OVERVIEW

The 240 Dual Console from SEA PRO is a motor yacht built on a fiberglass and plastic hull and driven by a single Yamaha gas engine. Marketed through Andrey Shestakov and Shestakov Yacht Sales, it pairs a compact footprint with the essential features and capacities needed for confident days afloat.

Selecting a [240 Dual Console](#)

Deciding on the 240 Dual Console hinges on its sensible dimensions and uncomplicated propulsion. Measuring 24 ft (7.32 m) overall with an 8 ft (2.69 m) beam, and carrying 102 gallons of fuel plus 20 gallons of fresh water, it appeals to owners who value simplicity, capability, and Yamaha durability. For questions about inventory, build options, or matching this model to your boating plans, contact Andrey Shestakov at Shestakov Yacht Sales for expert guidance.

Features of the Model

- Single Yamaha engine running on **Gas** for straightforward servicing and ownership
- fiberglass and plastic hull combined with a **Fiberglass** deck for durable, low-maintenance construction
- Balanced proportions: 24 ft LOA with an 8 ft beam designed for stable handling
- Generous fuel tank of 102 gal and a 20 gal fresh water system for extended day trips
- Offered and supported by Andrey Shestakov and Shestakov Yacht Sales, providing local expertise

For up-to-date pricing, current availability, or to place an order for the 240 Dual Console by SEA PRO, reach out to Andrey Shestakov at Shestakov Yacht Sales. Our team will help with model selection, paperwork, and coordinating delivery tailored to your schedule.

Questions and Answers

Q: What is the LOA of the 240 Dual Console? A: The **LOA** is 24 ft (7.32 m).

Q: How wide is the beam? A: The **Beam** is 8 ft (2.69 m).

Q: What powers this model? A: The **Engine** setup is 1 x Yamaha, and the **Fuel type** is Gas.

Q: What are the onboard capacities? A: **Fuel capacity** is 102 gallons; **Fresh water capacity** is 20 gallons.

Q: What are the hull and category classifications? A: The hull is fiberglass and

plastic, and the model is a motor yacht.

Owner Experience Review

Owners and dealer listings from 2023 to the present describe the 240 Dual Console by SEA PRO as a flexible dual-console ideal for family outings, day cruises, sandbar gatherings, and watersports. Many listings cite seating for up to 10 and a deck plan that easily transitions between lounging, inshore fishing, and casual offshore day runs.

Onwater testing with a single Yamaha F300 recorded a 4.25 s time to plane and a top speed of 50.2 mph, with cruise figures near 27.4 mph at 3500 rpm and 38.0 mph at 4500 rpm. With an 18.5° deadrise and a 102-gallon fuel supply, the model supports capable midrange cruising, and both dealers and owners commonly praise its composed, smooth handling.

Comfort-wise, the boat emphasizes family use: roomy bow seating with a removable table, a typical freshwater capacity around 20 gallons, DLX pump-out head or porta-potty alternatives, a pressurized livewell, and a convertible stern lounge; some resale listings even mention the possibility of 1–2 night overnights. Forum discussions about SEA PRO boats note occasional minor finish issues (such as console leaks and loose hinge screws), isolated corrosion beneath seat-thread hardware, limited transom access on certain layouts, and inconsistent factory wiring on some examples; prudent buyers should confirm service history and arrange a thorough mechanical pre-purchase inspection.

Pros and Cons

- Versatile dual-console layout accommodates family cruising, sandbar days, watersports, and inshore to light-offshore fishing adventures.

- Yamaha F300-equipped performance yields a 4.25 s time to plane, about a 50 mph top end, and efficient midrange cruise capabilities.
- Family-oriented features include expansive bow seating with a removable table, roughly 20 gal freshwater, head options, a pressurized livewell, and a convertible stern lounge.
- Owner forums and posts about SEA PRO boats mention small fit-and-finish concerns such as occasional console leaks and loose hinge screws.
- Reports of isolated corrosion under seat-thread hardware suggest the need for routine inspections.
- Some owners report restricted transom access and less-than-ideal factory wiring on certain SEA PRO examples; a comprehensive pre-purchase survey is recommended.
