OVERVIEW

Meet the SDX 270 from SEA RAY—a flexible 27-foot motor yacht designed within the runabout segment. Built with a fiberglass and plastic hull and a fiberglass deck, this single engine platform blends user-friendly operation with comfortable day cruising amenities. Listings and representation are handled by Andrey Shestakov and the team at Shestakov Yacht Sales.

Selecting a SDX 270

Deciding on a 27 foot dayboat often comes down to straightforward systems, onboard comfort, and economical operation. With an LOA of 27 ft (8.23 m) and an 8 ft (2.59 m) beam, the SDX 270 provides clear dimensional limits for berth planning and route selection; its documented drafts are 7.119 ft / 10.4 ft (2.17 m / 3.17 m). Propulsion is a single MERCRUISER specified by SEA RAY with an Inboard/Outboard arrangement running on unleaded fuel to keep ownership uncomplicated. The layout includes one head and practical tankage—75 gallons of fuel and 14 gallons of water—that supports full days on the water. Contact Andrey Shestakov and Shestakov Yacht Sales to explore inventory within the motor yacht runabout category.

Features of the Model

• The SDX 270 is equipped with a single MERCRUISER powerplant using an Inboard/Outboard drive and designed to operate on unleaded fuel—keeping operation and maintenance straightforward.
• The boat’s build couples a fiberglass deck with a fiberglass and plastic hull for a durable, sea friendly structure.
• Practical day boat convenience is provided by 1 head, adding onboard comfort for passengers during outings.

• Tankage is sized for day cruising: 75 gal of fuel and 14 gal of fresh water to cover typical short excursions.
• Dimensional data define its on dock footprint and handling envelope: LOA 27 ft (8.23 m), beam 8 ft (2.59 m), with listed minimum and maximum drafts of 7.119 ft / 10.4 ft (2.17 m / 3.17 m).
• Hull arrangement: Other; categorized as a motor yacht within the runabout class.

Technical Specifications

• Length overall (LOA): 27 ft (8.23 m)
• Beam: 8 ft (2.59 m)
• Draft (min/max): 7.119 ft (2.17 m) / 10.4 ft (3.17 m)
• Engines: 1 × MERCRUISER
• Engine type: Inboard/Outboard
• Fuel type: Unleaded
• Heads: 1
• Fuel capacity: 75 gal
• Water capacity: 14 gal
• Hull material: fiberglass and plastic
• Deck material: Fiberglass
• Hull configuration: Other
• Classification: motor yacht; runabout

Pricing and Ordering

To obtain up to date pricing, check current listings, or begin the purchase process for a SDX 270, please contact Andrey Shestakov at Shestakov Yacht Sales. Our brokerage team will assist you through selection, availability checks, and the transaction for this motor yacht runabout by SEA RAY.

Questions and Answers

Q: What type of yacht is the SDX 270? A: It's a motor yacht in the runabout class with a fiberglass and plastic hull. Key points: **Type** : motor yacht; **Class** : runabout; **Hull** : fiberglass and plastic; **Deck** : fiberglass.

Q: What are the key dimensions of the SDX 270? A: **LOA** : 27 ft (8.23 m); **Beam** : 8 ft (2.59 m); **Draft** : 7.119 ft min / 10.4 ft max (2.17 m / 3.17 m). These figures help plan berths and cruising depths.

Q: What propulsion and fuel does it use? A: **Engine** : 1 × MERCRUISER; **Drive** : Inboard/Outboard; **Fuel** : Unleaded. This single-engine setup emphasizes **simplicity** and **efficiency** .

Q: What onboard amenities and capacities are included? A: **Heads** : 1; **Fuel capacity** : 75 gal; **Water capacity** : 14 gal. These **capacities** support comfortable day trips.

Q: How do I purchase through Shestakov Yacht Sales? A: Reach out to Andrey Shestakov at Shestakov Yacht Sales to discuss **availability** , **pricing** , and the **purchase process** for the SDX 270 by SEA RAY.

Owner Experience Review

Owners commonly select the SDX 270 from SEA RAY for family focused day trips and relaxed weekend outings, where the convivial deck boat layout performs well. The cockpit is frequently described as genuinely spacious, featuring convertible seating arrangements, an ample bow lounge, and a large aft sunpad; in practice the layout comfortably accommodates 6–12 people for social cruising. The helm ergonomics and visibility are often highlighted positively, and the compact head plus sensible storage solutions align with day use expectations. A number of units circulate in rental and sale markets,

underscoring the model's flexibility for private ownership and light commercial rental programs.

On the water, the SDX 270 gets on plane quickly and tracks predictably in typical coastal and lake chop. Real world trials commonly report cruising speeds in the mid 20s mph, with top speeds reaching the mid 40s mph depending on engine configuration, prop selection, and loading. Models equipped for surfing produce a usable wakesurf or wakeboard wake, aided by hull design, trim systems, and stern features tailored to watersports. Not all feedback is positive: at least one professional survey identified a low battery no start and a loose seawater hose to the steering cooler on a specific unit, and some owners recount challenges with dealer or warranty responsiveness. Routine sterndrive maintenance—replacement of bellows, inspection of gimbal bearings, water tubes, and corrosion control—remains an important part of ongoing ownership.

Pros and Cons

• Roomy, social cockpit with convertible seating, an expansive bow lounge, and a large aft sunpad that make it well suited to family dayboating.
• Secure, confident handling with rapid planing; typical cruise speeds in the mid 20s mph and top speeds into the mid 40s mph depending on setup.
• Surf equipped variants create a usable wakesurf/wakeboard wake and include practical transom features for watersports.
• The head and onboard amenities are compact, optimized for day trips and short overnights rather than extended cruising.
• Reported friction with dealer and warranty service can result in inconsistent after sale support.
• Regular sterndrive upkeep—replacement and inspection of bellows, gimbal bearings, hoses, and corrosion protection—requires attention and occasional haul out.

Comparison with Other Models

Model	LOA	Beam	Draft	Speed (Cruising/ Max)	Gross Tonnage
SDX 270	27' 0" (8.23 m)	8' 0" (2.59 m)	7' 1" (2.17 m) – 10' 5" (3.17 m)
