OVERVIEW

Built by SEA RAY, the SDX 270 OUTBOARD captures the feel of a larger yacht in a compact package, presented as a motor yacht on a robust fiberglass and plastic hull. Driven by a single MERCURY outboard and fitted with a fiberglass deck, it's aimed at owners who want uncomplicated, enjoyable days afloat. For availability and expert assistance, contact Shestakov Yacht Sales and broker Andrey Shestakov.

Selecting a SDX 270 OUTBOARD

When you're in the market for a flexible dayboat, the SDX 270 OUTBOARD offers a manageable **27 ft (8.23 m) LOA** combined with a **single MERCURY outboard** , making ownership and handling straightforward. As a motor yacht built on a fiberglass and plastic hull, it appeals to buyers prioritizing low-maintenance construction, reliable performance, and familiar materials. For tailored advice and availability, connect with Shestakov Yacht Sales and broker Andrey Shestakov to assess whether this setup fits your boating plans.

Features of the Model

• Constructed by SEA RAY to deliver consistent build quality and refined finishes
• Powered by a single MERCURY outboard for efficient propulsion on unleaded fuel
• Deck finished in fiberglass for longevity and simple upkeep
• Hull built within a fiberglass and plastic construction methodology
• Hull configuration listed as "Other," offering versatility for a range of recreational uses

Technical Specifications

- Category: motor yacht
- Hull category: fiberglass and plastic
- LOA: 27 ft (8.23 m)
- Engine count: 1
- Engine manufacturer: MERCURY
- Engine type: Outboard
- Fuel type: Unleaded
- Hull material: fiberglass and plastic
- Deck material: Fiberglass
- Hull configuration: Other

Pricing and Ordering

Pricing, factory options, and delivery schedules for the SDX 270 OUTBOARD depend on build choices and the buyer's region. To obtain up-to-date pricing, confirm specifications, or begin an order, contact Shestakov Yacht Sales and speak directly with Andrey Shestakov. Our brokerage team will assist with model selection, paperwork, and the purchasing process.

Questions and Answers

Q: What defines the SDX 270 OUTBOARD in its class? A: It's a motor yacht from SEA RAY offering an **LOA of 27 ft (8.23 m)** , driven by a **single MERCURY outboard** , and featuring a **fiberglass deck** atop a fiberglass and plastic hull.

Q: What powertrain does it use? A: The boat is fitted with **1 MERCURY**

Outboard that runs on **Unleaded** fuel, providing a straightforward and efficient propulsion solution.

Q: What is the hull and deck made of? A: The boat's hull belongs to the fiberglass and plastic category, the **deck material is Fiberglass** , and the **hull configuration is "Other."**

Q: Who should I contact to order or get a quote? A: For **pricing** , **availability** , and **ordering** information on the SDX 270 OUTBOARD, reach out to **Shestakov Yacht Sales** and broker **Andrey Shestakov** .

Q: Is the model suitable for day cruising and easy upkeep? A: Yes—the combination of a **single MERCURY outboard** , a **fiberglass deck** , and a fiberglass and plastic hull supports straightforward maintenance and pleasant day-use cruising.

Owner Experience Review

Owners commonly describe the SDX 270 OUTBOARD from SEA RAY as an excellent family-focused dayboat for lakes and coastal outings. The cockpit frequently receives compliments for its generous loungers, sociable seating arrangement, and convenient table setups that make entertaining effortless. Under way the hull delivers a calm, predictable feel in ordinary chop, favoring a composed ride over an aggressively sporty character.

For tow-sport activity, owners report favorable responses when the boat is matched with an appropriately powerful single outboard; many reference setups in the 300–350+ hp range for brisk acceleration. Typical cruising speeds fall in the mid 20s to low 30s knots depending on engine selection, with fuel consumption described as reasonable relative to the delivered performance. It isn't designed as a heavy-wake towboat, and reviewers note distinguishable wake and handling differences when compared to sterndrive variants. The

small cuddy provides space suitable for children or brief overnight stays; onboard galley and refreshment facilities are minimal, though storage compartments and cupholders are thoughtfully positioned for daytime use.

Feedback on maintenance for the outboard arrangement is generally positive: routine servicing tends to be simpler with easier access at the transom and less complex rigging than sterndrive systems. Buyers and surveyors advise careful inspection of wiring and hose routing at the transom and recommend standard pre-purchase checks—electrical system condition, gelcoat or cosmetic repairs, and trim tab and steering operation. Interior finish and upholstery are considered high-quality and comfortable, but older boats can display wear at seat seams and on vinyl panels that may need attention.

Pros and Cons

• Predictable, stable ride in typical chop with a balanced hull feel.
• Spacious, social cockpit with comfortable loungers and practical table options.
• Outboard layout simplifies routine service and provides straightforward access.
• Compact cuddy with limited headroom suits short stays rather than extended cruising.
• Not a heavy-wake towboat; wake and performance differ from sterndrive versions.
• Upholstery seams and vinyl on older examples can show wear and require attention.

Comparison with Other Models

Model	LOA	Beam	Draft	Speed (Cruising/ Max)	Gross Tonnage

SDX 270 OUTBOARD	27' 0" (8.23 m)				
Sundancer 320 OB	34' 0" (10.36 m)	10' 0" (3.18 m)	11' 6" (3.50 m)
