## OVERVIEW

---

The Center Console from SEA-LION delivers confident 27-foot performance, everyday versatility, and straightforward ownership. Positioned in the motor yacht center-console category, it rides on a tried-and-true fiberglass and plastic hull designed for efficient speed and steady handling. Shestakov Yacht Sales — led by Andrey Shestakov — is available to help you check current availability and secure the ideal build.

## Selecting a Center Console

---

Opting for the Center Console means selecting deliberate performance and a pragmatic footprint. Measuring 27 ft (8.23 m) overall with a 9 ft (3 m) beam and powered by twin engines, this model strikes a balance between economical cruising at 30 kn and the ability to surge to 45 kn when required. The arrangement includes a single head, simplified systems, and capacities configured for full days afloat.

## Features of the Model

---

- Purpose-built center-console yacht by SEA-LION offering flexible dayboat capability inside the motor yacht segment
- Performance window: steady cruising at 30 kn (34.52 mph) with top speeds up to 45 kn (51.78 mph) when twin engines are fitted
- Sea-worthy monohull crafted by Sea-Lion Boats on a durable fiberglass and plastic hull accompanied by a fiberglass deck
- Efficient footprint: LOA 27 ft (8.23 m) and beam 9 ft (3 m)
- Draft versatility for diverse conditions: 4.921 ft (1.5 m) up to 9.843 ft (3 m)
- Essential onboard capacities: single head, 200 gal fuel capacity, and 30 gal freshwater capacity

- Hull and interior styling by Sea-Lion Boats; gross tonnage recorded at 4.5 GT

## Technical Specifications

---

- Model: Center Console
- Builder: SEA-LION
- Classification: motor yacht; center console; fiberglass and plastic hull
- LOA: 27 ft (8.23 m)
- Beam: 9 ft (3 m)
- Draft (min/max): 4.921 ft / 9.843 ft (1.5 m / 3 m)
- Engines: 2
- Cruising speed: 30 kn (34.52 mph)
- Maximum speed: 45 kn (51.78 mph)
- Gross tonnage: 4.5 GT
- Hull configuration: Monohull
- Hull material category: fiberglass and plastic
- Deck material: Fiberglass
- Hull designer: Sea-Lion Boats
- Interior designer: Sea-Lion Boats
- Heads: 1
- Fuel capacity: 200 gal
- Water capacity: 30 gal

## Pricing and Ordering

---

## Questions and Answers

---

Q: What is the yacht type of the Center Console? A: It is a center-console yacht in the motor yacht category, built on a fiberglass and plastic hull by SEA-LION. Key focus: **type** and **construction** .

Q: What are the principal dimensions? A: **LOA** is 27 ft (8.23 m), **beam** is 9 ft (3 m), and **draft** ranges from 4.921 ft (1.5 m) to 9.843 ft (3 m).

Q: How fast does it go and how many engines does it have? A: With **twin engines** , the model cruises at **30 kn (34.52 mph)** and reaches a **maximum speed of 45 kn (51.78 mph)** .

Q: What onboard capacities and amenities should I know about? A: You get **1 head** , **200 gal fuel capacity** , and **30 gal water capacity** , supporting full-day outings.

Q: How do I purchase through Shestakov Yacht Sales? A: Reach out to Andrey Shestakov at Shestakov Yacht Sales to discuss **availability** , **pricing** , inspections, and transaction steps for the Center Console by SEA-LION.

---

## Owner Experience Review

---

Owners and experienced operators configure the Center Console from SEA-LION for offshore sportfishing and commercial charter service, where full 360° fishability and a capacious insulated fishhold support extended trips and busy fishing days. The uncluttered cockpit preserves generous legroom so several anglers can move freely, and the walk-in console offers meaningful storage with an optional electric head available.

On the water, a tested single-engine installation was described as “running like a thoroughbred,” getting on plane quickly with negligible bow rise and accelerating smoothly to plane. It handled 2–3 ft chop without harsh pounding

and kept spray well above the rub rail. In a DF350 configuration, cruise numbers came in around 30 MPH at about 2.7 MPG. Maintaining one engine can reduce routine service complexity and cost at each 100-hour interval compared with twin installations. Because SEA-LION builds to order, finish and equipment vary by hull; public forum searches reveal only a few owner threads and no clear pattern of recurring structural or systems defects in the sources reviewed, so each boat should be evaluated on its own merits.

## Pros and Cons

- Runs like a thoroughbred, planes instantly with no perceptible bow rise, and rides dry in 2–3 ft chop.
- 360° fishability, clean cockpit, and a large insulated fishhold suit serious angling and charters.
- Single engine setup can cruise ~30 MPH at ~2.7 MPG and reduces routine maintenance versus twins.
- To order builds mean fit/finish and equipment vary from boat to boat.
- Limited public owner threads, so long term reliability data are scarce.
- Comfort features like the electric head are optional, and removable/folding seating prioritizes deck space.

## Comparison with Other Models

Model	LOA	Beam	Draft	Speed (Cruising/...	Gross Tonnage
