

Questions and Answers

Q: What powers the R 272? A: Twin **YAMAHA outboards** with **unleaded** fuel for dependable performance.

Q: What is the overall length? A: **27 feet (8.23 m)** , a sweet spot for capability and manageability.

Q: What is the hull made of? A: A **fiberglass construction** hull for strength and durability.

Q: Which category best describes the R 272? A: It's a **motor yacht** designed for versatile day boating and fishing.

Q: Who can help me order and inspect one? A: **Andrey Shestakov** and **Shestakov Yacht Sales** will manage **pricing** , **inspections** , and **delivery** from start to finish.

Owner Experience Review

Owners consistently position the R 272 from ROBALO as a true dual mission center console: equally at home shuttling family and friends for day trips as it is running offshore to chase fish. Feedback highlights the roomy bow that flips from lounge to casting platform, an enclosed head that makes mixed crew days practical, and a cockpit laid out with fishboxes, a livewell, and plenty of rod storage. Many note that the helm is comfortable with space for dual screens under the hardtop, and the self bailing cockpit and integrated storage keep the deck orderly during busy days.

On the water, owners describe a soft, dry ride in chop from the Kevlar reinforced variable deep V hull, with the 9'6" beam lending welcome stability both at rest and when running. With twin Yamaha power, the boat is commonly run in the mid 20s knots at cruise and can approach the 40–47 knot range at the top end, depending on horsepower. Handling is predictable and responsive, and trim tabs are frequently used to fine tune attitude in changing conditions. Routine ownership notes center on standard twin outboard service; no unique mechanical trends are commonly reported, and access for day to day maintenance is considered reasonable for a 27 footer. A few owners mention small stowage annoyances, like where to put removable bow backrests or cushions, but overall describe the R 272 as solidly built and versatile for trolling, reef runs, and weekend entertaining.

Pros and Cons

- Versatile layout shifts quickly between family cruising and serious fishing.
- Soft, dry ride with good stability from the wide beam and deep V hull.
- Helm ergonomics and hardtop visibility support long days on the water.
- Some owners find stowage awkward for removable bow backrests/cushions.
- Operating and service costs reflect typical twin outboard ownership.

• Trim tab use is helpful to optimize ride in mixed sea states.

Comparison with Other Models

Model	LOA	Beam	Draft	Speed (Cruising/ Max)	Gross Tonnage
R 272	27' 0" (8.23 m)				
R277	21' 0" (6.55 m)
