OVERVIEW

The GAMEFISH 27CB built by SEA HUNT is a multi-role motor yacht aimed at anglers and recreational boaters alike, constructed on a fiberglass-and-plastic hull. Listed and represented by Andrey Shestakov and the team at Shestakov Yacht Sales, it offers a practical mix of capability and straightforward ownership.

Selecting a GAMEFISH 27CB

Opt for the GAMEFISH 27CB when you want a compact 27-foot platform that combines twin outboard economy with the maneuverability and functionality expected from a sport fisherman-styled motor yacht. Its 9-foot beam and sensible capacity figures make it ideal for day outings where quick handling, fuel efficiency, and ease of use are priorities.

Features of the Model

• Power and fuel: twin YAMAHA outboards (2) running unleaded gasoline deliver reliable, trailer-friendly propulsion.
• Performance: an approximate cruising speed of 22.59 kn (26 mph) with a top speed in the vicinity of 39.1 kn (45 mph).
• Dimensions optimized for access and handling: 27 ft LOA, 9 ft beam, and a specified minimum draft of 5.741 ft.
• Construction: fiberglass-and-plastic hull paired with a fiberglass deck; hull configuration listed as “Other.”
• Practical capacities: 180 gal fuel capacity and 19 gal freshwater capacity to support day-long excursions.

Technical Specifications

- Builder: SEA HUNT
- Model: GAMEFISH 27CB
- Type: motor yacht configured as a sport fisherman
- Hull: fiberglass and plastic; hull configuration: Other
- Deck material: Fiberglass
- LOA: 27 ft (8.23 m)
- Beam: 9 ft (2.9 m)
- Draft (min): 5.741 ft (1.75 m)
- Engines: 2 x YAMAHA, Outboard, Unleaded
- Speed (cruise): 22.59 kn (26 mph)
- Speed (max): 39.1 kn (45 mph)
- Fuel capacity: 180 gal
- Water capacity: 19 gal

Pricing and Ordering

To confirm availability, current pricing, or to discuss the GAMEFISH 27CB in depth, contact Andrey Shestakov at Shestakov Yacht Sales. Our brokerage team will walk you through specifications, delivery timing, and the buying steps to make the purchase process smooth.

Questions and Answers

Q: What type of yacht is the GAMEFISH 27CB? A: It is a motor yacht tailored for sport fisherman use, offering a combination of **performance** and **utility** suited to day trips.

Q: What engines power the boat and what are the speeds? A: The vessel is

driven by 2 x **YAMAHA** outboard engines using **unleaded** fuel, achieving a **cruise speed** of about 22.59 kn (26 mph) and a **top speed** up to 39.1 kn (45 mph).

Q: What are the key dimensions and capacities? A: The **LOA** measures 27 ft (8.23 m), the **beam** is 9 ft (2.9 m), the minimum **draft** is 5.741 ft (1.75 m), with **fuel** capacity at 180 gal and **water** capacity at 19 gal.

Q: What is the hull made of? A: The hull is constructed from fiberglass-and-plastic construction, the deck is **fiberglass** , and the hull configuration is recorded as **Other** .

Q: How can Shestakov Yacht Sales help me order this model? A: Contact **Andrey Shestakov** at **Shestakov Yacht Sales** for personalized assistance on **availability** , **pricing** , and the process to purchase your GAMEFISH 27CB.

Owner Experience Review

Owners operating the GAMEFISH 27CB from SEA HUNT describe it as a genuine crossover: equally comfortable for family day trips and for transitioning between inshore and offshore runs, including outings beyond 20 miles when conditions permit. The CB interior sacrifices forward seating to accommodate a 256 quart coffin fishbox and an additional baitwell; users frequently commend the cockpit's fishing functionality and the abundance of storage. Typical owner-installed or factory options—such as a console head, a mezzanine 40 gal livewell, a powder coat T top with misting capability, and a factory Garmin electronics package—give the boat the flexibility to serve recreational duties when it's not being used for serious fishing.

On the water, many owners liken the hull to a "real offshore 21/24/60 bottom," reporting a comfortable, dry ride in 2–3 ft chop compared with many mid tier center consoles. Yamaha testing on the same hull has recorded about 50.5

mph top speed with twin F200s, while choosing F250s pushes top speed to roughly 57.3 mph and noticeably improves hole shot and cruising behavior. Owners fitting a Seakeeper Ride 525 observed about 44% roll reduction and 56% pitch reduction in trials with the system engaged versus disabled.

Ownership notes and caveats are commonly shared among owners. Many report that bilge access ranges from difficult to very poor; the freshwater pump is located in the bilge and batteries sit in the lower aft console, which can complicate routine maintenance and checks. A number of owners also point out fit and finish or cosmetic issues in areas that are hard to reach—exposed fittings, unfinished fiberglass, and wear to cushions or logos over time. Community pre purchase guidance emphasizes verifying twin Yamaha engine hours, determining engine generation, and reviewing service records closely, as these factors significantly influence both performance and resale value.

Pros and Cons

• Offshore capable hull that owners report provides a soft, dry ride in 2–3 ft chop.
• Strong performance with twin Yamahas: about 50.5 mph with F200s and roughly 57.3 mph with F250s, with improved hole shot and cruise on the larger engines.
• CB layout engineered for fishing effectiveness, including a 256 quart coffin box, an extra baitwell, and extensive storage.
• Bilge access is challenging, which can make pump and component servicing frustrating.
• Freshwater pump located in the bilge and batteries placed in the lower aft console complicate routine maintenance and inspections.
• Some owners note mid tier fit and finish and cushion/logo wear in difficult to service or high use areas over time.

Comparison with Other Models

Model	LOA	Beam	Draft	Speed (Cruising/Max)	Gross Tonnage
GAMEFISH 27CB	27' 0" (8.23 m)	9' 0" (2.90 m)	5' 9" (1.75 m)	22.59 kn / 39.1 kn
