OVERVIEW

The 290 SLX from SEA RAY is a flexible motor yacht built on a sturdy fiberglass construction hull. It is listed with Shestakov Yacht Sales and represented by broker Andrey Shestakov for personalized assistance.

Selecting a 290 SLX

If you want a compact, easy-to-handle 30-foot boat for coastal cruising and entertaining, the 290 SLX offers a practical mix of size and SEA RAY construction standards. With an LOA of 30 ft (9.14 m) and a beam of 9 ft (2.95 m), this single engine MERCRUISER arrangement provides familiar driving dynamics and manageable upkeep. The fiberglass construction hull and fiberglass deck simplify maintenance tasks, while the fuel and freshwater tanks extend time away from the dock.

Features of the Model

• Category: a refined motor yacht intended for adaptable everyday use
• Construction: durable fiberglass construction hull paired with a fiberglass deck
• Power: single MERCRUISER, **Inboard/Outboard** configuration using **Unleaded** fuel
• Capacities: 130 gal fuel and 24 gal water to support longer days afloat
• Dimensions: LOA 30 ft (9.14 m), beam 9 ft (2.95 m)
• Draft range: approx. 6.299–10.4 ft (1.92–3.17 m)
• Builder pedigree: crafted by SEA RAY

Shestakov Yacht Sales, with broker Andrey Shestakov, will assist you in evaluating fit, arranging inspections, and organizing surveys and delivery for

the 290 SLX.

Technical Specifications

- Builder: SEA RAY
- Model: 290 SLX
- Category: motor yacht
- Hull material: fiberglass construction
- Deck material: Fiberglass
- Hull configuration: Other
- LOA: 30 ft (9.14 m)
- Beam: 9 ft (2.95 m)
- Draft (min): 6.299 ft (1.92 m)
- Draft (max): 10.4 ft (3.17 m)
- Engine: 1 x MERCRUISER, Inboard/Outboard, Unleaded
- Fuel capacity: 130 gal
- Water capacity: 24 gal

Pricing and Ordering

To obtain current pricing, check availability, or get brokerage advice for the 290 SLX, contact Andrey Shestakov at Shestakov Yacht Sales. Our brokerage team will coordinate inspections, negotiate terms, and manage survey, sea trial, and delivery logistics to facilitate a seamless acquisition.

Questions and Answers

Q: What type of boat is the 290 SLX? A: It’s a motor yacht produced by SEA RAY built on a fiberglass construction hull, featuring an **LOA 30 ft (9.14 m)** suitable for versatile day boating.

Q: What propulsion does it use? A: The model is powered by a single **MERCRUISER** in an **Inboard/Outboard** setup, using **Unleaded** fuel for straightforward operation and maintenance.

Q: What are the key dimensions? A: **Beam 9 ft (2.95 m)** with a **draft range of 6.299–10.4 ft (1.92–3.17 m)** provides stable handling across a variety of conditions.

Q: What are the onboard capacities? A: **Fuel capacity 130 gal** and **water capacity 24 gal** enable comfortable extended days away from the dock.

Q: How do I buy through Shestakov Yacht Sales? A: Reach out to **Andrey Shestakov** at **Shestakov Yacht Sales** to review availability and the next steps for the 290 SLX, including scheduling viewings, surveys, and delivery arrangements.

Owner Experience Review

Owners who choose the 290 SLX from SEA RAY commonly use it for family day trips and low-key weekend escapes. Many listings are mid 2000s models (approximately 2001–2008), and owner reports describe a sensible weekender layout: a forward V berth plus a convertible settee, a compact but functional galley (some boats include sink/fridge/microwave), and an enclosed VacuFlush head. Cabin standing height is limited, but the cockpit is the highlight for social use, offering U shaped aft seating, a sunpad, an integrated ice chest, and more storage than you'd expect on a 29' dayboat. Owners frequently employ these boats on freshwater lakes and occasionally in short-term rental or charter roles — examples exist on the Lake of the Ozarks.

Underway, the 290 SLX is often described as a predictable planing hull that feels composed and comfortable at typical cruising speeds. Some operators have experienced prop ventilation or cavitation when using Bravo III drives

with 3 blade props; many found switching to 4 blade props produced a dramatic improvement. A few owners report a slow hole shot when the boat is heavily loaded or fitted with tall gearing, so a comprehensive sea trial is recommended. Routine Bravo III maintenance, correct prop selection, and attention to SmartCraft or engine monitoring alerts come up frequently in owner discussions; prospective buyers should request current MerCruiser service histories and consider compression and oil analysis. Multiple owner notes also caution about potential water intrusion and decayed coring around fittings, windows, and deck hardware on older boats, so a professional pre purchase survey is strongly advised.

Pros and Cons

• Delivers a predictable, stable ride at cruising speeds with a comfortable mid range feel.
• Useful weekender interior with convertible sleeping arrangements, a modest galley, and an enclosed VacuFlush head.
• Entertaining cockpit layout with U shaped aft seating, a sunpad, built in ice chest, and surprisingly generous storage for a 29' boat.
• Bravo III paired with 3 blade props can suffer ventilation or cavitation; many owners see marked improvement with 4 blade conversions.
• Acceleration from a standstill can be sluggish when heavily loaded or with taller gear ratios, so a sea trial is important.
• Older boats may show signs of water intrusion or rotten coring at fittings and deck hardware, making a careful survey essential.

Comparison with Other Models

Model	LOA	Beam	Draft	Speed (Cruising/ Max)	Gross Tonnage

290 SLX	30' 0" (9.14 m)	9' 0" (2.95 m)	6' 4" (1.92 m) – 10' 5" (3.17 m)
